  - ★ User does not need to know how to read to use the program
  - ★ Appropriate for all ages, ESL and Special Needs Education
- Target ages 5-9, Grades 1-5

## Unique

Help Me 2 Learn products feature an easy-to-use navigation system that is user friendly. Help Me 2 Learn products use music to do much of the teaching because we believe that music can make learning easier to remember and more fun. Then we use games and fun activities that reinforce the learning. The songs and games are all tied together with our "Super Star" system that rewards the student, motivates them to complete the games and songs, and tracks each student's progress in a colorful and easy to understand report. Once a student has earned a few silver or gold stars, they want to keep on going until they have earned all of the stars.

## Sing-a-long Songs

Phonics 2 is a sing-a-long program that features 8 educational songs from Twin Sisters Productions. The words in all of the songs are highlighted as the song is playing reinforcing word familiarization and building reading skills.

## Fun Interactive Activities

The songs are followed by fun interactive activities that reinforce the lessons taught in the songs. Phonics 2 teaches and tests: what is Phonics, vowel sounds, one sound consonants, multi sound letters, consonant blends, digraphs, diphthongs, compound words, rhyming words, antonyms, synonyms, homonyms and spelling.

## Award Winning

**National Parenting Center Seal of Approval - Fall 2001**

"Exceptional instruction and games/drills on topics such as antonyms, synonyms and even diphthongs, really impressed our testers."

**Parents' Choice Gold Award - Fall 2001  
Top of List**

"One knock against edu-tainment software is that the "edu" content too often gets lost or ends up superficial in the mix with the wacky entertainment. Not in Phonics 2. This colorful, interactive program covers all the bases of learning and practicing phonics so start-up readers can learn how to phonetically sound-out, spell and sight-read words."

**Best of 2001 - The Review Zone - Tina Velgos**

"Phonics 2 is one of the best interactive phonics CD-ROMs on the market! This software is an exceptional power tool--whether you teach home school, you're a primary grade school teacher, or the parent of a child who needs help learning how to phonetically sound-out, spell, and read sight words. With over eight hours of playing time, this may be the best \$30 you've spent on your child's education!"

## Learn the Words

In Phonics 2 we have added a brand new feature "Learn the Words". The "Learn the Words" section allows the student to see and hear how words are formed using phonics sounds. Words are introduced in the songs, reinforced in the "Learn the Words" section, used in the games and then tested in the spelling and review games.

## PC and MAC compatible

Phonics 2 is PC and MAC compatible program that is also a Audio CD that plays on most CD players. Lab packs and secure network versions are available.

## Teachers and Parents Features

A Teachers and Parents section includes the following:

- a) An explanation of the Super Star System
- b) Print pages for the words in all of the songs
- c) Print pages for all of the activities (there are a total of 38 activity print pages)
- d) The Student Management System

## Guaranteed

Phonics 2 comes with a 90 day - 100% satisfaction guarantee.
