

# Lunar Rescue™

A Strategic Space Adventure.

For the Macintosh™ 512KE, Plus and SE.

Out-of-this-world conflict on a desperate mission to save the moon colonies.

# Lunar Rescue™

***Watch out! ... SMASH! ... A heat-seeking missile slams into your ship!***

One of your engines is wiped out! You only have two more left, and now it's harder to maneuver. If you crash, you'll lose your cargo of commodities desperately needed by the moon colonies.

***A gauntlet of intense action and danger.***

Lunar Rescue is an addictive world of adventure that challenges your imagination and sets your adrenaline on fire.

Be prepared for bold exploits in a quest that combines furious action and brain-teasing high stakes trading. The game's intensity, intriguing features and graphic animation are unique in the computer realm.

***Fateful journey.***

The year is 2059. Rebel forces have stolen the controlling crystals that maintain the automated defense and supply network for the moon's 26 domed cities. With key commodities cut off, the cities are doomed.

This is a crisis situation and the resupply mission is no milk run. The out-of-control lunar defense system fires massive weaponry at any craft that attempts to pass through the canyons that link the moon's settlements.

Dangerously rough terrain and the relentless weapon attacks force you to keep a sharp lookout as you fly. Space mines lie in wait for the unwary. Deadly high-altitude lasers intercept anything moving above the canyons.

***Into the future, into the teeth of torrid computerized combat.***

Your mission: to prevent the colonies' collapse by transporting vital goods between the cities and recovering the fiendishly hidden crystals.

Your defenses are a full complement of space cannons, bombs, lasers, decoys, cloaking devices and shields.

Your control panel shows fuel, engine, weapons and cargo status. A radar surveillance screen reveals an extended view of the hazards ahead. Sensors on your craft detect and flash warnings of hostile activities.

You control your ship's thrusters for speed, altitude, and direction. Your instincts and experience take charge. It's up to you to approach at terrain-hugging low altitude, take split-second evasive action, deploy decoys or just shoot your way through. One mistake could have deadly consequences.

***Survive, save cities and make a profit to boot.***

Lunar Rescue's action begins at your base in the city of Clavius. You load up your cargo pods with goods needed to maintain life in each besieged city as you pursue the elusive crystals. By profitably buying and selling commodities, you build credits to replace the ships and supplies needed for your quest. But be careful, the more weight you carry the less maneuverable your ship will be.

Lunar Rescue is an exciting, graphic space adventure. It's a spectacular action odyssey of battle and cunning strategy in the 21st century.
