INTRODUCTION

It's 2032 and the world isn't what it used to be.

We have one government where there used to be hundreds.

Big brother is alive and well.

Things are pretty good in the big cities if you don't mind the fact that the World Coalition Government tracks your every move. They claim they do it in the interest of the common good but it can make you feel insignificant and helpless. No matter where you go "they" are watching you.

In the cities most people have enough money to live quite well by the standards of the old world. An average family can afford a nice place to live, a timeshare on a vehicle and a terminal that links them to the WorldNet. For most it's an acceptable payoff for a near total loss of privacy and systematic violations of our personal freedoms.

It's best not to think about life outside the cities. The powers that be would never admit it, but the air has gone bad. The forbidden zones they euphemistically call "Wilderness Preserves" are actually massive tracts of quarantined land.

The poor people who can't afford to live in the cities get as close to the atmosphere processors as they can and eke out a miserable (and dangerous) existence working on the reclamation teams who beat back the corrosive stain of the wilderness.

From time to time someone tries to improve public awareness of the ecological nightmare but the World Coalition Government controls the media and silences them before any outcry can gain momentum. Despite this repression, there is a growing awareness that something has gone horribly wrong and that something has to be done.

Something has to give. It's only a matter of time.

THE WORLD COALITION GOVERNMENT

On January 12th, 2032 the newborn World Coalition Government annexed 80% of the countries of the world. The holdouts either reconsidered and signed treaties or were "dissolved" in a matter of months.

The leaders of the new regime gave us all kinds of rationalisations for their actions, ranging from endless border skirmishes between impoverished nations to environmental problems that they claimed could only be solved if all of the "citizens of earth" worked together.

If the truth were told, it was all about the money.

Years of boom markets and reckless spending finally took their toll, leaving small countries bankrupt and superpowers teetering on the brink of collapse. By uniting the economies of the world all of the old debt was erased and everyone got a clean slate. It was a real mess but at the time it seemed like the only way out.

At first the World Coalition Government gave a lot of lip service to representing the annexed governments. There was even an advisory council modelled on the United Nations. As the representatives began to enjoy the benefits of a global marketplace they fell silent. In a matter of years all traces of the old governments faded away. It was an economic coup on an unprecedented scale.

The World Coalition Government accomplished most of what they promised. They created "peacekeeping forces" capable of putting down any infighting and they turned around the economy.

What they don't tell you is that the poor stayed poor and there are more of them than ever before. Sure, we have bright and beautiful cities, but we pay for them by sacrificing our freedom and the well being of most of our population to the so-called "greater good."

It is a golden age for the privileged. Their ivory towers are everything we hoped the future would be.

THE TECHNOLOGY CRIMES TASK FORCE (TCTF)

One of the excuses the World Coalition Government used to grab the reins was the use of biological weapons by a few of the countries involved in border skirmishes at the time.

Biotech is to us what nukes were to our great grandparents - an emerging technology that scares the hell out of the ignorant. Everyone was terrified that some genetically engineered super-virus would spread farther than its creators intended. Horror stories of weapons that made your bones melt and your eyes explode blinded the public to the less tangible threat of a totalitarian government.

Once the puppet masters behind the World Coalition Government had what they wanted they continued to exploit techno-phobia to keep them on top. They told us that abuse of technology was the enemy and that the Technology Crimes Task Force was our guardian. In the name of the common good they granted the TCTF blanket authority to investigate wherever and however they saw fit.

Sure, the TCTF does everything it is supposed to. They keep most of the "cyber drugs" and illegal weapons off the streets, but law enforcement is a smokescreen to excuse their actual purpose.

The World Coalition Government uses the TCTF to control the evolution and distribution of new technologies. They suppress anything that could be used to undermine their authority. Their investigations are also used to violate the rights of anyone deemed "dangerous" by the World Coalition Government.

The real abuse of technology begins and ends with the government and its TCTF enforcers.

THE SYNDICATE

In the shadows of the cities the Syndicate thrives by providing the desperate and the downtrodden with the opiates they need to distract themselves and the weapons they need to kill each other.

When you really think about the power the TCTF wields it makes you wonder how the Syndicate has survived. There are a lot of theories: some say the World Coalition Government lets the Syndicate slide because they keep the underclass down. Others claim a connection between the Syndicate and the remnants of the countries erased by the World Coalition Government's land grab.

No matter what the truth behind the Syndicate's existence, one thing is for sure...the growing power of the Syndicate is due to one man, Boss Muro. Muro came out of nowhere less than ten years ago and took out all of the old Bosses. He runs the whole show now. Since he became Boss, things have gone from bad to worse. The TCTF doesn't like him. They have been at war with him for years but so far he has stayed one step ahead of the game.

YOU AND YOUR JOB

You are Konoko, a specially trained agent of the Technology Crimes Task Force, charged with your first mission. Your instincts tell you that something insidious is afoot as you infiltrate the cold underworld of the Syndicate. Commander Griffin, Regional Commander of the TCTF, is your mentor, boss, and even father figure. Shinatama is your SLD (Simulated Life Doll) assistant, confidante, companion, and friend, and the two of you share a special bond, one that is both neural and emotional.

TECH NOTE 1

The World Coalition Government realises the extent of the ecological damage and has the ability to reverse a lot of it, but has decided not to. It is in their best interest to maintain the centralisation of wealth so the large population centres are preserved while "third world" regions are not. As a bonus the mounting death toll solves some of their overpopulation problems.

TECH NOTE 2

Shinitama is an SLD, or Simulated Life Doll. The SLDs were the first attempt to create an android - a manufactured organism whose systems and structures imitate human biology. An SLD breathes, eats, sweats and can feel pain. They aren't actually human so are more durable than their flesh and blood counterparts. The brain of an SLD is created from the patterns and engrams of a human brain, often forming a close bond or link between the SLD and its human "pattern."

SLDs are cutting edge technology and as such are closely monitored by the TCTF. There are very few of them and most are modelled after children because the smaller bodies

are easier to create (and easier to control if they run amok). The TCTF is experimenting with using "adult" SLDs as field agents because of their exceptional strength and intelligence.

The Syndicate has also been experimenting with SLD technology, but their efforts have been progressing much more quickly without all the rigorous safeguards used by more respectable scientists. The Tankers are the result of this experimentation: super tough, super strong SLD warriors with a seriously bad attitude.

GETTING STARTED

System Requirements

Any Macintosh computer with a PowerPC processor running at 300Mhz or faster

MacOS 8.6 or later

96MB RAM

Hardware accelerated 3D graphics card (Open GL compatible) e.g.s. 3dfx Voodoo 2+,

ATI Rage Pro, ATI Rage 128

800MB free hard disk space

4xCD-Rom drive

Installation

1. Insert the Oni CD into the CD drive and wait for the Oni icon to open on your desktop. Before doing anything else read the file called "ReadMe".
2. Double click on the "Oni Installer" icon.
3. You will now be presented with the game's installation screen. Follow the on screen instructions to install the game to your hard disk.

Uninstall

If, for whatever reason, you should wish to uninstall Oni, simply drag the folder called "Oni f" from your hard drive to the Trash and from the Finder's Special menu select Empty Trash.

OPTIONS

When the player selects the Options box from the main menu, the following alterations to the game can be made:

Graphics

Quality: the overall quality of Oni's graphics can be changed here. Move the bar to the left to reduce the quality and to the right to increase it. (n.b Increasing the quality value may affect the game's overall performance).

Resolution: here the screen resolution can be changed. The player can choose from 640 x 480 up to 1024 x 768 in both 16-bit and 32-bit colour modes.

Sound

Overall Volume: again an adjustable bar is used. Move the bar to the right to increase the volume of all the music and sound effects and to the left to decrease them.

Difficulty

Oni incorporates 3 levels of game difficulty: Easy, Normal and Hard. Less experienced players should choose the easiest setting whilst those looking for a stern challenge should try Oni on hard.

Subtitles

All the cut-scenes available in the game can be accompanied by subtitles. To turn these on make sure that the subtitle box is crossed

Invert Mouse

If the player wishes to swap the mouse's y-axis then make sure that the corresponding box is un-crossed.

CONTROLS

These are fairly simple to learn, but can you put them to good use?

Move forward	W
Move backwards	S
Move left	A
Move right	D
Crouch	Left Shift
Action (use console, open door, interact)	Left Control
Jump	Space
Punch	F, or Mouse Click
Kick	C
Camera Control	Mouse axes
Use hypo spray	Tab
Pick up weapon/hypo spray	Q
Reload weapon	R
Drop weapon	E
Diary/Resume mode	F1
Menu Screen/Resume	ESC

GAME MODES

Oni is a one-player game. It's just you, on your own, matching wits and blows with the Syndicate.

TCTF Training - this is where your game begins. Utilise this training facility as if your life depends on it - because it does. Take the time and put in the effort to master all of your moves, because Boss Muro and his Syndicate are not fooling around. Remember the time-honoured axiom: Practice - you don't win just by doing it, but you can't win without it.

Note: TCTF Training is optional. To bypass TCTF Training, select Load Game instead of New Game on the Main Menu, and select Syndicate Warehouse.

MOVES

Run, Konoko, Run! - Lord knows that's what you'll be doing a lot of in this game, but you are by no means a one-dimensional coward! Here are just some of the slick and/or gravity-defying moves you'll be able to perform, and how to pull them off:

Escape Moves - Press CROUCH + any DIRECTION. These are useful for avoiding hand-to-hand attacks and picking up objects!

Jump Flip - JUMP, then press CROUCH while in mid-air. Perform higher and longer jumps with flip. Also a great attack move!

Slide - While running press CROUCH to avoid traps, knock enemies off their feet, or pick up objects!

Throw - While standing next to an enemy press FORWARD (into the body of your enemy) + PUNCH or KICK. Try throwing from various angles to get different results.

Running Throw - While running towards an enemy press KICK. Great move if you don't have time to slow down!

Sledgehammer Heel – Press PUNCH, PUNCH then KICK. Slow move to get off but very, very powerful! Use with Caution.

Block – Face your enemy and don't press any buttons to block normal attacks. Crouch to block low attacks.

Disarm – While standing next to an armed enemy press FORWARD (into the body of your enemy) + PUNCH. Try from different locations for different results.

Backbreaker – When standing behind an enemy hit FORWARD (into the body of your enemy) + KICK. Few enemies can survive such a brutal assault!

As Konoko progresses deeper into the Syndicate netherworld, she will become stronger and develop the capacity for special moves. You will be notified.

WEAPONS

Dose of Reality – Unlike many other games of the genre, in Oni you can carry only one weapon at a time; this will force you to strategize. The Syndicate will have to be brought down with Konoko's brains as well as her brawn.

Name	Campbell Equaliser Mk4
Ammunition Type	Ballistic Ammo
Magazine Capacity	10 rounds
Fire Rate	5 rounds per second

The Equaliser is the standard issue TCTF sidearm. It has undergone a number of refinements since the original model appeared during the World Coalition Government's rise to power.

Hint: This weapon has high recoil. Compensate when firing on full auto.

Name	Hughes Black Adder SMG
Ammunition Type	Ballistic Ammo
Magazine Capacity	30 rounds
Fire Rate	12 rounds per second

Manufactured around the world in dozens of illegal factories, the Black Adder SMG is the weapon of choice for violent criminals, terrorists, and Syndicate assault troops.

Hint: Deadly at close range, but only useful for suppression fire beyond 6 meters.

Name	SML3 Plasma Rifle
Ammunition Type	Energy Cells
Magazine Capacity	10 rounds
Fire Rate	1.1 rounds per second

The SML3 Plasma Rifle fires bursts of superheated plasma, encased in a 1.2 kT magnetic field, which explode upon impact.

Hint: Bursts accelerate rapidly during flight. Lead moving targets appropriately.

Name	Phase Stream Projector
Ammunition Type	Energy Cells
Magazine Capacity	300 Units
Fire Rate	Continuous

This device is a miniaturized version of the vehicle-mounted phase projectors deployed during the Freedom Riots of 2012. It emits a continuous beam of energy that can stagger or topple enemies.

Hint: To aim, direct the weapon's energy beam.

Name	SBG Man-Portable Mortar
Ammunition Type	Ballistic Ammo
Magazine Capacity	4 rounds
Fire Rate	1 round per 2 seconds

Scatter-pack Ballistic Grenade Man-Portable Mortar is too much of a mouthful, so troops all over the world simply refer to this weapon as the Superball Gun!

Hint: Fire normally for a default scatter pattern. To surprise your enemies with a carom, hold the trigger when firing to bounce shots, and then release to detonate.

Name	Van de Graaff (VDG) Pistol
Ammunition Type	Energy Cells
Magazine Capacity	5 rounds
Fire Rate	1 round per 3.1 seconds

An extrapolation of fundamental electrical principles, the VDG Pistol is the ultimate "stun gun." Each shot is high voltage/low amperage, so it causes minimal physical harm.

Hint: Shots disable one or more enemies at close range. Attack or escape while victims are disoriented.

Name
Ammunition Type
Magazine Capacity
Fire Rate

Scram Cannon
Ballistic Ammo
5 rounds
1 swarm per 2.5 seconds

The Scram Cannon is the most indiscriminate weapon of terror in the Syndicate's arsenal! Its homing missile swarms "scramble" toward targets moments after launch.

Hint: Missile warheads are inactive at close range. For best results, give swarms space to home in on their targets.

Name
Ammunition Type
Magazine Capacity
Fire Rate

Mercury Bow
Ballistic Ammo
2 rounds
1 round per 5 seconds

Unlike its low-tech namesakes, this "bow" fires a compressed sliver of frozen mercury at ultra-high velocity. Damage comes both from the initial trauma of impact, and subsequent mercury poisoning.

Hint: Kills all but the strongest enemies with one shot. The bow must re-freeze after firing, and thus has a slow cycle-rate.

Name
Ammunition Type
Magazine Capacity
Fire Rate

Screaming Cannon
Energy Cells
6 rounds
1 round per 10 seconds

This weapon fires capsules that release a mysterious entity known as a Screaming Cell. These creatures seem to exist out of Earth phase, but feed on life force and are drawn to it when freed.

Hint: The cannon masks its wielder's life force from the entity, but any life that ventures too near it will be drained.

Name Wave Motion Cannon
No further data has been recorded about this weapon

This massive weapons array has been under development by Syndicate scientists for some time. Normally vehicle-mounted, it would require superhuman strength to lift or fire!

Hint: Try pressing other attack buttons for alternate fire modes.

CHARACTERS

Name: Konoko

Bio Data:

Orphaned at the age of 3, the woman now code-named Konoko has been raised as a ward of the World Coalition Government ever since. Her upbringing has been overseen by a legion of scientists and TCTF personnel, and she has been trained in the most advanced combat and counter-terrorism techniques.

Strengths:

Master of hand-to-hand combat, expert marksman.

Special Moves:

Rising Fury Punch

Devil Spin Kick

Twister Kick

Weaknesses:

Emotional attachment to the Shinatama SLD.

Description:

Konoko has been raised by the TCTF for as long as she can remember. She knows that she is somehow "different" from other people, but she is anxious to prove herself to Commander Griffin and the rest of the TCTF.

Name: Shinatama

Bio Data:

Shinatama is an SLD (simulated life doll) android, responsible for co-ordinating the entire regional communications spine at TCTF regional headquarters.

Strengths:

Extensive knowledge of TCTF operational data and security protocols.

Special Moves:

None

Weaknesses:

Non-combatant.

Description:

Shinatama is neurally linked to Konoko and can communicate with her at all times. The neural link gives Konoko full access to Shinatama's scanning technology and knowledge database.

Name: Commander Griffin

Bio Data:

Regional Commander of the Technology Crimes Task Force. Currently on reserve status in the TCTF Black Ops duty roster.

Strengths:

Skilled in hand-to-hand combat, master marksman.

Special Moves:

None

Weaknesses:

None

Description:

As a Regional Commander, Griffin enjoys total control of the personnel and equipment within his region. A cunning and dogged leader, Griffin's enemies know that he will stop at nothing to maintain order and civil control.

TCTF TACTICAL

Name: TCTF – Tactical Trooper

Bio Data:

Tac-Ops troopers form the bulk of the fighting forces of the TCTF.

Strengths:

Skilled in hand-to-hand combat, skilled marksman.

Special Moves:

Leaping Hammer Punch.

Weaknesses:

Slow reaction speed. Weak Special Moves.

Description:

Well armoured and well trained, the TCTF Tactical trooper is more than a match for his closest Syndicate counterpart, the Grunt Striker, but the TCTF Troopers are always outnumbered by their Syndicate adversaries.

TCTF SWAT

Name: TCTF – SWAT Trooper

Bio Data:

TCTF SWAT Troopers are the elite agents of the TCTF.

Strengths:

Expert in hand-to-hand combat, skilled marksman, powerful Special Moves.

Special Moves:

Lion Axe, Lion Fist, Flying Cross.

Weaknesses:

Slow reaction speed.

Description:

Unlike contemporary SWAT troopers TCTF SWAT are often deployed alone or in concert with standard Tac-Ops troopers. Often just the sight of these armoured giants is enough to make renegade lawbreakers surrender outright.

BLACK OPS TACTICAL

Name: Black Ops – Tactical Trooper

Bio Data:

Black Ops tactical troopers form a special unit promoted from the elite of the TCTF.

Strengths:

Expert in hand-to-hand combat, skilled marksman.

Special Moves:

Leaping Hammer Punch.

Weaknesses:

Fair reaction speed. Weak Special Moves.

Description:

Better trained and better armored than a TCTF Tactical trooper, and unfettered by conscience, the Black Ops Tactical Trooper is a deadly foe.

BLACK OPS SWAT

Name: Black Ops – SWAT Trooper

Bio Data:

Black Ops SWAT Troopers are the ultimate enforcers of the TCTF.

Strengths:

Expert in hand-to-hand combat, skilled marksman.

Special Moves:

None.

Weaknesses:

None.

Description:

Highly skilled in lethal close-combat techniques, the Black Ops Swat Trooper is deadly and merciless. They are only unleashed against the toughest and most dangerous foes of the WCG.

SNIPER

Name: Mercenary Sniper

Bio Data:

Mercenary Snipers are long-ranged specialist assassins that sell their services to the highest bidder.

Strengths:

Trained in hand-to-hand combat, master marksman.

Special Moves:

None.

Weaknesses:

Physically weak.

Description:

Mercenary Snipers are veterans of the Uprising War that left the World Coalition Government in control of the globe. The oppressive nature of the WCG has left the mercenaries with numerous opportunities to hone their skills equally on enemies of the state and high-ranking government officials.

COMMUNICATIONS TROOPER

Name: Comm Trooper

Bio Data:

Comm Troopers are the communications specialists for the Syndicate.

Strengths:

Trained in hand-to-hand combat, skilled marksman.

Special Moves:

Static Fist.

Weaknesses:

Physically weak.

Description:

Comm Troopers maintain communications between Syndicate assault squads, and serve as field computer specialists.

STRIKER GREEN

Name: Striker – Grunt Class (green)

Bio Data:

Strikers are the foot soldiers of the Syndicate criminal organisation. Grunts are the lowest rank of Syndicate Strikers.

Strengths:

Trained in hand-to-hand combat, trained marksman.

Special Moves:

None

Weaknesses:

Reaction speed is slow, combat repertoire is limited.

Description:

Though they are weak individually, Grunt Strikers often appear in numbers, augmenting their limited fighting and shooting skills.

STRIKER BLUE

Name: Striker – Hoplite Class (blue)

Bio Data:

Strikers are the foot soldiers of the Syndicate criminal organisation. Hoplites are the middle ranking Syndicate Strikers.

Strengths:

Skilled in hand-to-hand combat, skilled marksman.

Special Moves:

Striker Slam Punch

Weaknesses:

Favours high-risk combat manoeuvres (jumping attacks). Limited range on their Special Move.

Description:

Hoplites are often deployed in support of weaker Syndicate troops. Hoplites earned their nickname through their flashy fighting style; they will often favour combat manoeuvres that leave them vulnerable but can score high damage hits on their opponents.

STRIKER RED

Name: Striker – Hussar Class (red)

Bio Data:

Strikers are the foot soldiers of the Syndicate criminal organisation. Hussars are the highest-ranking Syndicate Strikers.

Strengths:

Expert in hand-to-hand combat, skilled marksman, powerful Special Moves.

Special Moves:

Striker Slam Punch, Headbutt Dash.

Weaknesses:

Headbutt Dash Special Move leaves them vulnerable.

Description:

Hussars are the most powerful class of Strikers and only appear on missions of the utmost importance. They are suspected to have undergone extensive physical modification and wear heavily armoured uniforms.

NINJA GREEN

Name: Ninja – Infiltrator Class (green)

Bio Data:

Ninjas are the spies and assassins of the Syndicate criminal organisation. Infiltrators are the lowest-ranking Syndicate Ninjas.

Strengths:

Expert in hand-to-hand combat, skilled marksman, powerful Special Moves.

Special Moves:

Volt Stomp, Volt Suplex.

Weaknesses:

Physically weak.

Description:

Syndicate Ninjas are trained to operate alone, each one an expert hand-to-hand fighter with a number of deadly Special Moves.

Infiltrator class ninjas are dispatched primarily on missions of information gathering or observation.

NINJA BLUE

Name: Ninja – Eliminator Class (blue)

Bio Data:

Ninjas are the spies and assassins of the Syndicate criminal organisation. Eliminators are the mid-ranking Syndicate Ninjas.

Strengths:

Expert in hand-to-hand combat, skilled marksman, powerful Special Moves.

Special Moves:

Volt Stomp, Volt Suplex, Skorp Kick.

Weaknesses:

Physically weak.

Description:

Eliminators are the Syndicate assassins, often dispatched with Infiltrator class ninjas in support.

NINJA RED

Name: Ninja – Avenger Class (red)

Bio Data:

Ninjas are the spies and assassins of the Syndicate criminal organisation. Avengers are the highest-ranking Syndicate Ninjas.

Strengths:

Expert in hand-to-hand combat, skilled marksman, powerful Special Moves.

Special Moves:

Volt Stomp, Volt Suplex, Skorp Kick, Lightning Driver.

Weaknesses:

Physically weak.

Description:

Avenger class ninjas have been personally trained by Mukade, the Syndicate master assassin. Avengers are dispatched at his direction, often to eliminate the most powerful enemies of the Syndicate.

FURY GREEN

Name: Fury – Harridan Class (green)

Bio Data:

The Furies are command-level Syndicate assault troops. Harridans are the lowest ranking Syndicate Furies.

Strengths:

Expert in hand-to-hand combat, skilled marksman.

Special Moves:

Foot Stomp.

Weaknesses:

Physically weak.

Description:

Furies are deployed as field commanders for large numbers of Syndicate assault troops. Harridans co-ordinate the activities of between 2 to 4 squads in the field.

FURY BLUE

Name: Fury – Banshee Class (blue)

Bio Data:

The Furies are command-level Syndicate assault troops. Banshees are mid-ranking Syndicate Furies.

Strengths:

Expert in hand-to-hand combat, skilled marksman.

Special Moves:

Foot Stomp, Whirl Kick.

Weaknesses:

Physically weak.

Description:

Banshees oversee critical Syndicate operations, or act as personal aides and bodyguards to Syndicate senior staff.

FURY RED

Name: Fury – Valkyrie Class (red)

Bio Data:

The Furies are command-level Syndicate assault troops. Valkyries are the highest-ranking Syndicate Furies.

Strengths:

Expert in hand-to-hand combat, skilled marksman.

Special Moves:

Foot Stomp, Whirl Kick, Ten-Shadow Punch.

Weaknesses:

Physically weak.

Description:

The Valkyries are Muro's personal aides and bodyguards. Their presence always indicates his personal involvement in an operation.

ELITE GREEN

Name: Elite Striker – Ogre Class (green)

Bio Data:

Elite Strikers are the most powerful Syndicate troops. Ogres are the lowest class of Elite Strikers.

Strengths:

Skilled in hand-to-hand combat, trained marksman, enhanced physical strength.

Special Moves:

Cannonball Roll.

Weaknesses:

Slow reaction speed. Cannonball Special Move leaves them vulnerable.

Description:

Elite Strikers provide tremendous combat power in support of Syndicate assault troops. Though they appear slow and lumbering, their fighting style makes the most of their great physical strength. Ogre class Elites are dispatched in support of smaller, weaker assault troops.

ELITE BLUE

Name: Elite Striker – Giant Class (blue)

Bio Data:

Elite Strikers are the most powerful Syndicate troops. Giants are mid-ranking Elite Strikers.

Strengths:

Skilled in hand-to-hand combat, trained marksman, enhanced physical strength.

Special Moves:

Cannonball Roll, Whirling Dervish.

Weaknesses:

Slow reaction speed. Cannonball Special Move leaves them vulnerable.

Description:

Giant class Elite Strikers function like living tanks: wading through battle while shaking off tremendous amounts of physical damage.

ELITE RED

Name: Elite Striker – Titan Class (red)

Bio Data:

Elite Strikers are the most powerful Syndicate troops. Titans are the highest-ranking Elite Strikers.

Strengths:

Expert in hand-to-hand combat, trained marksman, enhanced physical strength.

Special Moves:

Cannonball Roll, Whirling Dervish, Crucifix Punch.

Weaknesses:

Slow reaction speed. Cannonball Special Move leaves them vulnerable.

Description:

Titan class Elite Strikers are only rumoured to exist. Though no living witnesses exist to confirm reports, it is said that the Titan class Elites can absorb incredible amounts of punishment and emerge alive.

TANKER GREEN

Name: Tanker – Skirmisher Class (green)

Bio Data:

Tankers are illegal SLD androids created by the Syndicate. Skirmishers are the lowest class of Tanker SLDs.

Strengths:

Skilled in hand-to-hand combat, trained marksman, enhanced physical strength.

Special Moves:

Hover Kick.

Weaknesses:

Limited range on Hover Kick Special Move.

Description:

In defiance of WCG law the Syndicate has moved forward on the development of physically mature SLD androids. Tankers are based on the engram patterns of a particularly obnoxious Syndicate commander with a penchant for professional wrestling. Skirmishers are the earliest models created by the Syndicate and so are the least refined.

TANKER BLUE

Name: Tanker – Brawler Class (blue)

Bio Data:

Tankers are illegal SLD androids created by the Syndicate. Brawlers are the mid-level class of Tanker SLDs.

Strengths:

Skilled in hand-to-hand combat, trained marksman, enhanced physical strength.

Special Moves:

Nuclear Tackle, Blockbuster.

Weaknesses:

Nuclear Tackle Special Move leaves them vulnerable and prone.

Description:

Brawlers are considerably more advanced than the previous Tanker models, and are better able to harness their artificial strength.

TANKER RED

Name: Tanker – Crusher Class (red)

Bio Data:

Tankers are illegal SLD androids created by the Syndicate. Crushers are the highest level class of Tanker SLDs.

Strengths:

Expert in hand-to-hand combat, trained marksman, enhanced physical strength.

Special Moves:

Nuclear Tackle, Blockbuster, Atomic Elbow Drop.

Weaknesses:

Nuclear Tackle Special Move leaves them vulnerable and prone.

Description:

The Crusher class of SLD is a very recent addition to the Syndicate forces. Faster and stronger than all of its predecessors, the Crusher class is the ultimate expression of SLD combat technology.

ON-SCREEN DISPLAY

These two display meters provide all of Konoko's vital statistics, and are found on the lower left and right sections of the screen display during gameplay.

USEFUL STUFF

You will find many handy items scattered about the game's landscape; be sure to scour all areas thoroughly, as you never know what can be found where. Here are just some of the items you will find:

Ballistic Ammo - Reload Weapon

Co-ordinating the arms of mercenary and corporate forces during the Great Uprising had WCG researchers scrambling to solve their logistical problems. Their solution was modular, generic casings and projectiles loaded with mission-specific ordnance payloads. "Blank bullets" allowed modular components to adapt and reload any ballistic weapon on the battlefield.

Hint: Reloading a weapon takes time. Plan accordingly.

Energy Cell - Reload Weapon

Governments and markets welcomed the emergence of the World Coalition Government, or were crushed beneath it. As hostilities subsided the WCG began to standardise "fundamental technical elements" across all market regions. The Ubiquitous Energy Cell has replaced all other portable power sources.

Hint: The short span of time needed to reload can be all an enemy needs. Find a safe haven to reload in.

Hypo Spray - Recover Health

Hypo sprays deliver stimulants, analgesics, and active neuro-biological reinforcing elements through a sub-dermal injector. The solution takes time to act on the body: further trauma while it is active reduce the hypo's maximum healing potential. Even a few hits will cancel the effect altogether. Multiple hypos can be activated at once to extend the maximum healing range.

Hint: Hypo near full health for temporary Daodan Overpower Mode – boosted health and super-strength!

Phase Cloak - Temporary Invisibility

The Phase Cloak agitates the user's molecules out of the visible light spectrum. The effect only lasts for 30 seconds: any longer and the user might suffer irreversible cellular damage. A weakness of the cloaking effect is that the wearer becomes visible for a moment during physical contact with non-phased bodies.

Hint: The 30 seconds begin immediately upon picking up the cloak.

Force Shield - Bullet Barrier

The Force Shield surrounds the body of the wearer and absorbs the impact of any projectile that strikes it. The shield can only absorb a limited amount of punishment before it collapses; as it grows weaker its intensity fades.

Hint: Picking up a shield will cause you to discard your current shield forever.

CUSTOMER SUPPORT

Every effort has been made to make Oni as compatible with current hardware as possible. However, if you are experiencing problems with running Oni, please read on. The following information MUST be obtained BEFORE contacting our Technical Support:

1. The error message displayed when the problem occurred (if any).
2. A listing of your machine specs, including:
CPU speed and make (e.g. iBook 366Mhz)
Amount of RAM (e.g. 128Mb Ram)
Hard disk size and amount of free space (e.g. 12GB)
OpenGL version (e.g. 1.1.3)
3D accelerator card (e.g. ATI Rage Mobility 6Mb RAM)

All the information required can be obtained by clicking on the Apple System profiler (under the Apple menu on your desktop) and reviewing the details provided therein. With this information you will be able to configure your machine correctly. If you have obtained this information and are still having problems, then Feral has a Customer Services Department that is ready to help you with any problems you may encounter with the game.

OUR TECHNICAL SUPPORT CONTACT DETAILS

Web address: www.feral.co.uk.

Here you will find extensive product support and other information. In addition, this site provides answers to Frequently Asked Questions (FAQs) plus patches, updates and demos.

E-mail: onisupport@feral.co.uk.

If you cannot find an answer to your question on the website, please email us at onisupport@feral.co.uk. We will reply to you within 24 hours. Remember to include a report from the Apple Systems Profiler with your email.

Fax: +44(0)20-8875-1846

Tel: +44(0)20-8875-9787

Post: Feral Interactive Technical Support
St. George's Court,
131 Putney Bridge road,
London, SW15 2PA
England

**PLEASE DO NOT CONTACT FERAL'S TECHNICAL SUPPORT STAFF IN SEARCH OF GAME HINTS.
They are neither permitted nor qualified to supply such information.**

LIMITED SOFTWARE WARRANTY AND LICENSE AGREEMENT

This LIMITED SOFTWARE WARRANTY AND LICENSE AGREEMENT (this Agreement), including the Limited Warranty and other special provisions, is a legal agreement between You (either an individual or an entity) and Rockstar Games and Take 2 Interactive Software and Feral Interactive Limited, (collectively, the Owner) regarding this software product and the materials contained therein and related thereto. Your act of installing and/or otherwise using the software constitutes Your agreement to be bound by the terms of this Agreement. If You do not agree to the terms of this Agreement, promptly return the software packaging and the accompanying materials (including any hardware, manuals, other written materials and packaging) to the place You obtained them, along with your receipt, for a full refund.

Grant of Limited Non-Exclusive License. This Agreement permits You to use one (1) copy of the software program(s) (the SOFTWARE) included in this package for your personal use on a single home or portable computer. The SOFTWARE is in use on a computer when it is loaded into temporary memory (i.e., RAM) or installed into the permanent memory (e.g., hard disk, CD-ROM, or other storage device) of that computer. Installation on a network server is strictly prohibited, except under a special and separate network license obtained from Owner. This Agreement shall not serve as such necessary special network license. Installation on a network server constitutes use that must comply with the terms of this Agreement. This license is not a sale of the original SOFTWARE or any copy thereof. You may not sell, rent, lend or otherwise transfer the SOFTWARE and/or ACCOMPANYING MATERIALS to any other individual or entity.

Intellectual Property Ownership. Owner retains all right, title and interest to this SOFTWARE and the accompanying manual(s), packaging and other written materials (collectively, the ACCOMPANYING MATERIALS), including, but not limited to, all copyrights, trademarks, trade secrets, trade names, proprietary rights, patents, titles, computer codes, audiovisual effects, themes, characters, character names, stories, dialog, settings, artwork, sounds effects, musical works, and moral rights. The SOFTWARE and ACCOMPANYING MATERIALS are protected by United States copyright law and applicable copyright laws and treaties throughout the World. All rights are reserved. The SOFTWARE and ACCOMPANYING MATERIALS may not be copied or reproduced in any manner or medium, in whole or in part, without prior written consent from Owner. Any persons copying or reproducing all or any portion of the SOFTWARE or ACCOMPANYING MATERIALS, in any manner or medium, will be willfully violating the copyright laws and may be subject to civil or criminal penalties. The SOFTWARE and ACCOMPANYING MATERIALS may not be sold, rented, loaned or otherwise transferred to any other individual or entity.

SOFTWARE Backup or Archiving. After You install the SOFTWARE into the permanent memory of a computer, You may keep and use the original disk(s) and/or CD-ROM (the Storage Media) only for backup or archival purposes.

Restrictions. Other than as provided specifically in this Agreement, You are not permitted to copy or otherwise reproduce the SOFTWARE or ACCOMPANYING MATERIALS; modify or prepare derivative copies based on the SOFTWARE or ACCOMPANYING MATERIALS; distribute copies of the SOFTWARE or ACCOMPANYING MATERIALS by sale or other transfer of ownership; rent, lease, or lend the SOFTWARE or ACCOMPANYING MATERIALS; or to display the SOFTWARE or ACCOMPANYING MATERIALS publicly. You

are expressly prohibited from transmitting the SOFTWARE or ACCOMPANYING MATERIALS electronically or otherwise over the Internet or through any other media or to any other party. You are expressly prohibited from selling or otherwise using for profit any scenery, maps, levels, level packs, add-on packs, sequels, characters or other components or items based upon or related to the SOFTWARE or ACCOMPANYING MATERIALS. YOU ARE NOT PERMITTED TO REVERSE ENGINEER, DECOMPILE OR DISASSEMBLE THE SOFTWARE IN ANY WAY. Any copying of the SOFTWARE or ACCOMPANYING MATERIALS not specifically allowed in this Agreement is a violation of this Agreement.

Limited Warranty and Warranty Disclaimers.

LIMITED WARRANTY. Owner warrants that the original Storage Media holding the SOFTWARE is free from defects in materials and workmanship under normal use and service for a period of ninety (90) days from the date of purchase as evidenced by Your receipt. If for any reason You find defects in the Storage Media, or if you are unable to install the SOFTWARE on your home or portable computer, You may return the SOFTWARE and all ACCOMPANYING MATERIALS to the place You obtained it for a full refund. This limited warranty does not apply if You have damaged the SOFTWARE by accident or abuse.

CUSTOMER'S REMEDY. Your exclusive remedies, and the entire liability of Owner, shall be (i) replacement of any original Storage Media with the SOFTWARE or (ii) full refund of the price paid for this SOFTWARE. By opening the sealed software packaging, installing and/or otherwise using the SOFTWARE or ACCOMPANYING MATERIALS, you hereby agree to waive any and all other remedies you may have at law or in equity. Any such remedies you may not waive as a matter of public policy, you hereby assign, or shall assign as they become available, over to Owner.

WARRANTY DISCLAIMERS. EXCEPT FOR THE EXPRESS LIMITED WARRANTY SET FORTH ABOVE, OWNER MAKES NO WARRANTIES, EXPRESS OR IMPLIED, ORAL OR WRITTEN, CONCERNING THE PRODUCTS OR ANY COMPONENT PART THEREOF. ANY IMPLIED WARRANTIES THAT MAY BE IMPOSED BY APPLICABLE LAW ARE LIMITED IN ALL RESPECTS TO THE FULLEST EXTENT ALLOWED AND TO THE DURATION OF THE LIMITED WARRANTY. OWNER DOES NOT REPRESENT, WARRANT OR GUARANTEE THE QUALITY OR THE PERFORMANCE OF THE SOFTWARE OR ACCOMPANYING MATERIALS OTHER THAN AS SET FORTH IN THE ABOVE LIMITED WARRANTY. OWNER ALSO DOES NOT REPRESENT, WARRANT OR GUARANTEE THAT THE SOFTWARE OR ACCOMPANYING MATERIALS' CAPABILITIES WILL MEET YOUR NEEDS OR THAT THE SOFTWARE WILL CONTINUOUSLY OPERATE, BE ERROR FREE, OR THAT PROBLEMS WILL BE CORRECTED. OWNER DOES NOT REPRESENT THAT THE SOFTWARE WILL OPERATE IN A MULTI-USER ENVIRONMENT.

NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY OWNER, ITS DEALERS, DISTRIBUTORS, DIRECTORS, OFFICERS, EMPLOYEES, AGENTS, CONTRACTORS OR AFFILIATES SHALL CREATE ANY OTHER WARRANTY OR EXTEND OR EXPAND THE SCOPE OF THIS WARRANTY. YOU MAY NOT RELY ON ANY SUCH INFORMATION OR ADVICE.

SOME COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER STATUTORY RIGHTS WHICH MAY VARY FROM COUNTRY TO COUNTRY.

LIABILITY LIMITATION. To the maximum extent permitted by applicable law, and regardless of whether any remedy set forth herein fails of its essential purpose, IN NO EVENT WILL OWNER, ITS DIRECTORS, OFFICERS, EMPLOYEES, AGENTS OR AFFILIATES NOR ANYONE ELSE INVOLVED IN THE DEVELOPMENT, MANUFACTURE OR DISTRIBUTION OF THE SOFTWARE OR THE ACCOMPANYING MATERIALS BE LIABLE FOR ANY DAMAGES WHATSOEVER, INCLUDING WITHOUT LIMITATION, DIRECT OR INDIRECT; INCIDENTAL; OR CONSEQUENTIAL DAMAGES FOR PERSONAL INJURY, PERSONAL PROPERTY, LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, LOSS OF TEXT OR DATA STORED IN OR USED WITH THE SOFTWARE INCLUDING THE COST OF RECOVERING OR REPRODUCING THE TEXT OR DATA, OR ANY OTHER PECUNIARY LOSS, ARISING FROM OR OUT OF THE USE OR INABILITY TO USE THIS SOFTWARE. THIS LIABILITY LIMITATION APPLIES EVEN IF YOU OR ANYONE ELSE HAS ADVISED OWNER OR ANY OF ITS AUTHORIZED REPRESENTATIVES OF THE POSSIBILITY OF SUCH DAMAGES. EVEN IF SUCH IS CAUSED BY, ARISES OUT OF OR RESULTS FROM THE ORDINARY, STRICT, SOLE OR CONTRIBUTORY NEGLIGENCE OF OWNER OR ITS DIRECTORS, OFFICERS, EMPLOYEES, AGENTS, CONTRACTORS OR AFFILIATES. SOME COUNTRIES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

Product Support and Updates. This SOFTWARE is intended to be user-friendly and limited product support is provided by Owner as specified in the ACCOMPANYING MATERIALS.

Jurisdiction. ENGLISH LAWS GOVERN THIS AGREEMENT, REGARDLESS OF EACH COUNTRY'S CHOICE OF LAW PRINCIPLES, WITH A FORUM AND VENUE OF LONDON, ENGLAND. This Agreement may be modified only by a written instrument specifying the modification and executed by both parties. In the event that any provision of this Agreement shall be held to be unenforceable, such provision shall be enforced to the greatest possible extent, with the other provisions of this Agreement to remain in full force and effect.

Entire Agreement. This Agreement represents the entire agreement between the parties, and supersedes any oral or written communications, proposals or prior agreements between the parties or any dealers, distributors, agents or employees.

Termination. This Agreement is valid until terminated. This Agreement ceases automatically (without any form of notice) if You do not comply with any Agreement provision. You can also end this Agreement by destroying the SOFTWARE and ACCOMPANYING MATERIALS and all copies and reproductions of the SOFTWARE and ACCOMPANYING MATERIALS and deleting and permanently purging the SOFTWARE from any client server or computer on which it has been installed.

Equitable Remedies You hereby agree that if the terms of this Agreement are not specifically enforced, Owner will be irreparably damaged, and therefore you agree that Owner shall be entitled, without bond, other security, proof of damages, to appropriate equitable remedies with respect any breach(es) of this Agreement, in addition to any other available remedies.

Owner If You have any questions regarding this Agreement, the enclosed materials, or otherwise, please contact in writing:
