It was an age of dreams and a time of miracles. When jeweled cities arose as great forests from the dust and justice ruled the Northern Kingdom. ☉

In the east, Zoras the Necromancer, long since banished from the realm, sat in a tower built of human bones and conspired with shadows. In the darkness, spirits talked to Zoras in whispers, making pacts and sharing secrets. As the first chill winds scattered leaves during the time of harvest, Zoras rode to the Northern Kingdom. And, there came a time when the kingdom awakened to a dawn of nightmares. ☉

And it came to pass that darkness engulfed the land...

Battle fierce opponents as you make your way to the innermost sanctum of the Castle of Zoras...

Adventure alone and with all manner of strange beasts. Surmount the terror of your arduous journey and vanquish Zoras' evil minions.
