

## About GarageBand Jam Pack: Voices

Welcome to GarageBand Jam Pack: Voices. Voices can be used with any of Apple's music creation applications, including GarageBand, Logic Pro 7, Logic Express 7, and Soundtrack Pro\*. Voices includes:

- Over 1500 Apple Loops of vocal performances by professional singers and rappers.
- Over 20 additional Software Instruments including choirs, soloists, vocal percussion and more.

\*Soundtrack Pro can make use of the Apple Loops included in Voices , but not the Software Instruments.

### System requirements

To install Voices, you need:

- A Macintosh computer with a 600MHz or faster processor. To use Software Instruments, a Macintosh G4 or G5 or Intel Core Processor is strongly recommended.
- At least 512 megabytes (MB) of RAM; 1 gigabyte (GB) recommended.
- A DVD-ROM drive.
- Mac OS X version 10.3 or later.
- QuickTime 6.5.2 or later.
- At least 3 gigabytes (GB) of free disk space.

Note: Using a guitar, keyboard, or microphone with GarageBand may require a USB or other audio interface.

### Hardware compatibility

Voices is a companion product to GarageBand, which can operate with any Core Audio- and Core MIDI-compliant audio interface. You may need to install additional drivers from the manufacturer of the audio interface in order to provide full Mac OS X support. For a list of supported audio and MIDI interfaces that work with GarageBand, see the GarageBand website at [www.apple.com/garageband](http://www.apple.com/garageband).

### Installing your software

To install the Apple Loops and instruments available in Voices:

1. Insert the Install DVD.
2. Double-click the GarageBand Jam Pack Voices DVD icon on your desktop.
3. Double-click the Install Jam Pack Voices icon and follow the onscreen instructions.
