*A Multimedia Storybook™*

# Beauty and the Beast

Multimedia Storybooks™, designed specifically for the Multimedia Personal computer, immerses the reader in the world of make-believe. These magical electronic books involve children and parents alike in a story they will want to return to again and again.

Ebook's *Beauty and the Beast* presents the most romantic fairy tale of all with original illustrations, musical score and a magical animated transformation at the end.

The story can be interactively read (the complete narration is recorded on the disc) and has highlighted text used to define difficult words. Every picture contains musical surprises to delight young readers.

The disc is also designed so the story narration and music tracks can be enjoyed by playing on a standard audio CD player. Just place the disc in your CD player as you would listen to any standard audio disc.

## CREDITS

Story Retold and Illustrated by Judith K. Jones  
Multimedia Design by Frederic H. Jones

Additional credits are contained on the *Beauty and the Beast* disc.

## — Minimum System Requirements —

To enjoy this product you must have the following minimum hardware and software configurations:

### **MPC**

386SX computer or better with 2MB of RAM (4MB recommended). MPC™ compliant CD-ROM player with MSCDEX 2.2 or later; S-VGA graphics card (640 x 480 x 256 colors) with compatible monitor. (use of a standard VGA card may produce fewer colors and of a lesser quality). MPC™ compliant sound card; mouse; Microsoft® Windows® 3.1

### **MACINTOSH**

Macintosh with color capability, (256 + colors), 4MB of RAM; CD-ROM player; System 6.07 or later.

## — Installation —

### **MPC**

- Insert the CD-ROM disc into your CD-ROM drive;
- Execute Windows;
- Select File from the Program Manager menu;
- Select RUN from the menu;
- Type D:\SETUP.EXE, (if your CD-ROM drive is any other letter, substitute the correct drive letter);
- Pick the OK button;
- Follow the setup instructions for proper installation.

### **MACINTOSH**

Select the program icon and double-click on it with the mouse.
