

Tangrams is a computerized version of a 200 or more year old Chinese tile puzzle. Tangrams is played by moving, turning and flipping the seven tiles to form one of hundreds of puzzle shapes. You can also create your own puzzles, print puzzles, answers, and patterns for tiles with Tangrams. Each single user license for Tangrams comes with the latest full feature version of Tangrams from Hacker Software. You will also receive a set of laser cut wooden Tangram puzzle pieces and a plastic two diskette box for the program diskette and puzzle storage. Full instructions are available within the Tangrams program.

Tangrams has the following pricing.

Single user licenses, \$10 per user

A Site License costs \$50 and covers all schools within your school district or all locations for your organization within a 80 kilometer radius of your site (50 miles). One big advantage of a Site License is that you do not need to keep track of how many people at your site are using the software.

Paying for Tangrams is fairly simple.

Open the "Register" program that accompanies Tangrams. Enter your name, your email address, your snail mail address and the number of single user licenses you desire for each program you wish to purchase (or Site or Word-Wide licenses).

Save or Copy or Print the data from the Register program and send the data and payment to Kagi. Kagi handles my payment processing.

If paying with **Credit Card** or **First Virtual**, you can email or fax the data to Kagi. Their email address is **sales@Kagi.com** and their **fax** number is **+1 510 652-6589**. You can either Copy the data from Register and paste into the body of an email message or you can Save the data to a file and you can attach that file to an email message. There is no need to compress the data file, it's already pretty small. If you have a fax modem, just Print the data to the Kagi fax number.

Payments sent via email are processed within 3 to 4 days. You will receive an email acknowledgement when it is processed. Payments sent via fax take up to 10 days and if you provide a correct internet email address you will receive an email acknowledgement.

If you are paying with **Cash** or **USD Check** you should print the data using the Register application and send it to the address shown on the form, which is:

Kagi
1442-A Walnut Street #392-T8
Berkeley, California 94709-1405
USA

You can pay with a wide variety of cash from different countries but at present if you pay via check, it must be a check drawn in US Dollars. Kagi cannot accept checks in other currencies, the conversion rate for non-USD checks is around USD 15 per check and that is just not practical.

If you have a purchasing department, you can enter all the data into the Register program and then select **Invoice** as your payment method. Print three copies of the form and send it to your accounts payable people. You might want to highlight the line that mentions that they must include a copy of the form with their payment.

Kagi can not invoice your company, you need to act on my behalf and generate the invoice and handle all the paperwork on your end.

Please do not fax or email payment forms that indicate Cash, Check or Invoice as the payment method. As far as we know, there is still no technology to transfer physical objects via fax or email and without the payment, the form cannot be processed.

Payments sent via postal mail take time to reach Kagi and then up to 10 days for processing. Again, if you include a correct email address, you will hear from Kagi when the form is processed.

The Demonstration version of Tangrams does not have a secret code to unlock it and make it a full version. After paying for Tangrams you will be sent the latest full feature version of Tangrams from Hacker Software. Its just like the demo but doesn't turn off after 5 minutes and you will receive a set of laser cut Tangram puzzle pieces and a plastic two diskette box for the program diskette and puzzle storage. Please enter your complete postal address and please remember, we do not know what country you live in so please enter that into the postal address also.

If you have questions or comments about Tangrams please send them via email to the author at
