Aldus FreeHand: Dedicated to Design and Illustration

Aldus FreeHand's floating palettes provide easy access to colors, layers, and styles.

Aldus FreeHand® combines an elegant interface with exceptional power to give you the easiest-to-use software for creating high-quality graphics. It's the most comprehensive design and illustration tool you can use—from rough sketches to full-color production.

Graphic designers, publishing and printing houses, and technical and business professionals can illustrate ideas using Aldus FreeHand. Use it for anything from logos and forms to marketing and advertising collateral, technical illustration and product packaging to fine art and textile design, information graphics to games and maps.

Whatever your field, you'll quickly benefit from Aldus FreeHand's simplicity, powerful performance, and versatile production features.

The Creative Edge
in Business

Powerful drawing tools

With Aldus FreeHand's well-stocked toolbox, it's easy to trace, create, and modify elements:

- Draw virtually any shape using basic, pen, freehand, and point-to-point drawing tools
- Vary line weights using keyboard shortcuts or a pressure-sensitive drawing tablet
- Edit design elements with advanced tools such as knife, skewing, and rotation tools

Ease of use

Aldus FreeHand makes it easy to get up to speed and explore your creative ideas:

- Experiment with confidence—you have up to 99 levels of "Undo" and "Redo"
- Edit, duplicate, group, and move elements in full-screen color preview or keyline mode
- Use on-screen palettes to define, name, organize, edit, and apply your own colors, graphic styles, and layers
- Organize elements on named layers, rearrange their stacking order, and choose which layers to view or print

Precision and performance

Aldus FreeHand's accuracy and responsiveness speed your design and production:

- Experience smooth, "flicker-free" drawing and fast screen-redraw and printing speeds
- Position elements using a visible grid, snap-to-grid and snap-to-point features, and precision to 1/10,000 of a PostScript point

Graphics and text—together

Aldus FreeHand is superbly designed for manipulating on-screen text and graphics:

- Enjoy typesetting precision with kerning, letter/word spacing, baseline shift, horizontal scaling, and other professional features
- Convert Type 1, Fontographer Type 3, and TrueType fonts to fully editable outlines
- Add variety to text with fill-and-stroke, shadow, zoom, and other effects

- Join text to any line—straight or curved, even to the top and bottom of an ellipse
- Use blends to create airbrush effects; easily edit them with the auto-reblend feature

Versatile production features

Aldus FreeHand has all the power you need to take your design from rough sketch to printer-ready material:

- Apply, import, and export spot colors, tints, or process colors (CMYK or RGB), including PANTONE® Colors
- Print color separations of all elements, including color TIFF files, directly to an image-setter or OPI-compatible prepress system
- Import TIFF, PICT, PICT2, EPS, and paint files in color, grayscale, or black-and-white; export files in PICT, PICT2, and EPS formats
- Swap illustrations with the Windows version of Aldus FreeHand 3.0

System configuration

System 7 savvy (also runs under System 6.0.5 or later)

Recommended: Apple Macintosh II series, SE/30, or Portable computer, 4MB of RAM (5MB under System 7), an 80MB hard disk

Minimum: Macintosh SE, LC, Classic, or Plus, 2MB of RAM, a hard disk

Output device: PostScript-compatible or QuickDraw-compatible laser printer; PostScript-language imagesetter

Package designed, written, and produced with Aldus FreeHand and Aldus PageMaker.®

NOTICE

Before opening the disk packs inside this package, carefully read the license agreement, also found inside the package. That agreement grants you a nonexclusive, nontransferable license to use the software, but in no way transfers title of the software from Aldus Corporation to you. By breaking the seal on any of the disk packs, you accept the terms of that agreement. If you do not accept the terms of that agreement, please return all of the disk packs unopened, along with the rest of the package, immediately to your dealer.

Why should you register?

By registering your Aldus product you receive:

- 90 days of free telephone technical assistance, beginning with your first call. A staff of Aldus software specialists will help you solve any problems you may encounter as you learn to use the software.
- A sample copy of our bimonthly *Aldus Magazine*, which includes customer profiles, how-tos, in-depth articles, and a Q&A section. When your copy arrives, watch for the free subscription card on the wrapper.
- Advance information about new Aldus product releases, service programs, and updates and new releases of your Aldus product (updates are minor revisions between major new releases).
- A trial subscription offer to the CompuServe information network, where you have access to the Aldus Forum, a library of technical information on all Aldus products.
- Free replacements for defective disks or manuals during our 90-day product warranty period. (Before returning any materials, please contact an Aldus Customer Relations representative at 206-628-2320 for an authorization number.)

You can purchase additional support services for your registered product. For information, see the Aldus CustomerFirst™ brochure in your product package.
