

APACHE STRIKE

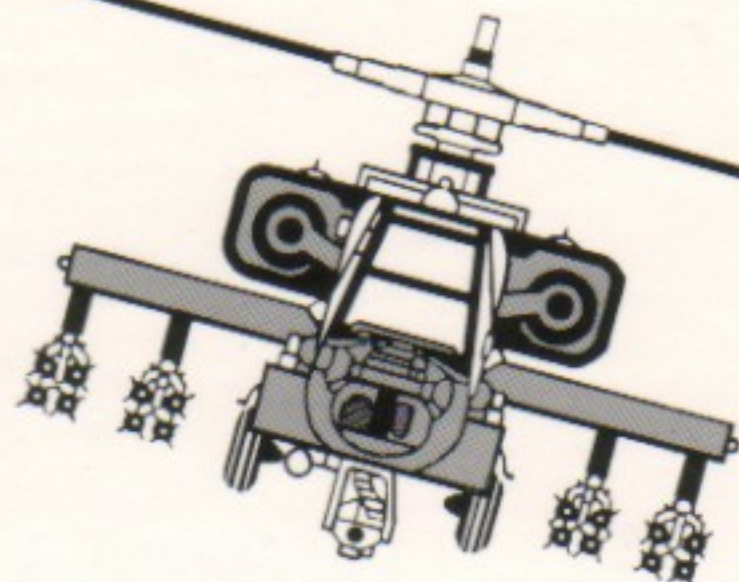

APACHE STRIKE™

A 3-D Action Game
featuring RealSound™
For the Macintosh

APACHE STRIKE

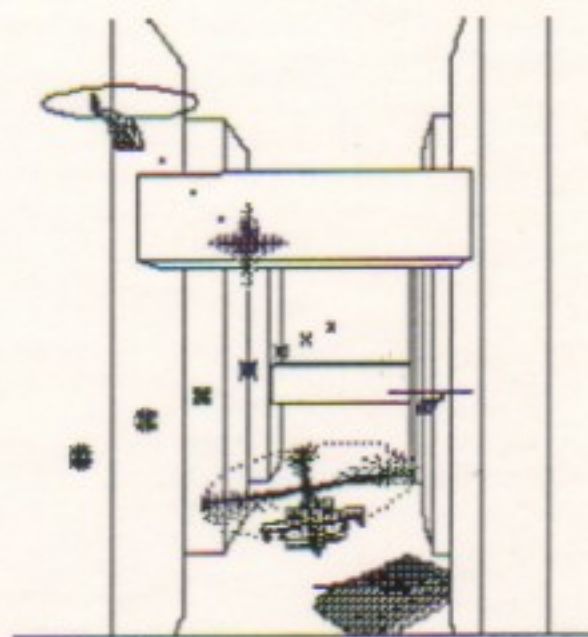

Your Mission:

Pilot the helicopter that will penetrate enemy cities and destroy their Strategic Defense Computers before they are used to launch an all-out nuclear attack.

Apache Strike is fast-paced and easy to play at first, yet constantly challenging because of its unlimited levels of difficulty. All the action is controlled by the mouse. You make the chopper dive, climb, and take dangerous corners in a split second simply by moving your mouse forward, back, left, and right. Your machine guns and missiles are controlled with the mouse button.

Apache Strike has 3-D animation like you've never seen before on a Macintosh. Animation that's so good, it rivals coin-operated arcade machines! And then there are the sounds of furious battle exploding all around you, provided by Silicon Beach's unique *RealSound*. You'll be riveted to your seat as your heart pounds and the tension mounts.

Scramble, scramble! The klaxon has just sounded. The flight crew reports that your bird is ready to launch. Hop in and grab the stick...er, the mouse that is. You're about to experience combat at its fiercest!

System Requirements:

Macintosh Plus, SE, or II. One disk drive.

550-002

Getting Started -----

First, fill out the attached warranty card and mail it to our corporate offices. Then, duplicate your original disk and put the original in a safe place. You may also install **Apache Strike** on your hard disk. Should you have a question about **Apache Strike**, please take a moment to review the enclosed instruction sheet. If you encounter any problems, you can contact our technical support staff at (619) 695-6956 between the hours of 8 a.m. and 5 p.m. PST for additional assistance before sending in your disk. Quite often, we can solve your problem over the phone.

Our Request -----

Thank you for purchasing our software. We've put a great deal of time, effort, and money into developing and publishing **Apache Strike** for you. For your convenience, our software is not copy protected. We have placed our trust in you to make backup copies for your *personal* use and to refrain from making copies for other people who have not purchased this program. We have done our part. Please do your part.

Enjoy your new program!
