### Help and Troubleshooting

If you have trouble with your software, make sure your computer meets the minimum system requirements. If you are a Windows customer, try the general troubleshooting tip below. Additional help and troubleshooting information are included in the program's Help area. Please click on the Help button on the Options Screen (for Windows) or on the Help icon in the CD Window (for Macintosh). If your difficulties persist, our Customer Support Department can help. Refer to the Customer Support section below for more information.

**Problem:** Your PC is having trouble reading the CD-ROM.

**Symptoms:** There are sudden changes in performance, or error messages such as the following appear:

- "Cannot read from drive 'D:'"
- "Error reading from CD-ROM"
- "A serious CD error has occurred"

**Possible Cause:** The disk may be damaged or dirty.

**Solution:** Check your disk for fingerprints, scratches, or smudges. To check your disk, hold its shiny side up to a bright light. If you find your disk is dirty, you can clean it with a soft cotton cloth. If necessary, you may also use a damp cloth. If your disk becomes damaged, refer to our replacement policy in the warranty section of the online help.
