The "CRIMESTOMPER'S COMPANION"

Case notes: The Devil's Playhouse

Sam & Max are faced with a slew of all-new enemies when the duo discovers an artifact that grants Max psychic abilities. With powerful foes ranging from the intergalactic warlord Skun-ka'pe to the nefarious Papierwaite, the Freelance Police can stop at nothing to save the world from impending doom!

Setup

It doesn't matter if you're playing on PC or Mac, all you need is the one disc! Place the disc into your DVD-ROM drive and away you go.

For PC Users: Click Install when the menu appears (if autorun is enabled on your computer), or browse the DVD and double-click Setup.exe. The games will show up in C:\Program Files\Telltale Games\Sam and Max - The Devils Playhouse by default, but you can change the installation location if you so desire. You can view the DVD's bonus features by exploring the DVD's start menu.

For Mac Users: Double click Install to add the games to your Applications folder. View the DVD's bonus features by launching your Mac's DVD player app.

Saving & Loading

Need to save your game? You're in luck. While the game automatically saves at certain points as you play, Sam & Max: The Devil's Playhouse also allows you to save whenever you want.

To manually save your game, press ESC on your keyboard to bring up the menu. From there, go to the Save/Load menu and click "Save" in an empty slot. You can also load a past saved game from this menu.
