Playing the Hoyle Internet Games

Internet versions of Hoyle Board, Card, and Casino games are also included in this package (only for Windows). These are games you can play over the Internet with real people. If you did not install these games, run the installation again and select the Board Games Internet Play, Card Games Internet Play, and/or Internet Casino options from the demo installation screen.

To play games over the Internet:

1. Connect to the Internet the way you usually do.
2. Click START, select Programs, and choose Hoyle. Then click on Board Games Internet Play, Card Games Internet Play, or Internet Casino.
3. In the WON. NET Login screen, click Create Member. Type a member name, real name, password and other desired information, then click OK.
4. In the Gaming Room list, double-click on the name of the game you want to play (such as Backgammon, Hearts, or \$25 Blackjack).

Sierra On-Line, Inc. - Hoyle® Slots & Video Poker

5. You can then join an open game or create a new game.
 - To join an open game, click the + icon and click Join Game. (Games that you cannot join have a red slash through the icon).
 - To create a new game, click the Create Game button. To invite someone to play, click on their name and then click Invite Player.

For more help on Internet play, use the Help menu in the WON.NET window.
