

# Apple External Hard Drive

## Features

### Front-panel controls

- Provides unique front-panel SCSI ID display, which makes it easy to check or change SCSI ID as needed
- Offers front-panel power-on switch for easy operation

### Bundled utility software

- Comes with easy setup program
- Includes powerful disk-repair utilities
- Enables data compression for storage efficiency
- Provides comprehensive backup capacity

### Rapid, reliable service options

- Lets you call a toll-free number for support as needed
- Provides for repairs by Apple-authorized service professionals

### Convenience

- Comes with everything required to get it running right away; includes power cable, SCSI cable, and terminator

### Compatibility

- Supports Macintosh SE 30 and later models—no potential problems or need for complicated retrofits

### System software

- Bundled software requires system software version 6.0.5 or later

The Apple External Hard Drive provides Macintosh owners with a convenient, easy storage upgrade option that comes in capacities of up to 1 gigabyte. And it incorporates design and support features that make it the clear choice for additional storage capacity for your computer—or additional font storage for your laser printer.

Featuring a flexible, esthetic design, the Apple External Hard Drive can be set up either vertically or horizontally. And its front-panel controls make it convenient to use no matter how it's positioned.

To help you get started quickly, the Apple External Hard Drive includes everything you need to set it up; it's packaged with a power cable, a SCSI cable, and even a terminator.

In addition, the drive comes with a variety of utility software, so operation is also a snap. Programs include an easy-to-use setup function, powerful disk-repair utilities, file-compression software, and even a comprehensive backup utility to ensure the continued safety and security of your files.

If you should experience any problems with your Apple External Hard Drive, help is only a toll-free phone call away. Any repairs that might be needed will be provided by Apple-authorized professionals, so you're assured of fast, competent service.
