

## Directions

Turn on your Macintosh and insert your **AIRBORNE!** disk. You can skip through the first screen and music by clicking the mouse button. The instructions are built into the program. To see them, just click on the "Instructions" option at the Startup Menu.

## Our Request

First, thanks for buying our program. Now we ask that you think about this: **Airborne!** is a copyrighted program. We've put a lot of time and effort into bringing it to the marketplace. Please don't copy it for someone else.

We're a new company and we have lots of nifty ideas for more low cost Macintosh programs for you. And because we want to do what is in the best interest of users as well as our own company, except for games we will not put copy protection on our programs. If it is a productivity tool that is worth buying, then it is necessary to be able to make backups or put it on a hard disk!

It is our goal to provide you with software that gives you good value for your money. We won't be able to do this without your support. We are putting our trust in you. Thanks everyone.
