1. How do I obtain DLC?

All available DLC for *GRID 2 Reloaded Edition* can be purchased from the game's page on the Steam store:

[GRID 2](#)

The following DLC packs are available to purchase on Steam:

- Bathurst Track pack
- Car Unlock pack
- Classic GRID pack
- Demolition Derby pack (free)
- Drift pack
- GTR Racing pack
- Headstart pack
- IndyCar pack
- McLaren Racing pack
- Peak Performance pack
- Spa-Francorchamps Track pack
- Super Modified pack

If you have purchased *GRID 2 Reloaded Edition*, you already own all of these DLC packs except the *Demolition Derby* and *Car Unlock* packs. The *Demolition Derby* pack is a free download.

Full details of the contents of the DLC packs can be found on Steam.

[Back To Top](#)

2. How do I access DLC?

Once purchased, DLC will automatically be enabled in your copy of *GRID 2 Reloaded Edition*.

The additional cars and tracks will be available in the relevant game modes.

The *Demolition Derby* pack includes a brand new race type that can be played in single- or multiplayer. To play a demolition derby, set your **Race Type** to **Demolition Derby** from the race options screen that appears before starting an event.

[Back To Top](#)

3. Does *GRID 2 Reloaded Edition* support achievements?

Yes, achievements are supported by *GRID 2 Reloaded Edition*.

If you are signed in to Steam, your achievements will be visible to you in-game and also to other players through the Steam application.

[Back To Top](#)

4. Can I play *GRID 2 Reloaded Edition* with a gamepad?

Yes.

The gamepads in the following list have been tested and are supported by *GRID 2 Reloaded Edition*:

- Afterglow AP2 PS3
- Alienware Dual Compatible
- Belkin Nostromo 45
- Big Ben
- Big Ben 360 controller
- DragonRise
- GameStop Wireless Controller PS3
- Gioteck GC-2
- GPad Pro
- Green Asia
- JC-U1012F Holtek
- Jess Tech 3 in 1
- Joytek Xbox 360 controller
- Joytron Hybrion JTPC-108
- Logic 3 PowerPad
- Logitech Cordless Precision PS3
- Logitech Dual Action
- Logitech F310
- Logitech F510
- Logitech F710
- Logitech RumblePad 2
- Logitech RumblePad 2 Cordless
- Macally iShock
- Macally iShock II
- Macally iShockX

- MadCatz
- MadCatz 360 controller
- MadCatz Cordless
- MadCatz MicroCon 360 controller
- MadCatz Pro 360 controller
- MaxFire Blaze3
- Mayflash Wii Classic Controller
- Mega World Impact
- Mega World X6-38V
- NYKO AirFlow
- NYKO Core Controller
- PDP Afterglow GameStop PS3
- PS1 DualShock
- PS2 DualShock
- PS3 Batarang
- PS3 DualShock
- PS3 Sixaxis
- PS4 DualShock
- Saitek P380v1
- Saitek P380v2
- Saitek P480
- Saitek P580
- Saitek P990
- Saitek P2500
- Saitek P2700
- Saitek P3200
- Saitek PS1000
- SpeedLink 6555
- SpeedLink6708
- StarTec
- Thrustmaster 3 in 1
- Thrustmaster Firestorm Dual
- Trust Dual Stick
- TSZ Pelican 360 controller

- Unimax DragonRise
- Xbox 360 wired controller
- Xbox 360 wireless controller
- Xbox One controller (connected via USB)

If your gamepad is not on the list, email padsupport@feralinteractive.com and our support team will reply to you with a request for information about your device. Once we have this information, a gamepad support file will be created and emailed to you.

Once created, this gamepad support file will be used in all future games and updates - so you will not only be helping us get your device working; you will also help all other owners of the same device who play Feral games!

5. Are there any gamepads that are recognized but unsupported?

Yes.

The following gamepads will be recognized by the game but do not have enough buttons or analog controls to support all the possible in-game controls, meaning some in-game tasks will require the keyboard or mouse:

- Gravis Eliminator
- Gravis Gamepad Pro
- Gravis Xterminator
- iBuffalo SNES pad
- Logic 3
- Logitech Extreme 3D Pro

- Logitech Precision
- Logitech RumblePad
- Logitech RumblePad Cordless
- Macally Airstick
- Microsoft Sidewinder
- Microsoft Sidewinder Gamepad Pro
- Saitek P880
- Thrustmaster 2 in 1
- Thrustmaster Dual Analog 3.2

[Back To Top](#)

6. Can I use a steering wheel with *GRID 2 Reloaded Edition*?

Yes, most standard USB wheels will work with *GRID 2 Reloaded Edition*. The wheels in the following list have been tested:

- Logitech Driving Force GT
- Logitech G27
- Logitech MOMO

You may need to map the game controls to inputs on your wheel and its components (such as pedals, if available) before racing. To do this, follow these instructions:

1. Ensure that your wheel and any components are connected to your Mac, then launch *GRID 2 Reloaded Edition*.
2. From the **Main Menu**, select **World Series Racing**.
3. Select **Options & Extras**.
4. Select **Options**.

5. Select **Controls**.
6. Select **Steer Left**, then perform the action on your wheel or pedal to which you wish to map the "steer left" command.
7. Repeat step 6 for all the other game commands, mapping them to the desired action on your wheel or pedal.

NOTE: Force Feedback (FFB) is supported by *GRID 2 Reloaded Edition*. Unfortunately, many hardware manufacturers do not provide Force Feedback drivers for Mac OS X. This means that Force Feedback may not currently work in *GRID 2 Reloaded Edition*.

[Back To Top](#)

7. How do I play a splitscreen multiplayer game in *GRID 2 Reloaded Edition*?

Before playing a splitscreen multiplayer game, ensure at least two input devices are plugged into your Mac before you launch *GRID 2 Reloaded Edition*.

Unless otherwise specified, the following instructions are written for Player 1:

1. From the **Main Menu**, select **World Series Racing**.
2. Select **Events**.
3. Select **Splitscreen**.
4. A dialog will appear prompting Player 2 to press the **Start button**. Player 2 must press a button on their input device to continue.
5. The **Splitscreen menu** will appear. Select **Custom Event**.

6. The game options screen will appear. From here, you can customize the game settings. When you are happy with your settings, select **Done**.
7. Select **Go to Race**.
8. The car selection screen will appear. Select a car.
9. The car selection screen will reappear. Player 2 must select a car.
10. The game will begin once Player 2 has selected a car.

[Back To Top](#)

8. How do I play a multiplayer game in *GRID 2 Reloaded Edition* on Steam?

How you play an online multiplayer game in *GRID 2 Reloaded Edition* differs depending on whether you wish to host or join the game.

To host:

1. From the **Main Menu**, select **GRID Online**.
2. Select **Events**.
3. Select **Online**.
4. The **Online Party Lobby** will appear. Select **Online Custom Event**.
5. Select **Create Game**.
6. A dialog will appear asking you whether you wish to allow players to use downloadable content. Select your preferred option. If you select **Yes**, players who do not own DLC being used in the game may not be able to join the game.

7. The game options screen will appear. From here, you can customize the game settings. When you are happy with your settings, select **Done**.
8. To invite friends from your Steam friends' list to the game, select **Invite Friends**. Otherwise, proceed to step 10.
9. The **Choose Friends to Invite dialog** will appear. Click the **Invite button** next to the name(s) of the friend(s) you wish to invite, then select **Return to Game**.
10. When you are happy with your settings and the other players have joined the game, select **Start**.
11. The car selection screen will appear once all the currently connected players have indicated that they are ready or after 15 seconds, whichever is the sooner. Select a car.
12. The game will begin once all the currently connected players have selected a car or after 20 seconds, whichever is the sooner.

To join:

1. From the **Main Menu**, select **GRID Online**.
2. Select **Events**.
3. Select **Online**.
4. The **Online Party Lobby** will appear. Select **Online Custom Event**.
5. Select **Custom Match**.
6. Use the filters to select the type of game you wish to search for, then select **Search**.
7. A list of games matching your criteria will appear. Select the game you wish to join.

8. The lobby will appear. To invite friends from your Steam friends' list to the game, select **Invite Friends**. Otherwise, proceed to step 10.
9. The **Choose Friends to Invite dialog** will appear. Click the **Invite button** next to the name(s) of the friend(s) you wish to invite, then select **Return to Game**.
10. Select **Ready Up**.
11. When the host starts the game, the car selection screen will appear. Select a car.
12. The game will begin once all the currently connected players have selected a car or after 20 seconds, whichever is the sooner.

NOTE: Additional players can join the session while the game is in progress, but will not be able to take part until the next game begins.

9. Is *GRID 2 Reloaded Edition* optimized for Retina displays?

Yes.

If you have a Retina display, you will be able to take advantage of the extra pixels by running *GRID 2 Reloaded Edition* in native resolution. This means that the game will display one pixel for every pixel on your display.

To do this, follow these instructions:

1. From the *GRID 2 Reloaded Edition* pre-game **Options window**, select the **Video tab**.

2. Select the largest resolution from the **Resolution drop-down menu** to play the game in native Retina resolution.

3. Click the **Play button**. The game will start in native Retina resolution.

NOTE: In many cases, increasing your game's resolution will impact upon its performance. For tips on improving performance, read the **Performance Tips point** in the **ReadMe**. For information on how video settings affect performance in Mac games, read our [Guide to video settings](#).

[Back To Top](#)

10. Where are my saved games stored?

Your saved games are stored in your game's preferences folder.

To open this folder, click the **Open Preferences Folder button** in the **Info/About tab** of the pre-game **Options window**.

You can also navigate to the preferences folder manually. It is stored in the **Feral Interactive folder** in your computer's **~/Library/Application Support folder** (where the "~" symbol refers to your home directory).

By default, the **Library folder** is hidden from your Finder. To open it, follow these instructions:

1. Open the **Finder**.
2. Open the **Go menu** from the main toolbar.
3. Hold down the **Alt (⌘) key**. The **Library option** will appear.
4. Click on the **Library option**. The **Library folder** will open in your Finder.

[Back To Top](#)

11. How do I stop the dock, notifications and the desktop cursor from appearing while I'm playing *GRID 2 Reloaded Edition*?

The dock or notifications may occasionally appear while you are playing *GRID 2 Reloaded Edition*, or the desktop cursor may replace the game cursor. This can disrupt a game.

You can prevent them from occurring by checking the **Hide the Dock (disables notifications)** checkbox in the *GRID 2 Reloaded Edition* pre-game **Options window**. To do so, follow these steps:

1. From the *GRID 2 Reloaded Edition* pre-game **Options window**, select the **Advanced tab**.
2. Check the **Hide the Dock (disables notifications)** checkbox.

[Back To Top](#)

12. When I press the Function keys (F1-F19) nothing happens. How do I use the Function keys?

By default, macOS uses the F keys to control items such as volume and brightness. To use an F key for a game command hold down the **fn key**, then press the **F key** you wish to use.

To automatically enable the F keys, follow these steps:

1. Open **System Preferences** (**Apple Menu** → **System Preferences**).
2. Click on **Keyboard**

3. Select the **Keyboard tab**.
4. Check the **Use F1, F2, etc. keys as standard function keys** checkbox.

The F keys will now work without using the fn key.

[Back To Top](#)

13. Why does music in iTunes pause when I start playing *GRID 2 Reloaded Edition*?

By default, music playing in iTunes will be paused when you start playing *GRID 2 Reloaded Edition*.

To turn this feature off, follow the steps below:

1. Double-click on the **GRID 2 Reloaded Edition application icon**.
The pre-game **Options window** will appear.
2. Select the **Extras tab**.
3. Uncheck the **Pause iTunes while playing GRID 2 Reloaded Edition checkbox**.
4. Select the **Play button** to start playing.

To turn this feature back on at a later date, simply check the **Pause iTunes while playing GRID 2 Reloaded Edition checkbox** and then select the **Play button**.

[Back To Top](#)

14. How do I take screenshots in *GRID 2 Reloaded Edition*?

To take screenshots while playing *GRID 2 Reloaded Edition* you should use the following key command:

Command (⌘) + Shift (⇧) + P

When you press all three keys at once, a single image of the on-screen contents will be saved in the **Feral Interactive folder** in your computer's **~/Pictures folder** (the "~" symbol refers to your home directory).

The JPEG image contains metadata in a string in the following format.

```
GameName/Version Number (OS Version; CPU Speed;  
Installed RAM; Video RAM; Current Graphics Card)
```

For example in *GRID 2 Reloaded Edition* the string might look a little like this:

```
gamesystemname/1.0 (macOS 10.15; 3.0; 8.0; 4.0;  
AMD Radeon R9 M395X)
```

This information can be easily removed by exporting the screenshot into a different format using Preview or another image editing tool.

NOTE: None of the metadata stored can be used to identify the user.

[Back To Top](#)

15. Can I run *GRID 2 Reloaded Edition* in windowed mode?

Yes.

To run *GRID 2 Reloaded Edition* in windowed mode, follow these instructions:

1. From the *GRID 2 Reloaded Edition* pre-game **Options window**, select the **Video tab**.
2. Check the **Run in a window checkbox**.
3. Click the **Play button**. The game will start in windowed mode.

NOTE: Enabling windowed mode may decrease the game's performance.

[Back To Top](#)

16. *GRID 2 Reloaded Edition* runs slowly on my computer. Is there anything I can do to increase the speed?

There are several factors which have an impact on the speed at which *GRID 2 Reloaded Edition* runs. Please see the **GRID 2 Reloaded Edition Performance Tips section** in the **ReadMe** for ways to increase the speed at which the game runs on your computer.

[Back To Top](#)

17. How do I get technical support for *GRID 2 Reloaded Edition*?

Please read the technical support information in the **ReadMe**; this tells you what to check and if necessary, how to contact Feral Technical Support with your issue.
