HARDLINE MAC
INSTALLATION & ERRATA CARD

Please Read, Very Important!

Thank you for purchasing the Mac version of *Hardline*. The enclosed manual was originally written for the PC version and it will be your main source of gameplay information. However, there are a couple of changes we'd like to tell you about. For the Mac version, please ignore the installation instructions in the existing manual and refer to this errata card.

MAC SYSTEM REQUIREMENTS
(Replaces system requirement information on page 2 in existing manual):

Required:

> 68040 processor
> 8MB Ram
> 2X speed CD drive
> 40MB of hard drive space
> 0/S 7.1 or higher
> Sound Manager 3.1 (included on the CD)

Recommended:

> Power Mac 601 processor
> 12MB of Ram
> 4X speed CD drive
> 80MB of hard drive space
> Mac O/S 7.5 or higher
> Sound Manager 3.1

INSTALLING HARDLINE
(Replaces installation information on pages 2 and 3 in existing manual):

1.   Insert the *Hardline* CD disc one into your CD-ROM drive.
2.   Double-click on the *Hardline* icon.
3.   To install *Hardline,* drag one of the *light, medium* or *deluxe* folder icons onto your hard drive.
4.   Re-name the copied folder as: *Hardline*

PLAYING HARDLINE

1.   Open the *Hardline* folder on your hard drive.
2.   Double-click on the *Hardline 68K LIGHT/MEDIUM/DELUXE* icon to start.

Note: Power Mac owners should click on the *Hardline PPC Light/Medium/Deluxe* icon to start.

GAMEPLAY CONTROL CHANGES
(Changes and adds to command information on page 6 in existing manual and affects gameplay control instructions throughout manual):

The <SPACE> key (spacebar) .... Replaces PC version's Right Mouse Button

The <RETURN> key .... Brings up the *Command Interface* (Replaces PC version's <spacebar > command)

The <TAB> key .... Toggles between different visual modes - Normal, Half-Sized, Interlaced

The <M> key .... Toggles music on and off. (Turning the music off will increase the speed of the game on slower machines.)

E87023

ADDITIONAL MAC TROUBLE-SHOOTING

SLOW PROCESSORS

Some Centris and Performa models (68040/68LC040 processors) may experience slower than normal gameplay. In this event, you may want to use the tab key to change the resolution, improving the speed of the game.

QUADRA 800 PROBLEMS

The game may experience problems running on a Quadra 800 using the Operating Systems 7.1 and 7.1.1. In this event, it may be necessary to upgrade to an operating system higher than 7.1.1.

ERROR OF TYPE 1

Check the required memory size. This can be done by clicking on the application icon then selecting *Get Info* from the *File* menu. Also check the QuickTime version. As a last resort, reset the P-RAM on the machine. This can be done by holding down the **<option>** key, the **<command>** (Open Apple) key, the **<R>** key, the **<P>** key and choosing *Restart* from the *Special* menu. Listen for 5 tones (they play slowly) and then release the keys to boot up the computer. This resets the P-RAM on the computer.

ERROR OF TYPE 39

The application file has been corrupted and must be reinstalled. Remember, all saved games will be lost when the game is reinstalled. This can occur if you continue to attempt to play even when you are experiencing the problem where the game quits in a certain area. It can also be caused by not saving games correctly.

NOT ENOUGH MEMORY

Disable any unnecessary extensions. This can be done using the Extensions Manager or by creating a disabled extensions folder.

AFTER THE INSTALLATION OF GAME, MACHINE NO LONGER BOOTS UP PROPERLY.

Probably an incompatibility with Sound Manager, which should not be used on any of the AV systems. Reboot the computer while holding down the **<shift>** key (this will bypass the extensions), then drag the Sound Manager icon to the trash can and restart the computer. If Sound Manager is needed for game operation, remember to reload it.

TECHNICAL SUPPORT

For technical support information, please refer to the enclosed HELP! booklet and to the additional V.I.E. Customer Service/Technical Support options listed on the inside front cover of the manual.

HINT LINES

Please Note: The correct price for using our 1(900) 288-4744 hint line in the U.S.A. is $.95 cents per minute. Please see the enclosed HELP! booklet for more information on how to get hints for all our hottest games. (You must be at least 18 years old or have parental or guardian permission before calling.)
