The Adventure Begins...

Since the 1950s, space flight has fascinated the world. Being present at the lift-off or watching film clips of the shuttle missions has been the only way in which most of us could "participate" in a shuttle launch — until now. Enter ORBITER, your personal window to space flight command.

With ORBITER you will:

- Use your skill to command a successful shuttle launch
- Travel in earth orbit and see the Earth, moon, stars and other orbiting objects
- Take a space walk or perform assigned tasks in the MMU (Manned Maneuvering Unit)
- Launch, rescue or repair satellites or the remarkable floating space laboratory (the LDEF)
- Use the RMS ("Arm") to maneuver objects in the bay or to "lock on" to the space station
- Conduct classified missions for the military
- Affix modules to the orbiting space station
- Perform deorbit maneuvers to prepare for re-entry
- Use your aerodynamic (gliding) skills to land the shuttle on good old terra firma.

On certain computer systems Mission Control "talks" you through the launch and other activities using voice synthesis.

Random system failures may occur which will make it necessary to follow emergency procedures. It may be necessary to abort the launch, scrub the mission and return to earth earlier than scheduled, or perform an emergency landing at an alternate site. Your skill as the commander will determine your fate.

An adventure in the ORBITER will take your computer to its limits. It'll take your imagination even beyond...

COPYRIGHT, TRADEMARK NOTICES, LEGENDS, AND LOGOS

Spectrum HoloByte's logos, product names, software, manuals, documentation, and other support materials are either patented, copyrighted, trademarked, trade secrets, or otherwise proprietary to Spectrum HoloByte, Inc. Buyer agrees not to remove any such notices and product identification, or copy the program for purposes other than personal archival use (this program is not copy-protected). If Buyer does not agree with these terms, please return the package unopened to your dealer for a full refund.

These Spectrum HoloByte™ program disks are not copy protected, which allows you to copy the program over to a back-up disk or a hard disk. As a service to customers desiring the same program on a different disk format, we allow our **registered** product owners to purchase a non-copy protected back-up disk in either 5 1/4" or 3 1/2" formats. (\$7.50 for a 5 1/4" floppy disk or \$10.00 for a 3 1/2" floppy) Please do not abuse this service by allowing others to copy your disk. To order a back-up disk or any of our fine products, please follow the instructions listed below. For complete product orders, include \$3.00 (per title) for shipping up to a \$5.00 maximum shipping charge per order.

To order by mail: PRINT your name, complete address, and telephone number (including area code), on a separate piece of paper, along with a description of the product (please be sure to state the machine version), quantity desired, and size if ordering a T-shirt. Enclose a check, money order or your Visa or Mastercard number (including expiration date) for the exact amount, and mail to Spectrum HoloByte, 2061 Challenger Drive, Alameda, CA 94501.

To order by phone: (Visa or Mastercard only) call: (415) 522-0107.

For overseas orders: please write to us at the above address for overseas shipping charges, or call the number listed above.
