You wanna play games? Or you wanna play football?

WATCH ANIMATED PLAYERS IN EXCITING ACTION.

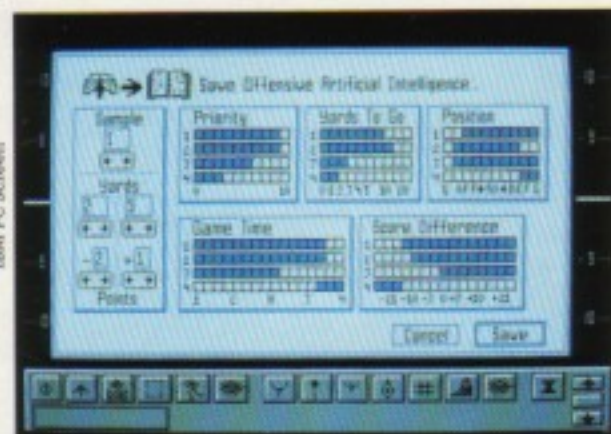

DESIGN GREAT PLAYS ON THE CHALKBOARD EDITOR.

- Design plays on the Chalkboard Editor. Recreate actual plays or create your own dream plays.
- Give detailed instructions to your players, such as pass block, pump fake, double cover and more.
- Teach coaching strategy to the computer, so it imitates your play-calling style.
- Build a team by balancing speed, strength, agility, intelligence and discipline for all players.
- Thrill to realistic football action as animated players execute your plays.

With **PlayMaker Football** you don't just fool around. As general manager, you build a hard-nosed team that can execute your brand of football. Then, as head coach, you design plays that capitalize on your team's strengths. And finally, as quarterback, you step in and call plays yourself, running and passing your team to victory. Now that's football!

ADJUST EACH OF YOUR PLAYERS' ABILITIES.

TEACH YOUR COACHING STYLE TO THE COMPUTER.

"★★★★/★★★★ A football fan's dream... a real winner! It's extremely easy to learn to use... but there's tremendous depth and exciting afternoons to be had in front of this one."

—COMPUTER ENTERTAINER

"If you're a Monday morning quarterback who revels in analyzing the subtleties of play design, play selection, and the all-important draft, **PlayMaker** is your game."

—MACWORLD

"The most revolutionary aspect of **PlayMaker Football** is the ability to design an AI (artificial intelligence) to call plays based on the game situation... an exceptional product for armchair coaches and general managers."

—COMPUTER GAMING WORLD

"If you're a fan of both football and computer games, you won't find a better combination of the two than **PlayMaker Football**. It's a superb game..."

...Well, what do you think?

C'mon! Don't Be Bashful.

Your opinion is very important to us. You see, we don't put these cards in every package. Only a few. So please accept our invitation to become a Brøderbund "Software Consultant." We really appreciate it when you take the time to tell us what you think.

Why should you bother? Two reasons:

- 1. It's a special opportunity to make your voice heard** by our top designers and programmers—your comments and suggestions can help us do a better job of producing the kind of software you're looking for.
- 2. You'll become eligible for a special monthly drawing for free software,** exclusively for our software consultants.

So, please return the card—just tape or staple it closed, stamp it, and drop it in the mail.

Sincerely,

John Baker
Executive Publisher

P.S. Don't forget to mail in the "FREE SOFTWARE" registration card, too. That way, you'll have **two** chances to win.

PLEASE wait a few days until you've had a chance to get a feel for the software before filling out this card. Thanks.
