There is an error in the listing at the top of the page. It reads:

```
var:
  g_array:array[0..20] of 0..255;
begin
  g_array[0]:=19; g_array[1]:=2;
  unitwrite(1,g_array,2,,12);
end;
```

It should read:

```
var:
  g_array:packed array[0..20] of 0..255;
begin
  g_array[0]:=19; g_array[1]:=2;
  unitwrite(1,g_array,2,,12);
end;
```

All of the reference numbers on the keys need to have one added to them to match the table on page 136.
