**CASADY &  
GREENE**

### Welcome to Casady & Greene.

*Thanks for your interest in our products!*

Casady & Greene has been developing software for many years and some of you have been with us since the beginning - all the way back to the original Fluent Fonts and then QuickDEX™ and Crystal Quest™! A special thanks to you, our loyal customers, for your continued support. Our company goals have always been to offer innovative, quality software, and to keep the customer happy. Your continued patronage tells us that we're on the right track.

### How to order Casady & Greene products:

**Call us: 800-359-4920**

**or 408-484-9228**

**Fax us: 408-484-9218**

*Interested in special prices for quantity orders? Call us and ask about site-license information on your favorite software.*

**22734 Portola Drive • Salinas, CA 93908-1119**

# REQUIREMENTS FOR ALL CASADY & GREENE FONTS:

## ■ IBM/PC REQUIREMENTS:

### TrueType™ fonts:

- IBM/PC compatible
- Windows 3.1 or later
- Most Windows supported printers

### PostScript fonts:

- IBM/PC compatible
- Windows 3.0 or later
- Adobe Type Manager® (ATM®) with most Windows supported printers

### OR:

- DOS version of WordPerfect 5.1 with a PostScript printer
- DOS version of Microsoft Word 5.0 with a PostScript printer
- OS/2 2.0 with ATM.

## Special Note for IBM/PC Cyrillic or IBM/PC Eastern

**European fonts:** Requires VGA, Super VGA, or 8514 compatible monitor. With Ventura Publisher® for Windows, not all characters will be available. Cyrillic fonts require WordPerfect's Russian Language module for use with DOS WordPerfect.

## ■ MACINTOSH REQUIREMENTS:

### TrueType fonts:

- Supports most printing devices including Apple StyleWriter, Personal LaserWriter LS, dot-matrix printers, ink jet printers, and laser printers with System 6.07 or later.

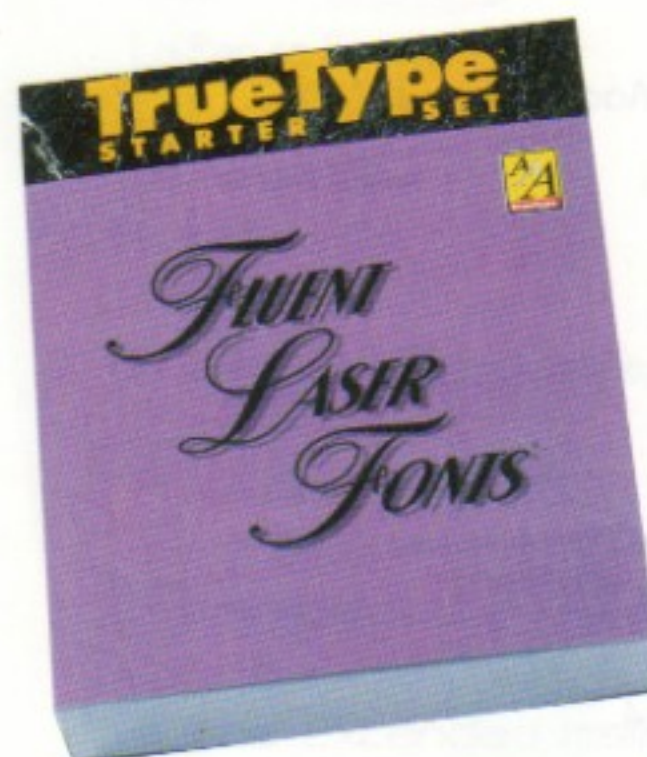

### PostScript fonts:

- Works on PostScript printers or on non-PostScript printers using Adobe Type Manager (ATM).

# TRUETYPE™ STARTER SET™

All the fonts you need to create professional-looking printouts with your NON-PostScript printer. Includes 22 high-quality TrueType fonts in a great and useful variety of styles. Quick to install and simple to use, the TrueType Starter Set can make your documents, memos and invitations the outstanding attention-getters they deserve to be.

# SNAP MAIL™

Hassle-free Electronic Messaging

Now, with Snap MAIL, you can enjoy the benefits of electronic messaging without hassles AND, without the expense of extra equipment! Snap MAIL is so easy to learn that everyone loves using it!

Snap MAIL is being used on Macintosh networks from two to 200, in workgroups, schools, homes, and offices of all sizes.

Snap MAIL offers these hassle-free advantages:

- Easy to install and learn
- Requires NO administrator or dedicated server
- Supports AppleTalk Remote Access™
- Perfect for PowerBooks™
- Offers conferencing and instant alerts
- Transfers documents effortlessly
- Works fast!

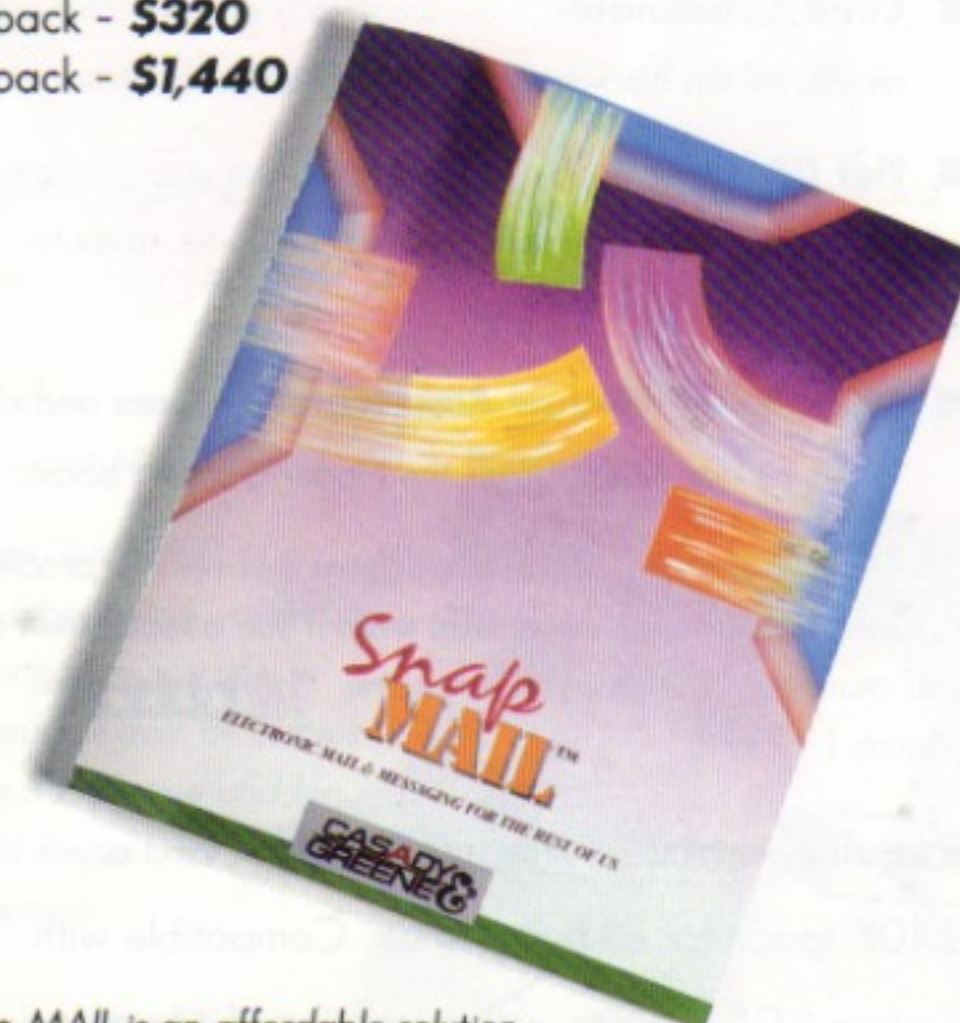

**Requirements:** Any Macintosh with 1 MB RAM; B&W or color monitor; System 6.02 or greater (System 7 compatible); and an AppleTalk Network.

Suggested retail price:

5 pack - **\$200**

10 pack - **\$320**

50 pack - **\$1,440**

"Snap MAIL is an affordable solution for our business messaging needs,"  
Charles Pizzo, P.R. PR Inc., New Orleans, LA.

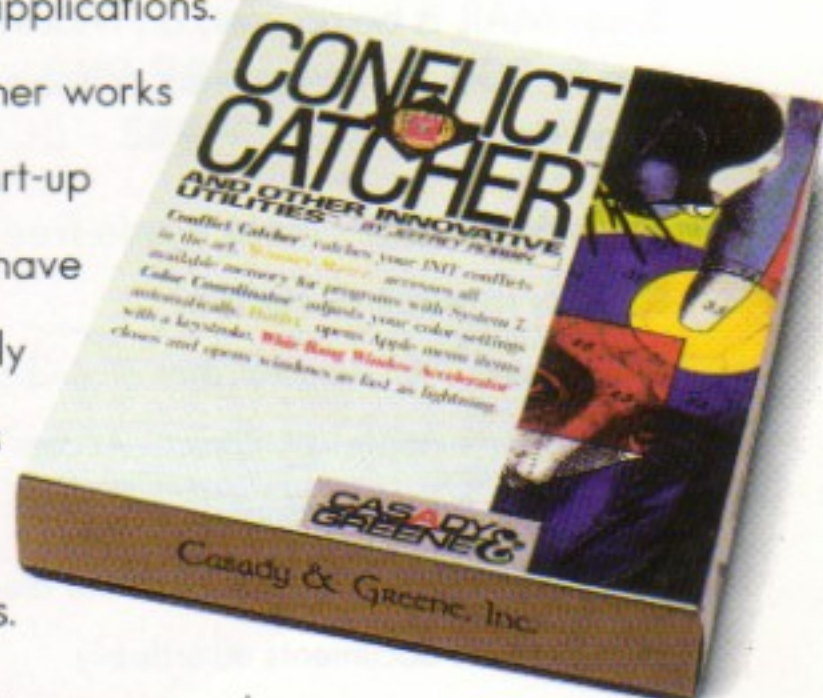

# CONFLICT CATCHER™

and other Innovative Utilities™

Conflict Catcher puts you in charge of managing your start-up software. It can also find and solve problems caused by conflicts between Extensions, INITs, Control Panel devices and applications.

Since Conflict Catcher works with your current start-up software, it doesn't have to refer to the quickly outdated databases used by other diagnostic programs.

Actually five products in one package:

- **Conflict Catcher™** - streamlines your work by combining problem solving with start-up software management.
- **Memory Maxer™** - allows you to dedicate all memory to one memory-hungry application, under System 7.
- **Color Coordinator™** - automatically adjusts color settings as you switch back and forth between programs.
- **Hot DA™** - opens any Apple Menu item with a single keystroke. Pastes graphics or text into your favorite Desk Accessory.
- **Whiz-Bang Window Accelerator™** - opens and closes windows in a flash. Gives the Finder a speed boost.

"Conflict Catcher's ability to track down INIT-related problems makes it a worthwhile investment even if you already own an INIT manager." Macworld Magazine, March 1993

**Requirements:** A Macintosh with a hard drive. 240K space for all five utilities. Compatible with System 6.05 or later, with exception of Memory Maxer, which requires System 7. Color Coordinator is for color Macs only.

Suggested retail price: **\$79.95**

# SUPER QUICKDEX™

Super QuickDEX includes four powerful utilities:

- **QuickDEX™ II** - a blindingly fast free-form database
- **PrintDEX™ II** - a powerful printing utility and data manager
- **QuickELOPE™** - a single label or envelope printing utility
- **HotDEX™/HotELOPE™** - an INIT that can open any Desk Accessory (or alias with System 7) through simple, user-defined keystroke commands.

With Super QuickDEX you can instantly locate an address (or any information), merge it with addresses in other card decks, import or export addresses, print mailing labels for your card decks, print one label or envelope for a single address, add a return address or a graphic to labels, print address books, open up your DA's with simple keystrokes. **AND MUCH MORE!**

You can finally get rid of your stacks of sticky notes, index cards, and rubber-banded business cards. It uses surprisingly little memory and when it comes to speed, Super QuickDEX leaves the competition in the dust.

**Requirements:** MacPlus or greater, prefers a hard drive. System 6.02 or greater. System 7 compatible.

"Once you install it, you can't live without it." Steve Levy, Macworld Magazine

"Super QuickDEX's ... auto-label-sizing, voice-mail-blasting, and speed advantage over all comers make it addictive and fun." David Pogue, Macworld Magazine

Suggested retail price:

**\$89.95**

# A.M.E. 2.1™ - ACCESS MANAGED ENVIRONMENT™

The most complete security solution for the Macintosh is now System 7 compatible. A.M.E. 2.1 is a comprehensive security and virus program that gives the Macintosh user or manager an excellent way to create a secure work place, while increasing productivity. It can provide everything from simple, limited hard drive access on a home Macintosh to a completely secure government or corporate environment.

## ■ A.M.E. protects your workplace with:

- Multilevel control of access to sensitive information
- Software piracy protection
- Continuous virus protection
- Controls on hardware and software usage
- And much more!

The Activities Log feature can be set to monitor selected activities. Powerful filtering capabilities let you analyze the log by user, activity, and time. The results can then be exported to a spreadsheet or text file and saved anywhere on a network. It's perfect for monitoring hardware and software utilization for government or corporate reports.

## ■ New features in Version 2.1 include:

- System 7 compatibility
- New higher security password scheme
- The ability for an A.M.E. Administrator to allow remote users to change their password - by telephone - without jeopardizing security. Support for Dynamic Password cards - an alternative to having to remember passwords.
- Closes several System 7 security loopholes

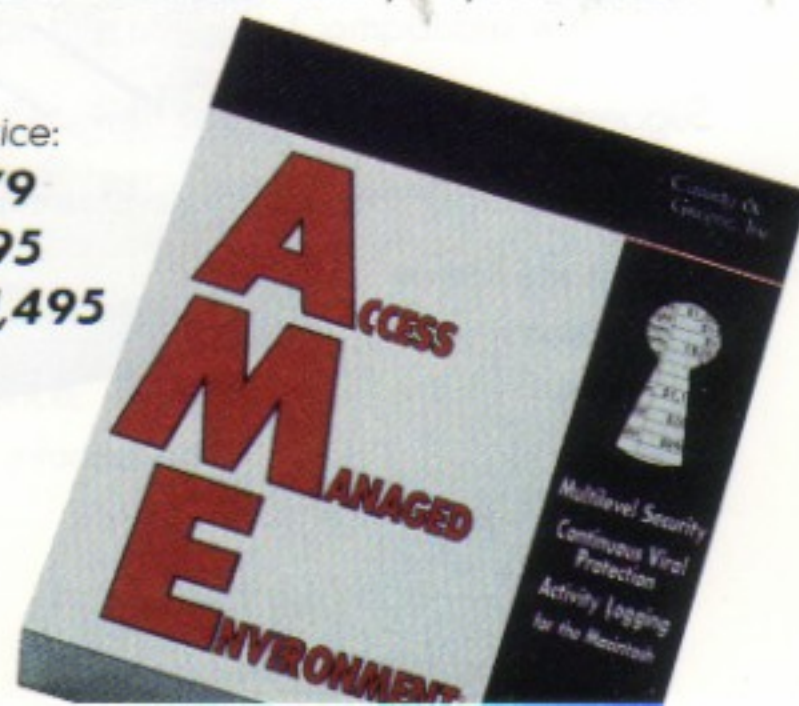

When it comes to security - nothing beats A.M.E.

**Requirements:** MacPlus or greater, 1 MB RAM, hard disk. Uses about 130K of memory. System 6.02 and greater.

Suggested retail price:

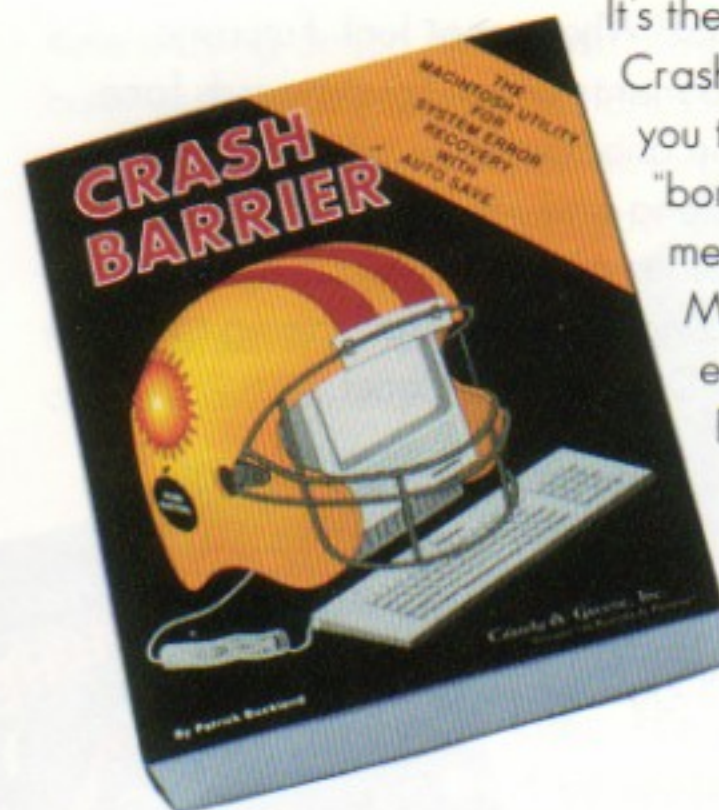

- 1-site pack - **\$279**
- 5-site pack - **\$895**
- 10-site pack - **\$1,495**

Call for site license information.

# CRASH BARRIER™

★★★★ 1/2 MacUser Magazine

It's the first of its kind. Crash Barrier can help you to deal with the "bomb" or System Error message on your Macintosh. It's an easy-to-use Control Panel Device that can provide a way to recover in the event of the dreaded "crash".

## Features:

- **System Error Reduction** - warns you about specific problems (i.e. not enough system memory) before the crash occurs.
- **System Error Recovery** - can help you recover from system errors; improves chances of recovering unsaved work after a system error; helps avoid potential damage to your system or hardware.

Crash Barrier also offers an "Auto-Saving" feature that gives the user a measure of security by preventing the loss of work should a crash occur.

**Requirements:** MacPlus or greater. System 6.02 or greater, System 7 compatible with balloon help.

"... you should get Crash Barrier on all the systems now." Don Crabb, Byte Magazine

"... It's a must-have for all intermediate and advanced Mac owners and a worthwhile investment for even the greenest of users." Steven Bobker

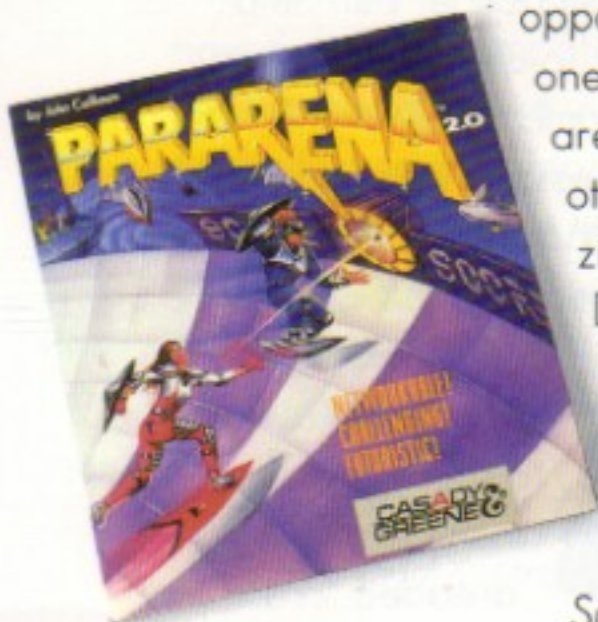

Suggested retail price: **\$79.95**

## PARARENA 2.0™

New! A networkable space-action game by John Calhoun, author of award-winning Glider 4.0. What sounds! What graphics! What great fun! Futuristic opponents on air-hoverboards face one another in an outer-space arena and send the ball (or each other on an AppleTalk Network) zinging into a challenging target! Don't miss this one!

**Requirements:** Mac Plus or greater, supports B&W or color, System 6.02 or greater.

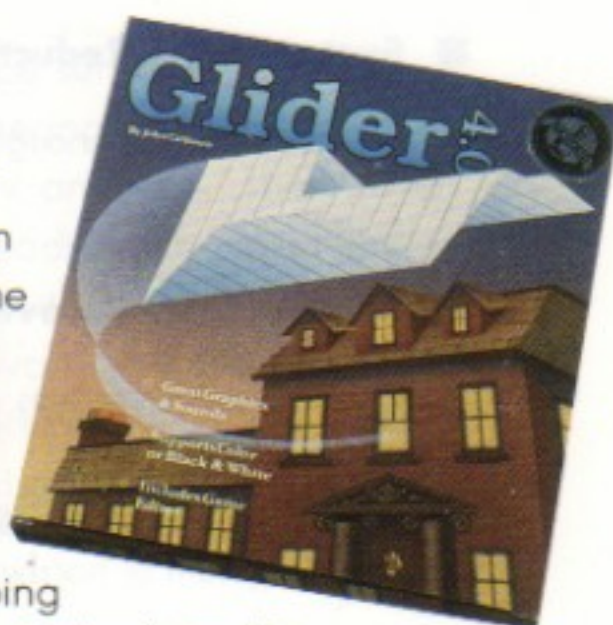

Suggested retail price: **\$59.95**

## GLIDER 4.0™

Best Action Game-  
MacWorld 1992

Start with a paper airplane, add an eerie mansion plus a gung-ho Macintosh game lover. The result equals serious fun! Fly your glider from room to room avoiding a wild collection of obstacles, including flaming candles, jumping goldfish and paper shredders. Each of the 60 rooms holds a new surprise. Use the Room Editor to create your own versions of obstacle-filled rooms.

**Requirements:** MacPlus or greater. Supports B&W or color, System 6.02 or greater.

Suggested retail price: **\$49.95**

## MORE GLIDER™

Great news for Glider 4.0 fans! John Calhoun strikes again with his "Mad House" — 65 rooms and all new challenges to be played with the original Glider 4.0. Also includes 6 more houses, designed by Glider fans themselves, using the game's Room Editor. New art files also included.

**Requirements:** Glider 4.0

Suggested retail price: **\$19.95**

## MISSION: THUNDERBOLT™

MacUser Magazine

Best Role-Playing Game-  
MacWorld 1992

Role-playing action at its best! Plug-in, boot-up, and lose several hundred hours on your Macintosh in this all-absorbing adventure! It's definitely not your everyday shoot-em-up arcade madness. This is a thinker's game five years in the making. Your job? To seek out and capture an anti-matter bomb from hostile aliens, who would like to keep the entire human race from ever seeing another New Year's Eve party.

**Requirements:** MacPlus or later. Hard disk with 7 MB of free space, Supports B&W or color, System 6.03 or greater, and lots of play time!

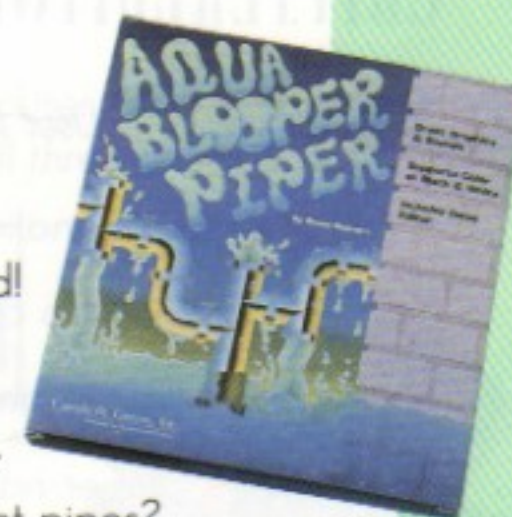

Suggested retail price: **\$59.95**

## AQUA BLOOPER PIPER™

MacUser Magazine

How much pipe could an Aqua Blooper Piper pipe if an Aqua Blooper Piper could pipe pipe? The challenge has been launched! Or in other words, just how fast can you fit together some of the weirdest pipe fittings you've ever seen and reconnect the basement pipes? You've got only minutes to select the pipes from the conveyor belt and fit them together, with no bloopers, before the basement fills with water. It's one wild and wet game!

**Requirements:** Mac Plus or greater. Supports B&W or color, System 6.02 or greater.

Suggested retail price: **\$49.95**

To Order 1-800-359-4920

## SKY SHADOW™

★★★★★ MacUser Magazine

Macintosh arcade action at its finest!

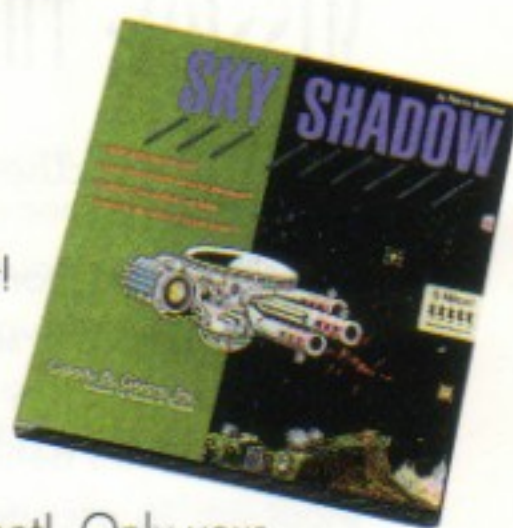

Dreaded blood-thirsty invaders have all but destroyed your home planet! Only your

audacious, white-knuckled bombing raids over enemy territory can save it. Rack up points by destroying ghastly enemy beasties, while avoiding damage to your own ship. Warning: Be prepared for late, sleepless nights and a hopeless addiction to this game!

**Requirements:** Mac Plus or greater, Supports B&W or color, System 6.02 or greater.

Suggested retail price: **\$49.95**

## CRYSTAL QUEST™ WITH CRITTEREDITOR™

★★★★★ MacUser Magazine

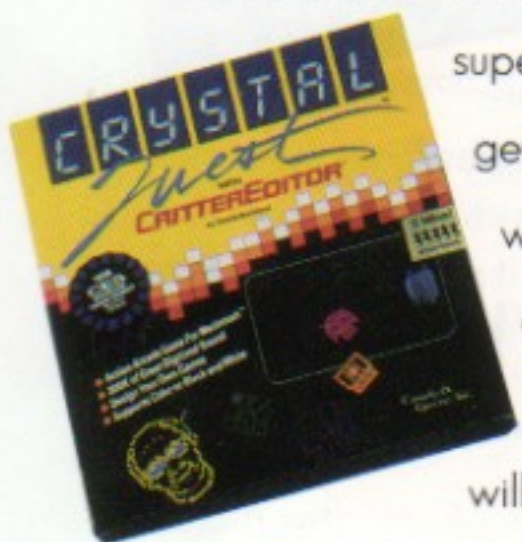

A fast-moving adrenaline-boiling, smash hit Macintosh classic! Your job is to collect all the crystals and avoid all the mines, bullets, and 12 varieties of

super-nasties who are out to get you in 40 different waves! With the CritterEditor you can change over 1,000 parts of this game. The action is fast, the sounds will tickle you and the excitement will

draw you back again and again!

**Requirements:** Mac Plus or greater, Supports B&W or color, System 6.02 or greater.

Suggested retail price: **\$49.95**

## MISSION STARLIGHT™

★★★★★ MacUser Magazine

Explosive, realistic flight action and a mission to save the solar system - what more could a starfighter pilot want? Starting right now, just give up the spare time you had set aside for minor undertakings like finishing that

bestseller or attending your children's weddings. Quitting Mission Starlight is mission impossible!

**Requirements:** Mac Plus or greater, Supports B&W or color, System 6.02 or greater.

Suggested retail price: **\$49.95**

## FUN BUNDLE™

Three Award - Winning Macintosh Games in one action-filled package!

★★★★★★★★★★★★★★★★★★★★ MacUser Magazine (all three games)

Includes these bestsellers:

- Sky Shadow™
- Mission Starlight™
- Crystal Quest™ with CritterEditor™

Hours of FUN to suit every taste!

**Requirements:** MacPlus or greater, Supports B&W or color, System 6.02 or greater.

Suggested retail price: **\$99.95**
