Important Information for Developers

This release of CodeWarrior for Palm Computing® platform includes the Palm Computing platform Software Development Kit (SDK) and Conduit Development Kit (CDK), each of which has its own requirements, as follows:

SDK versions 3.1 and 3.2 (Palm VII) require CodeWarrior for Palm Computing® platform, Release 6, which is enclosed in this package.

Conduit Development Kit version 3.0 for Windows requires Microsoft's Visual C++ version 5.0.

Conduit Development Kit version 2.2 for Mac OS requires CodeWarrior® for Mac OS, Professional Edition, Release 4 or higher, which is available from Metrowerks and Metrowerks authorized resellers.

For the most up-to-date information on the SDK and CDK, and their corresponding requirements, please visit **http://www.palm.com/devzone/tools/**.

Thank you for buying CodeWarrior for Palm Computing platform, Release 6!
