HELLCATS

OVER THE PACIFIC

WORLD WAR II FLIGHT SIMULATOR

You are a pilot of the Pacific Theater's most notorious fighter aircraft — the F6F Hellcat. Take off from your carrier on a mission to intercept enemy aircraft, bomb strategic targets and strafe enemy airfields.

HELLCATS utilizes new simulation technology resulting in truly high-speed graphics which provide a sense of fluid motion never before seen in a flight simulator. Aerodynamic characteristics of aircraft control surfaces are carefully simulated to create uncanny realism. You feel that you are actually in control of a Hellcat!

Scenarios take you from fighter training to several dangerous fighter bomber missions in and around the Solomon Islands. You will climb the ranks as your number of successful sorties and enemy kills mounts.

HELLCATS offers the utmost in flight simulator realism along with the excitement of an intense dog fight and a well-placed 500 pounder!

FEATURES:

- Flight simulation includes aileron, rudder, elevator, flap and landing gear control.
- Instrument panel displays air speed, vertical climb, heading, fuel, ammunition, flap, gear, altimeter, engine RPM, artificial horizon and enemy position radar.
- User's manual contains a reproduction of the original "Pilot's Handbook for Navy Airplane F6F." Package also includes a full-color print of a 1943 war map of the Solomon Islands.
- Multiple scenarios with objectives are carried out in a vast and highly detailed 3D database.
- Custom rendering and digitized sound technologies enhance user enjoyment and playability.

Hellcats Over the Pacific Unlock Code Instructions

Code is printed on the front side of this card

- 1) Insert your original, unlocked Hellcats diskette into your floppy drive.
- 2) Double-click on the Hellcats file to start the game.
- 3) Enter the unlock code into the appropriate box in the lower left-hand portion of the screen.
- 4) Also, enter the requested word in the other box on the same screen.
- 5) Once both boxes contain correct entries, select OK.
- 6) Select QUIT from the next screen.

Verify the unlock code acceptance:

- 1) Again, double-click on the Hellcats file located on the original Hellcats diskette.
- 2) A successful unlock immediately displays a message stating that Hellcats does not run from the original diskette.

If you still get the box requesting a word from the book, please call us at (214) 699-7400.
We will solve this problem immediately.

Once successfully unlocked, please copy the Hellcats file from the original diskette to your hard disk and run it from there. Also, make a new back-up of your original diskette once it is unlocked.
