INTRODUCTION

Welcome to *Sid Meier's Civilization V*! In this game you take on the greatest leaders in world history in a battle of warfare, diplomacy, technology, culture and economics. There are many paths to choose from in *Civ V*: can you lead your people to a military, cultural, diplomatic or technological victory, or will you be crushed beneath your enemies' chariot wheels, just another forgotten ruler of a vanquished people?

Great ruler, your people look to you for guidance! Can you lead them on to greatness and build an empire to stand the test of time?

Good luck and enjoy!

DIGITAL MANUAL

Civilization V includes an on-disc interactive digital manual in PDF format. The digital manual includes everything you need to know to play, including basic rules, rules for air combat, nukes, multiplayer, credits, tech support and more.

THE INTERFACE

THE MAIN MAP

This is where the action takes place. The Main Map displays the "known world" – the places you've explored, your cities, the terrain, resources and improvements around them, your units, and all visible neutral and foreign lands. There are a number of ways that you can change your point of view on the Main Map.

Zoom In and Zoom Out – Use your mouse wheel or press [PageUp] or [PageDown] to zoom in and out.

Re-Center – Click on a space on the Main Map to center your view on that space.

Auto-Center Upon Unit Activation – When a unit becomes active during your turn, the Main Map automatically centers on that unit.

Manually Center Upon Active Unit – Click upon the active units icon to center on that unit.

Mini Map – Click on a space on the Mini Map to center the Main Map on that space.

Click and Drag – Click and drag anywhere on the map to manually scroll the map view around.

THE STRATEGIC VIEW

Click on the "Strategic View" button to enter Strategic View mode, where the map and units are represented in a more simplified and less representational manner.

KEYBOARD AND MOUSE

Civilization V is best played with a combination of keyboard and mouse. Left-click to open menus and accept menu choices, to activate units, to re-center the map, and so forth. Right-click on a map location to order active units to move to the space you've right-clicked upon.

There are many keyboard "shortcut" keys in *Civilization V*. Here are some of the most important:
