

Here are a few tips for getting this most from this stack:

- You can use the Bookmarks menu to bookmark your favorite cards.
- Press Command-Period if you wish to stop a card's music or animation.
- This stack hides the Desktop, but you can change that on the Help/Preferences card.
- The cards have been arranged to create a nice assortment of styles throughout the stack, but an alphabetical list is available by clicking the Index button.
- Some cards have features that aren't immediately obvious, so don't rush. Take your time and enjoy each card.

OK, let's go...
