Mission Screen

Use the Mission Screen to choose your mission, keep track of your progress, play individual games and view secrets.

There are three missions available: Alpha, Beta or Gamma.

Alpha - Easy

Beta - Hard

Gamma - Mega Tough

- To start playing click on a **Start Mission** button at the left end of the mission bar.
- To successfully complete a mission, you will need to achieve all of the objectives in three events: [Battle Sticks](#), [Cycle Race](#) and [Lava Surf](#).
- You will have to complete more levels of each game as the missions get tougher, but you will also have more lives to start with. Keep an eye on how many lives you have left using the counter on the in-game display.
- The Progress Display on the Mission Screen keeps track of the best progress so far within a mission. More of the game window is revealed each time a player progresses further in the mission
- Once you have completed a game within a mission, that game will be available for individual play from the Mission Screen. You can play games out of sequence if you like. Can't get enough of the Cycle Race? Need some extra practice lava-surfing? Just click on the game window or the triangular Play button below the game's window.
- The Mission Screen also allows you to adjust program Options, view High Scores, unlock Secrets and Exit the product.

Options

The Options screen allows you to adjust the settings for game audio and controls.

Controls

Use this screen to customize the controller assignments for each of the games. Select the game's tab, and then click on the controller that you would like to assign to that game.

Audio

Adjust the volumes for Sound Effects and Music by clicking and moving the slide bars.

Secrets

Spy Kids™ 3-D: Game Over grants you access to secret modules as you successfully complete certain levels of the games. To access the Secret Files screen, click on one of the Secret buttons next to each of the game windows on the Mission Screen. Selecting the highlighted secret opens that screen.

Hungry for even more Secrets? When you purchase Spy Kids™ 3-D toys at McDonalds, you will get an access code that you can enter to unlock extra secrets.

High Scores

Keep track of your best scores and see how your buddies measure up. The top ten scores for each of the 3 missions and the three individual games are displayed here. Scores for each individual game can only be recorded through individual play.

3-D Rounds

You will feel like you have jumped right into your screen when you put on your glasses for an exciting 3-D round! Each of the three games features special 3-D rounds. When you get to one, you will be prompted to put on your glasses.
