

MacCourses™

Additional Golf Courses for MacGolf.™

1.00

For the Macintosh 512K or larger.

MacCourses runs only with MacGolf.™

MacCourses™

When you have the best selling Macintosh game in the world, what do you do for an encore? You come up with more and better MacGolf action.

MacCourses – the super MacGolf games.

Here's new turf for adventurous MacGolfers. New challenges for everyone who has fought the shifting winds of Augustina National and Shinook Hills. Here are new courses to conquer for mouse wielding pros who have taken the measure of the original MacGolf courses – and who think it can't get any tougher.

It's a whole new game.

This is where we separate the duffers from the pros. If you liked MacGolf, you'll love what MacCourses brings to the Macintosh screen.

Four new 18 hole, par 72 layouts for expert MacGolfers: Cedar Creek, Golden Sands, Thunder Ridge and PCAI International.

They're all designed by famed professional golfer and course architect Jay Wohlrabe.

Like opening the door to a fresh world of wonders.

These new courses will challenge all the skills you've learned from MacGolf. The fairways, traps, hazards, and putting greens of MacCourses are in a whole new league.

The star is the PCAI International – the killer course. It's like a boot camp for Martian marines. The oddly shaped and narrow fairways surrounded by horrendous hazards create a golf course that's more like an obstacle course. You've got to see it to believe it.

If you thought MacGolf was good training for the outdoor game, MacCourses should turn you into a seasoned pro.

Get MacCourses now, use it when you're ready – you never know when you'll need the challenge.

MacGolf without MacCourses is like dinner without dessert. If you have one you need both.

**The hottest sport
on a court —
the hottest game
a Macintosh™ can handle.**

Even if you've never been on a racquetball court, you'll spark to the excitement of this challenging simulation.

MacRacquetball turns your Macintosh screen into a full perspective 3-D display of court, players and ball. With the mouse, you have complete control of player position, ball placement, ball speed and shots. Two people can play the same game over AppleTalk® or modem.

Superb graphics give MacRacquetball completely convincing realism. There are more than 1000 frames of ultra high speed digitized animation. It's one racquetball court that's always open when you're ready to play.

**Enthusiastic players
everywhere have made
MacGolf the best selling
Macintosh game ever.**

MacGolf puts you in the picture, a full perspective 3-D simulation of realistic golf action. You match your skills against fairways, roughs, bunkers, water hazards, sand traps and trees.

MacGolf gives you a player's eye view of the course, in any direction, and an aerial overview of each hole. You have complete control of your position, ball placement, ball speed and direction, and selection of all 14 clubs. Digitized graphics and sounds add to the excitement.

MacGolf is so close to the real thing it will improve your golf game. And by the time you've reached the eighteenth hole you'll know you've been in a real contest.
