Are you ready? Ready to experience the gut wrenching adrenaline rush of battle in cyberspace? If you are, then you're ready for Spectre Supreme - the sequel to the best selling cyberspace combat/action game. And it isn't just robots you have to tangle with now...

In Spectre Supreme, you'll have to contend with slicers, auto-gun turrets and hunter-killers. Watch out for those intelligent acid pools. Oh, by the way, your more deadly enemies can now use radar shielding and optical cloaking. Fortunately, you now command smart missiles, seekers, proximity mines, scattershots and spinners! And in the heat of battle, escape through transporter gateways or enter a submergence trap door to explore negative cyberspace!

The action level has been cranked up to the limit! So get ready for the hottest electronic adrenaline rush you'll ever experience!

Remember! In cyberspace, nobody cares if you scream!
