## ★ League Play ★

Have you ever thought about setting up your own football league with your friends and co-workers? There's only one game in America that was made for it – NFL Pro League Football.

Imagine if you can a room full of football fans in your house jumpin' up and down, high-fivin' and goin' nuts! NFL Pro League Football grabs you like no other game and never lets go. The first quarter you're smilin' ear to ear, the second your shakin' your head, the third your pullin' your hair out and the fourth: 6 ticks left on the clock and your fullback bangs in from the 3, you win! Just as you wipe the sweat from your brow you realize you only have fifteen weeks of this to go.

A coach doesn't have to be present to play: he can Hand in, Fax in, Modem in or Mail in a game plan and play right along in your football league just like he was there in person. That's what makes it so ideal for league play. Just type in each coach's game plan data and prepare yourself for one heck of a football game complete with stats, play by play print out, weather conditions and the whole nine yards!

## ★ Historical Replay ★

## ★ Head to Head Play ★

It's 18 Degrees, you're playing in Cleveland. The wind is gusting in your face at 15 M.P.H. Your trailing 13-14. You have the ball, second and six on your opponent's 32 yard line, 18 seconds left in the game.

Your fullback has been your big gun all day. Do you run a 31 Draw and hope he pops a big gainer or do you hit your tight end on an out pattern? What if your opponent blitzes, can you pick it up? The questions are many but so are the Audible combinations. Over 20,000 in all.

You can play most of the game having the computer coach both teams, then step in for the last couple of minutes and prove your coaching savvy or go at it head to head the entire game. It's your choice, the combinations are endless.

For even greater flexibility, look for the newly released NFL Head up Football. This offers 99 offensive and 99 defensive Plays and the ability to create your own. It's gonna be a Classic!

NFL Pro League Football has been featured in almost ever major newspaper over the country as a projection tool for some of the NFL's greatest matchups. USA TODAY has used it as a feature story in the Redskins vs Broncos Super Bowl, where it not only picked the winner but predicted the upset.

It was also used for the 1988 NFC and AFC championship game where it clearly predicted both winners. And to top off the 1988 season, it also projected the 49ers to win in the last minute over the Bengals in Super Bowl XXIII.

NFL: Pro League Football however is not a predicting program it's a Pro Football game that is so realistic that it can do all this and allow you to be a commissioner of your own football league either with friends or on your own.
