Wordtris™

If you love TETRIS, this new, fast-action, falling block game will leave you obsessed. This time the falling pieces are letter blocks. And instead of just forming lines, you make words. Create your words either horizontally or vertically.

But don't put all your E's in one basket, because every time a word lines up, poof! those letters disappear. The more words you make and the more complex the words, the more points you earn. Let the alphabetical adrenaline flow!

The Chessmaster® 3000

Use the Chessmaster's interactive, animated tutorial to monitor and guide your progress. Choose from a library of unique computer opponents to test your brainpower and skill. Select from 3-D, 2-D or War Room perspectives. It's packed with brand new features and dazzling graphics! The Chessmaster is a resourceful teacher, a relentless foe, and so much more!

Vette!™

Vette! puts you behind the wheel of America's premier sports car in the streets of San Francisco! Pit your racing skills against top European sports cars as you fly up and down those steep San Francisco hills. Thrill to the chase on actual San Francisco streets, over the Golden Gate bridge, along Fisherman's Wharf, and through the heat of downtown. But don't be too reckless or you might leave more than your heart in San Francisco!

Maniac Sports™

Experience the wild rush of Maniac Sports™. Now you can brave the exhilaration of radical sports in the safety of your own home without having to "gear up." Participate in

nine extreme sport adventures: sky diving, skateboarding, bungee jumping, extreme skiing, rock climbing, mountain biking and more! With Maniac Sports you're in for the ultimate adventure, set to music from cutting-edge bands and featuring a unique visual interface that's easy to use. Push yourself right to the edge with Maniac Sports.

The Software Toolworks® U.S. Atlas

U.S. Atlas Version 3 for Macintosh introduces you to more of the United States than ever before. See top-quality index and relief maps crafted by master cartographers. Review fascinating facts and statistics presented in a variety of appealing formats including maps, text, and comparison graphs. Learn about people, health, government, and much more.
