Your hands shake. Your brain twitches. You try to resist the lure of just one more game. But there it is again. Up on your computer screen. And you don't even remember how it got there. Do you?

**FACE IT. YOU'RE HOOKED ON TRITRYST.**

This over-the-brink tile puzzler is so addictive because it seems so easy. Just line up three same colored tiles horizontally or vertically. Simple, huh? Problem is every time you place one tile, another three pop up. And then three more and three more, till you start feeling like a hamster on a spinning wheel going nowhere fast and coming back for more. And more. And more.

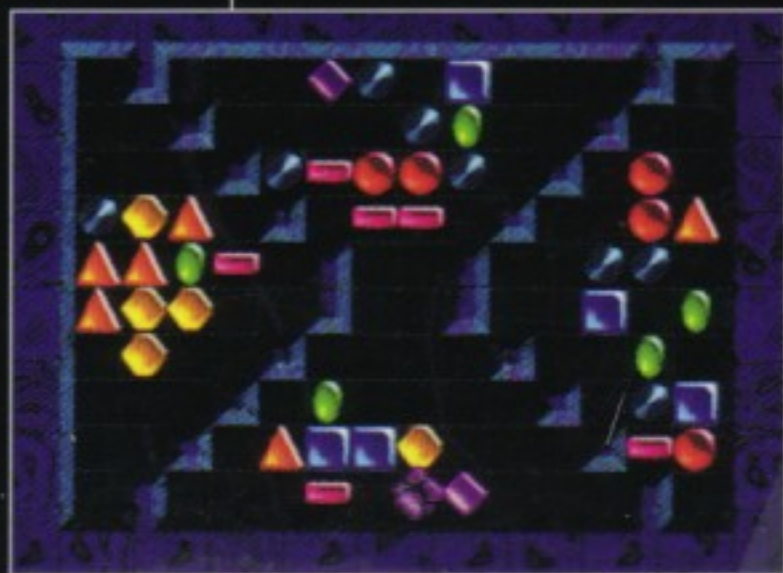

So, if *TriTryst* starts calling you out of bed in the middle of the night. If you lose your job because you can't keep your mind on work. Remember, you can always quit. Tomorrow.
