

Quick Installation Guide

1. Login to your account at www.robpapen.com or if you do not have an account then please create one. Please remain logged into www.robpapen.com during install.
2. Register your plug-in's serial in the 'My Products' section and then download and install the correct version of the plug-in for your music program (host) & computer. The download page can be opened below each listed product.
3. On first opening up the plug-in (inside your music program), the activation screen is shown, which will show your Computer ID.
Enter this Computer ID in the entry for your plug-in in the 'My Products' page at www.robpapen.com
4. You will then see an activation code at the website.
Enter this activation code in the plug-in's activation screen, and the plug-in will be activated and ready to use.
In the case of an activation failure please check point 5.

Note: Please enter the activation via keyboard rather than copy & paste due to problems with some music hosts.

5. Activation failure may be caused by an incorrect typing/input error.
See point 3 above.
If this is the case then visit 'My Products' at www.robpapen.com and there you can 'deactivate' the product to redo the activation process.
After this if you still have problem then please contact our support.

General note about our software protection:

- In the case of a new computer system you can deactivate your current activation in the 'My Products' section.
- In case of a hard disk failure and you are unable to deactivate at 'My Products', please contact support.

Check the next page of detailed installation guide and help.

Detailed Installation Guide & Help

Registering Your Plug-in

1. If you have purchased a boxed version of the Rob Papen plug-in with DVD, you can use the installer on the disk. However, it is recommended that you download the latest version of the plug-in by following the steps below.
2. Login to your account at www.robpapen.com or if you do not have an account there please create one.
3. Then, register your RP plug-in there. Go to the 'My Products' section and enter the serial code from your registration email, receipt, or the serial card inside the boxed product.

- Register an electronic delivered serial email or one printed on a receipt as an 'online' serial.

- Register boxed product (with DVD) serial or those only with serial card as a 'box' serial.

NOTE: registering your plug-in will allow you to obtain support, updates and a 2nd serial code for an additional computer.

4. Next click on the download link that will pop up after registration and download the correct version for your computer.

Installing your plug-in on the PC

1. Run the plug-in installer and enter your serial when asked to. If you did not enter your serial (on first install) or have entered it incorrectly, the plug-in will ask for it again when you first use the plug-in in your host (music software).
2. During installation you will be asked which version to install and where to install it.

32 Bit version – install this version if you are using a 32 bit version of Windows, or are using a 32 bit music program (host), even if you are using a 64 bit version of Windows. Note: if you are install the 32 bit version in a 64 bit version of Windows to install in “Program Files (x86) \steinberg\vstplug-ins”

64 Bit version – install this version if you are using a 64 bit music program (host).

For details on how to use plug-ins in general, please check your music software (host) documentation.

Installing your plug-in on the Mac

Run the plug-in installer and enter your serial when asked to. If you did not enter your serial (on first install) or have entered it incorrectly, the plug-in will ask for it again when you first use the plug-in in your host (music software). The installer will install the 32 & 64 bit AU, VST & AAX versions of the plug-in.

For details on how to use plug-ins in general, please check your music software (host) documentation.

Activating your Plug-in

1. Next you will need to activate your plug-in at the www.robpaperen.com. Until it is activated the plug-in will show the activation screen when opened and you will not be able to use the product.

Note: you do not need to be connected to the internet on the machine that the plug-in is installed on.

2. Once installed, open your plug-in in your music host program and the plug-in's activation screen will appear (as shown in the example image). Here you can see your serial (RMD3-1234-ABCD-2345-BCDE-3456-CDEF-4567 in this example) & computer ID(22899 in this example).

3. Click on the 'here' button, or login in to www.robpapen.com (Your Details) and open the 'My Products' page. Please make sure you have register your serial at the website beforehand.
4. Here, enter the "Computer ID" shown in your activation screen (22899 in the example above), and press enter. The activation code will then appear in the 'activation' box.
5. Enter this activation code in the activation code entry box in the activation screen of the plug-in (this box has 99999 in it in the example above) and then press the green 'Activate' button next to it.
Your product will then have been activated, press the 'Rob Papen logo' to go to the plug-in itself. In the case of activation failure please check point 6

Note: enter the serial via keyboard rather than copy & paste due to problems with some music hosts.

6. Activation failure may be caused by an incorrect typing/input error. See point 4 above.
If this is the case then visit 'My Products' at www.robpapen.com and there you can 'de-activate' the product to redo the activation.
After this if you still have problem then please contact our support.

Second & Additional Serials

If you want to install the plug-in on a second computer, you can request a second serial after you have registered your original serial. It appears as '2nd serial request' inside 'My Products'. You will need to activate this computer via the same procedure detailed above as well. If you like to acquire additional serial(s) after that, please contact our support section or contact at www.robpapen.com for an offer.

New Computers / Hard Drive Failure

In the case of new computer / hard disk failures, you can deactivate one machine and activate another. For this, log-in and visit the 'My Products' section.

In general you are allowed one reactivation per year, in case where you need additional re-activations, please contact support.

Other Issues

If you have any questions regarding the installation of your RP software please log-in and check the F.A.Q section or contact our support team.
