

*StrataClip 3d CD-ROM
Over 1,300 Priceless Materials!*

Dear Strata User:

Don't lose this CD! – It's stuffed full with expertly crafted textures and shapes that will add remarkable realism to your StudioPro or StrataVision renderings. We'd like you to have all our best modeling materials. They're all right here, so next time you're hunting for something special to complete your design; you've got it!

Over 44 libraries - Fingertip close

Take a moment – Check out the CD's browser and see the rich selection of goodies that will make your images look fantastic. We carefully chose only the most primo of shapes and textures for this master collection. You may have noticed that many of our libraries are created by designers that specialize in a particular look. This guarantees that you have only the best to work with.

1-800-STRATA 3D - Unlocks the treasure

Just dial up – We can open any assortment of libraries for you to use right now. Our new low price of \$99 per library makes it affordable to buy several at a time; and selected packages may allow you to save over 60% off the regular price.

Let us help you make the most of your 3-D work. Call now; we can save you time, money and effort.

Best regards,

Scott Lovell
