POWERFUL NEW FEATURES.

CALIBRATE FLATBED SCANNERS!

ScanMatch 2.0 includes the Standard Print Calibration Kit for calibrating flatbed scanners.

CALIBRATE SLIDE SCANNERS!

With the addition of an optional plug-in calibration kit, ScanMatch 2.0 calibrates any slide scanner!

CALIBRATE YOUR PHOTOCD IMAGES!

Add the optional PhotoCD plug-in calibration kit for one-button calibration of your PhotoCD images!

ADD COLOR CALIBRATION TO PHOTOSHOP!

Apply scanner calibration from within Photoshop using the ColorSync filter supplied with ScanMatch 2.0. Scan directly into ScanMatch 2.0 using any Photoshop plug-in scanner driver.

GET APPLE'S COLORSYNC® FREE!

ScanMatch 2.0 creates a ColorSync profile customized for your scanner. You get instant color matching compatibility with all ColorSync compatible applications and devices, including printers.

IMPROVED COLOR MATCHING!

ScanMatch 2.0 features improved color matching technology for the best possible color output from all scanners!

GET THE BEST COLOR FROM YOUR SCANNER OR PHOTOCD AUTOMATICALLY!

POWERFUL CALIBRATION SOFTWARE

ScanMatch 2.0 dramatically improves the quality of your scans. Now you can automatically correct any scanned image on your Macintosh screen to match the original.

ADD CALIBRATION TO YOUR CURRENT SYSTEM

ScanMatch 2.0 adds WYSIWYG color (What You See Is What You Get) to your current imaging system — no need to purchase additional expensive software applications or calibration peripherals. ScanMatch 2.0 is compatible with all Macintosh flatbed and slide scanners!

SAVE TIME AND MONEY

No more time-consuming color correction tools!
Calibrating a scanned image with ScanMatch 2.0 is now

fast, easy and inexpensive. Finally, a solution that lets you be more productive by spending more time on your design and less time on repetitive color matching operations.

CONSISTENT SCANS EVERY TIME

All scanners are different and often produce unpredictable results. ScanMatch 2.0 takes the guess work out of scanning by ensuring accurate, repeatable scans every time, with every scanner.

COVERS ALL YOUR INPUT NEEDS

Whether you use a flatbed scanner, a film scanner, PhotoCD, or even all of the above, ScanMatch 2.0 will cover your needs: Simply add an inexpensive Plug-in Calibration Kit to your ScanMatch system.

ScanMatch is the most widely used scanner calibration software on the market.
