VOLUME 170 SPECIAL EDITION

DISK ONE

FEATURE PROGRAM

**◈ AreaCodeFinder v3.0
by John J. Calande III**
With this area code database you can add your own cities and area codes, and print lists of cities and area codes/postal codes. Includes full searching capabilities, 400 cities, and a capacity of up to 45,600 cities.

**◈ AddressesPro v1.1
by Joshua D. Rothman**
This HyperCard v2.x compatible stack is perfect for small businesses and individuals. Maintains a comprehensive list of contacts, friends and acquaintances.

▣ DepthKey v2.0 by Tom Thompson
DepthKey is an Extension that displays and changes the mode (screen depth) of Mac monitors.

**◉ Digital Cookbook v1.1
by Alan Smigielski**
Organize your recipes. This convenient program is based on "Super Cookbook."

▣ Interrupt Button by Geoffrey Fink
Interrupt Button is a simple, extremely handy INIT, allowing Macintosh users with a Programmers' Switch to use key combinations rather than the interrupt and restart buttons.

▣ ShifTrash v2.1 by Kas Thomas
Drag your files to the trash and watch them disappear with this straight-forward trash elimination INIT.

◈ TTConverter by Chris Reed
Interchange fonts between Macintosh and Windows, and use TrueType fonts created under Windows operating systems on your Macintosh.

▣ WrapScreen v1.2 by Eric Aubourg
Make your screen wrap horizontally, vertically or in both directions with this control panel.

▣ Zipple v1.7 by Christopher Suley
This Control Panel and Extension for System 7 replaces titles of your Apple, Balloon Help, Keyboard, and/or Application menu with animated images. Use the ready-made images, or create your own with the sophisticated editor.

DISK TWO

◈ Beebop by Daniel Clav
Have you played Beebop, the French "Breakout" clone? Then put Beebop's backgrounds on your desktop! These desktop patterns are supplied ready-to-use with Desktop Textures or other large desktop pattern installers.

◈ Chrysanthemum by Ryan Koopmans
Welcome to the fast-paced world of Ikebana, the Japanese art of floral arranging. As flowers are given to you, you must make your arrangements as quickly as possible.

DISK THREE

✣ Clip Art by Amy Creed
This food collection of EPS images has a baroque, woodcut feel. Great for menus, recipe books, and restaurants!

ATHLETIC

▤ Athletic by Edward A. Leach
Athletic Font is great for the "college sweatshirt look". The letters are very bold with fat square serifs.

DUNCAN

▤ Duncan by Edward A.
Based on the title screen from the Highlander television series, this font has caps, with punctuation and numbers.

MOVIES

▤ Movies by Edward A. Leach
This font is similar to fonts used for credits in motion picture advertisements. It includes caps and punctuation.

POPTICS TWO

▤ PopticsTwo by Patricia Lillie
PopticsTwo is a great dingbat font for posters, flyers and drop caps. This collection is eclectic: snails, dinosaurs, kings, trashcans, and much more.

☺ ☺ ☺ ☺ ☺

**▤ SmileyFace v2.0
by Jonathan Macagba**
At last – a "smiley face" font! Over 90 characters filled with happy, sad, angry, confused, and silly faces.

TREEFROG

▤ Treefrog by Three Islands Press
Treefrog looks like its been squeezed from the pen of some fanciful, woods-dwelling designer. Unusual and quirky, this font is great for display.

Zachary

▤ Zachary by Edward A. Leach
This font looks like it was written by a small child. It contains a complete double set of each capital letter, each lower case letter, and each number.

DISK FOUR

◈ Carotto v1.0.4 by Luc De Bois
Carotto is an interactive board game for up to 5 human and/or Mac players. It simulates exciting car races. Draw the circuit with you mouse, then it's off to the races!

◈ Gin Rummy v2.0 by William C. Hale
Gin Rummy is a card game for two people.

◈ Shell Game by BugByte, Inc.
This big brother to "Shells" has 100 levels, with new options, enhanced features and provides a richer set of puzzles.

KEY TO SYMBOLS

◈ Application
Does not require any other program to run.

✣ Clip Art Images

◉ HyperCard
The information is arranged like pages in a book. Requires HyperCard or HyperCard Run-Time.

▤ Font - Typefaces.
Types to expect are Type 1, Type 3, and TrueType.

▣ INIT/CDEV
INIT (Initialization Resource — also called a startup document): Automatically loads into your computer upon each bootup.
CDEV (Control Panel Device): Files in the System Folder located in the Control Panel of the Apple Menu. Each CDEV corresponds to a particular System setting.
