About HanMac Word-J

Overview

HanMac Word-J is a full featured Macintosh wordprocessor application to handle Japanese and English text, developed and distributed by HanMac Software, Inc. as a shareware. The licensee fee is US$35.00 for each copy.

System Requirements

• Any Macintosh computer - HanMac Word is provided in FAT Binary format
• System 7.1 or later
• 2.5M bytes of application memory
• QuickTime Manager
• Drag & Drop Manager
• Claris XTND system
• Japanese Language Kit to process Japanese text

Registering HanMac Word-J

You can try HanMac Word-J without registration but please be aware that it has following restrictions until you register:

1) You are not allowed to use it in Japan.
2) You will have a five-second delay to start the program.
3) When you print a document, a registration notice appears at the top of each page.
4) You can use it for no more than 90 days.

To register, launch **Register** program, fill ordering information, and save to a disk file and send by email to Kagi Shareware at shareware@kagi.com.

PLEASE ALWAYS INCLUDE YOUR EMAIL ADDRESS TO WHICH WE COULD SEND A REGISTRATION NUMBER.

It requires 3 to 10 days to process your payment depending on the payment type. When it is done, you will receive the payment acknowledgment from Kagi Shareware, and a serial number from HanMac Software via email.
