

## PPC Gallery by Taro's Factory

- About this soft;

This game is a classic and pure shooting gallery, but you could enjoy smooth and pretty animation.

- System requirements;

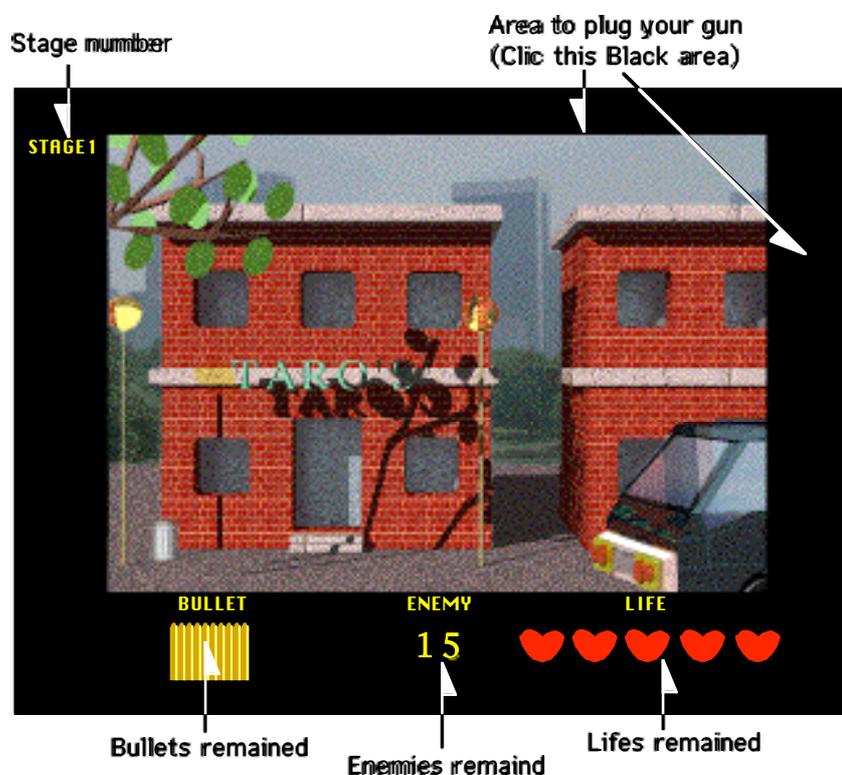

Any Power PC capable of displaying 256 colors

System 7 or later

2MB of free RAM

- How to play;

After startup-screen is finished, game-screen will appear. When enemy (Teddy Bear) shows up in the game-screen, move the cursor to the enemy and click the mouse to fire. Hit the enemy before the enemy fire. Total number of enemy to be appeared is 15. The last enemy is special. If the last enemy hits you, the game will be over no matter how many lives you have at that moment. If you hit the last enemy, you step into the next stage. The number of enemy you have to hit will be displayed on the screen (see the figure below). Your lives and bullets are also displayed. If you run out of bullets, click the black area around the game screen.

- Before playing;
