

# JACK NICKLAUS PRESENTS THE MAJOR CHAMPIONSHIP COURSES OF 1990™

Designed by: Ned Martin, Sculptured Software, Inc.  
Producer: Mark Wallace

## Instructions for IBM PC and Tandy

- 1 Use the standard DOS procedure (check your computer manual if you need more info) to make a backup copy of the Championship Courses before you use it. Label your backup disk **Major Championship Courses of 1990** and put your original away for safe-keeping.
- 2 If you have Jack Nicklaus' **Greatest 18 Holes of Major Championship Golf**: Boot up the game as you would normally, then when prompted to insert a course disk, replace the disk in the drive with the Championship Courses disk. You can now choose to play any of the three courses: Medinah #3, St. Andrews or Shoal Creek.

- If you have the 3.5" version, boot your **Greatest 18** disk as you would normally. When the course options appear, replace the disk in the drive with the Championship Courses disk and press the **space bar**.

**If you have Jack Nicklaus' Unlimited Golf & Course Design:** Boot the game as normal. When the Course Selection screen appears, insert the Championship course disk into a floppy drive and press the letter of the drive containing the disk (i.e. A or B). You can now choose to play any of the three courses: Medinah #3, St. Andrews or Shoal Creek.

- 3 After you choose one of these courses, an overhead view of one of the holes appears on screen. To pass this screen, type the number of the illustration on the new Jack Nicklaus 1990 Course Sheet that is identical to the hole on your screen. Now you're ready to play.

**Note:** If you've installed the Nicklaus game on your hard drive, just copy the files from the Championship Course disk into the same sub-directory as the program. Begin the game as usual, and select the course you wish to play.

(over)

## **Instructions for Commodore 64/128**

**Note:** You might want to use any commercially available copying program to make a back-up copy of the disk.

- 1 Boot up **Jack Nicklaus' Greatest 18 Holes of Major Championship Golf** as you would normally, then when prompted to insert a course disk, replace the disk in the drive with the **Championship Courses** disk. Put it in either label side up or down, depending on which course you want to play:
  - To play either **Medinah #3** or **Shoal Creek**, put the disk in label side up, and when prompted, press the number beside the course you want to play, and that course will load automatically.
  - To play **St. Andrews**, put the disk in label side down and press the **fire button**. The course will load automatically.
- 2 After you choose one of these courses, an overhead view of one of the holes appears on screen. To pass this screen, type the number of the illustration on the new **Jack Nicklaus 1990 Course Sheet** that is identical to the hole on your screen. Now you're ready to set up a match.

## **Instructions for Apple IIGS, Amiga , Macintosh**

- 1 Use the standard **PRODOS (IIGS)**, **Workbench (Amiga)** or **Desktop (Mac)** to make a back up copy of the **Championship Courses** before you use it (check your computer manual if you need more info on making a backup disk). Label your backup disk **Championship Courses of 1990** and put your original away for safekeeping.
- 2 Boot up **Jack Nicklaus' Greatest 18 Holes of Major Championship Golf** as you would normally, then when prompted to insert a course disk, replace the disk in the drive with the **Championship Courses** disk. You can now choose to play any of the three courses: **Medinah #3**, **St. Andrews** or **Shoal Creek**.
- 3 After you choose one of these courses, an overhead view of one of the holes appears on screen. To pass this screen, type the number of the illustration on the new **Jack Nicklaus 1990 Course Sheet** that is identical to the hole on your screen. Now you're ready to set up a match.
