Customizing Keyboard Shortcuts

In Aperture, you use the Command Editor to customize keyboard shortcuts and streamline the way you work.

To display the Command Editor in Aperture
Choose Aperture > Commands > Customize.

Using Keyboard Shortcuts at Launch

You can use keyboard shortcuts while opening Aperture to disable preview generation or choose an Aperture library.

To disable preview generation
Hold down Shift while opening Aperture.

To open the Library Selector window
Hold down Option while opening Aperture.

Using iPhoto Keyboard Shortcuts

If you prefer, you can set Aperture to use the keyboard shortcuts you're familiar with using in iPhoto.

To use iPhoto keyboard shortcuts in Aperture
Choose Aperture > Commands > iPhoto.
