

# QuickTime 3 Pro Instructions

As a special bonus, Terran Interactive has licensed QuickTime 3 Pro for inclusion with Media Cleaner Pro. The QuickTime 3 installer is included on the Media Cleaner Pro 3 CD-ROM in the "QuickTime Pro" folder. To install QuickTime, please follow the installation instructions included in the QuickTime folder.

To unlock your copy of QuickTime Pro, open the "QuickTime Settings" control panel, and choose "Registration" from the pop-up. Press the "Enter Registration..." button, and enter the "Name" code (MCP-MAC-QT3...) from the bottom of this card in the "Name" field. Enter the "Registration" code from below in the "Registration" field, then press the "OK" button.

**NOTE:** Do not enter your actual name into the "Name" field – unless you use the "Name" code on the sticker below, the control panel won't accept your serial number. Also, the QuickTime Settings control panel is case sensitive – make sure to enter these codes exactly.

Name Code:

**MCP-MAC-QT3-PRO-05695**

Registration Code:

**4089-29E1-C0E3-B894-1CD6**
