DTC/86

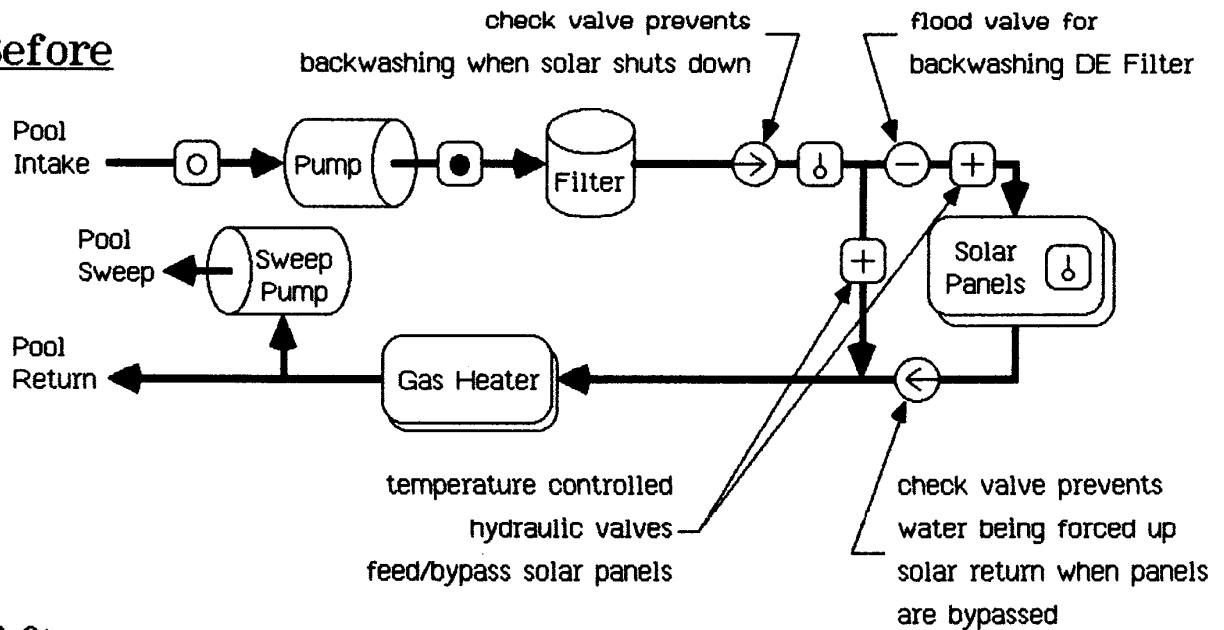

In hot engine the pressure is low. Plunger of pressure relief valve now can rise to the highest position, blocking gallery to left and by-pass port at right.

MEMORANDUM

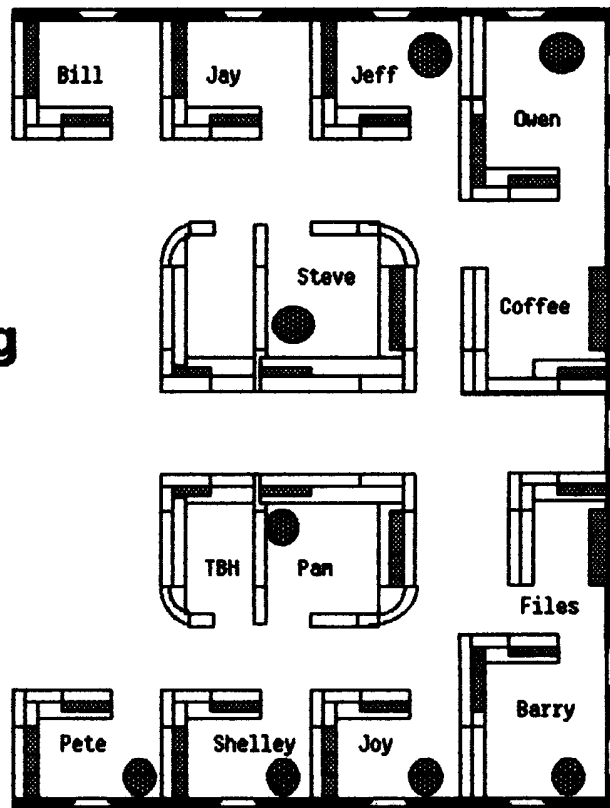

John --

January 27, 1983

Here's a copy of the alternative floor plan for our section. Please look it over. This arrangement would give us more offices with windows, though of course they are smaller than the current layout. It also allows room for 3 more offices. What do you think?
