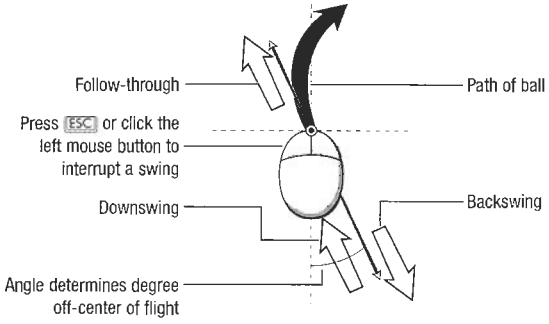
Begin and end **chat**	ENTER

TRUESWING™

TrueSwing™ delivers the most realistic feeling of swinging a golf club on the computer. There are two types of TrueSwing™ to choose from.

TrueSwing™ (V)ertical Use your mouse to control the on-screen golfer's swing in real-time, perfecting your rhythm and tempo, just like a real golfer.

TrueSwing™ (H)orizontal This is exactly like the TrueSwing™ (V), except you move right to backswing and move left to finish your stroke.



When using TrueSwing™ (V)ertical, think of the mouse as a golf club. The face of the club represents the side of the mouse with the cord. To execute a swing, pull the club face straight back and then push it forward through the point at which you began the swing. The velocity and pace at which you execute the backswing, downswing, and follow-through determine the power on the shot.

TIP: **The results of a TrueSwing™ depend on how well your swing matches the type of club that you are using.**

TO EXECUTE A SWING:

1. Move the cursor over your golfer. Make sure the swing pointer is displayed on-screen.
2. When you are ready to swing, click the left mouse button.
3. In a smooth motion, draw the mouse straight down to execute the backswing. Pulling the mouse further down increases the backswing and adds power to the stroke.
4. When you have reached the end of the backswing, move the mouse upward until the golf club hits the ball, and it begins flight.

NOTE: **If you don't return to the starting position, you might hit off-center, lose power, or even hit the ball off the toe or heel. Movements to the left or right add hook or slice to the ball.**

FADES AND DRAWS WITH TRUESWING™

Deviations to the left or right in your mouse movements add spin to the ball, creating draws and fades. In severe cases, deviations can cause hooks and slices.

- To **add fade** to your shot for a right-handed golfer, pull the mouse back and to the right. When you follow through, finish to the left of the vertical line. This diagonal movement of the mouse forces the ball to fade to the right for a right-handed golfer. To execute a good fade, the mouse must return to the point where you began the swing. Under Club Path, a well-executed fade is listed as OUTSIDE-IN.
- To **add draw** to your shot for a right-handed golfer, pull the mouse back and to the left. The mouse must return to the point where you began the swing. Under Club Path, a well-executed draw is listed as INSIDE-OUT.
- To **hook or slice**, increase the angle of the diagonal. A hook is a more extreme draw, and a slice is a more extreme fade.

NOTE: **For left-handed golfers, reverse the direction of the diagonal movements. For example, a lefty adds draw by pulling down to the right of the vertical line.**

PUTTING WITH TRUESWING™

The distance traveled with the putter depends directly on the amount of backswing and the speed of the club as it impacts the ball. A deviation to the left of the starting mouse point is equivalent to rotating the putter to the left.

TIP: **When putting, turn on the green grid (press G to toggle ON/OFF) to show the break of the green in a geometric display.**

THE TRUESWING™ ANALYZER

The TrueSwing™ Analyzer shows you important stats about your swing. To toggle display of the TrueSwing™ Analyzer, press T.

Speed	Percentage and overall power rating of the shot. Power measures the speed of the club head. Overswings have a power rating greater than 100%.
Impact	How close you got the mouse to the point at which you began your swing. You always want to hit the ball on the sweet spot.
Club Path	Errors in mouse movement off the desired club path.
Tempo	Amount of combined time for your backswing and downswing. Try to execute a smooth swing—deviations result in a poor tempo rating and can result in mis-hits, a reduction in power, or both.

CUSTOM

Set up a game exactly the way you want to for up to eight players. There are 14 types of games to choose from—each is described on-screen when selected. Certain game types allow Side Games: wagers on individual results within a round. There are also different Advanced settings available depending on the game type selected.

PRACTICE

You can develop your skills for free by practicing your long game, short game, specialty shots, and putting. To make the most of your competitive rounds, you should get familiar with your clubs through practice, lessons, and challenges from other golfers.

EA SPORTS™ GAME FACE II

The most complete player design system ever seen in a video game just got even better. From tattoos and piercings to the scar on your cheek, create anyone from age eight to eighty with this mind-blowing tool that lets you customize every detail of your character, while adorning him or her with the top clothing and gear available. Use cash to add more gear, clubs, and abilities to your personalized golfer.

Use these tabs on the top of the Game Face II screen to bring your golfer to life:

Vitals	Choose your swing type, handedness, and difficulty level.
Equipment	Equip your golfer with the top gear available from some of the biggest names in the industry.
Clothing	Get a new look for yourself with shirts, pants, headwear, shoes, and other apparel.
Attributes	Purchasing attributes is the only way to hang with the Pros.
Head/Face/Body	Infinitely adjust every aspect of your golfer's appearance from head to toe.
Accessories	Keep the sun out of your eyes or buy a watch so you'll never be late for a tee-time again.
Tattoos	Select tattoos that you can put on your golfer or logos for his clothing.

PLAY ONLINE

Dominate the links and then see how you stack up against golf gamers via the Internet. Join or start your own Clubs and compete in MatchUps and Tournaments to build an online Career.

REGISTRATION REQUIRED TO ACCESS ONLINE FEATURES. INTERNET CONNECTION REQUIRED. TERMS & CONDITIONS AND FEATURE UPDATES CAN BE FOUND AT www.easports.com. YOU MUST BE 13+ TO REGISTER ONLINE.

EA MAY RETIRE ONLINE FEATURES AT THE EARLIER OF 30 DAYS NOTICE POSTED ON **www.easports.com** OR 30 DAYS AFTER THE LAST DAY OF THE 2005 SEASON.

LOGGING ON

Your first step is to register your game and create a new EA account, or use an existing EA or AOL/AIM account. If you are already a member of the EA SPORTS™ Online service, you may log in with your existing account information.

PLAYING BEHIND A FIREWALL

Note that if you have a firewall and want to play online, the following TCP/IP ports must be open in the outbound direction:

HTTP	80
HTTPS	443
MsgConn/IM	13505
Roomsvr	20803-20809
Dynamic	32768-65535

HOME SCREEN

When you successfully login, you are placed in the Home screen, where you can begin games, look for MatchUps, review your Career History, and chat with other online golf fans, and more. Be sure to check out the sweepstakes and prizes available only through EA SPORTS™ Online.

In the Home screen, you can review the top Members of the Month or check out available MatchUps and your current Tournaments.

MY CAREER

Review your online Career statistics, or change your online preferences.

➲ To edit your settings, click EDIT SETTINGS. Make adjustments to your online persona, and click SAVE CHANGES to save them.

EA™ MESSENGER

Through your Messenger, you can find members, set up Member lists, and organize games.

CLUBS

There are two kinds of Online Clubs: Public and Private. Public Clubs are open for anyone to join, but Private Clubs require a password.

MATCHUPS

Play head-to-head golf against other online Members. You can choose to play online games in Pro Play Matchups or Custom formats. Pro Play Matchups affect your online Rankings.

➲ To compete, select LOBBY from the MatchUp menu in the top nav bar. To go to a specific MatchUp Lobby, select a name from the drop-down list. Click an open game of interest, and then, click PLAY NOW.

➲ To create a Pro Play MatchUp, click CREATE MATCHUP. Enter the name of your MatchUp, and configure other settings. When done, click FINISH.

TOURNAMENTS

Create a Tournament specifically designed for your club friends.

TOURNAMENTS LOBBY

In the Tournaments Lobby, you can browse available Tournaments and sign up to play.

❖ To join a Tournament that has begun play, click JOIN in the selected Tournament tab.

❖ To sign up for a Tournament scheduled for the future, click JOIN.

VIDEO AND SOUND DRIVERS

An outdated video or sound driver can lead to slow and choppy gameplay, or in some cases can prevent the game from running at all. To ensure an enjoyable experience with *Tiger Woods PGA TOUR® 2005*, be sure that you have the most recent video and sound drivers installed. These drivers are typically available for download from your system or hardware manufacturer's website. If you are not sure what type of video or sound card you have, or you don't know how to update the drivers on your system, please refer to the documentation that came with your system or peripheral.

INTERNET PERFORMANCE ISSUES

To avoid poor performance during Internet play, be sure that you close any file sharing, streaming audio, or chat programs prior to entering gameplay. These applications can monopolize your connection's bandwidth, causing lag or other undesirable effects.

Please consult your router or personal firewall documentation for information on how to allow game related traffic. If you are attempting to play on a corporate Internet connection, contact your network administrator.

TECHNICAL SUPPORT

If you have trouble with *Tiger Woods PGA TOUR® 2005*, EA Technical Support can help. The EA Help file provides solutions and answers to the most common difficulties and questions about how to properly use this product. It also allows you to create a detailed report of your system information to assist in diagnosing the problem.

TO ACCCESS THE EA HELP FILE(WITH GAME ALREADY INSTALLED):

Left-click on the **Start** button from the Windows Taskbar and select **Run...** Type **C:\Program Files\EA SPORTS\Tiger Woods PGA TOUR 2005\Support\EA Help\Electronic_Arts_Technical_Support.htm** in the Run dialog box and click OK.

TO ACCESS THE EA HELP FILE (WITHOUT THE GAME INSTALLED)

1. Insert the *Tiger Woods PGA TOUR 2005* Install Disc into your CD/DVD-ROM drive. The Autorun menu appears (if the Autorun does not appear, see *Installing the Game* on p. 1).
2. Left-click on the **Start** button from the Windows Taskbar and select **Run...** Type **D:\Support\EA Help\Electronic_Arts_Technical_Support.htm** into the Run dialog box, then click OK (substitute the correct letter of your CD/DVD-ROM drive if other than 'D:').

If you are still experiencing difficulty after utilizing the information in the EA Help file you can contact EA Technical Support. EAsy Info is a utility that detects your system's hardware and organizes this information into a detailed report. This report can tell you whether you are meeting minimum requirements and helps EA Technical Support solve your problem in the quickest possible time.

TO ACCESS THE EASY INFO UTILITY (WITH GAME ALREADY INSTALLED)

Click the **Start** button from the Windows Taskbar and select **All Programs** (or **Programs**) **> EA SPORTS > Tiger Woods PGA TOUR 2005 > EAsy Info**

TO ACCESS THE EASY INFO UTILITY (WITHOUT THE GAME INSTALLED):

1. Insert the *Tiger Woods PGA TOUR 2005* Install Disc into your CD/DVD-ROM drive. The Autorun menu appears (if the Autorun does not appear, see *Installing the Game* on p. 1).
2. Click Technical Support. EAsy Info appears.
3. If you are still experiencing difficulty after utilizing the information in the EAsy Info file, contact EA Technical Support. Easy Info is a utility that detects your system's hardware and organizes the information into a detailed report.

When the utility finishes gathering hardware information you can view your system information by looking through the various categories. You can save this information to a file by clicking File on the top menu bar, then clicking Export to Desktop > Easy Info Report. A copy of the report is saved to your Windows desktop for viewing and printing. Please be sure to have this report available when contacting Technical Support

EA TECHNICAL SUPPORT ON THE INTERNET

If you have Internet access, be sure to check our EA Technical Support website at:

techsupport.ea.com

Here you will find a wealth of information on DirectX, game controllers, modems, and networks, as well as information on regular system maintenance and performance. Our website contains up-to-date information on the most common difficulties, game-specific help, and frequently asked questions (FAQs). This is the same information our support technicians use to troubleshoot your performance issues. We keep the support website updated on a daily basis, so please check here first for no-wait solutions.

If you are unable to find the information you need on our website, please feel free to contact EA Technical Support via e-mail, phone, or letter. Please be sure to include the *EA Help* utility report in your e-mail or letter.

If you need to talk to someone immediately, call us at (650) 628-1001. Please have the *EA Help* utility report ready when you call. This will help us service your call in the quickest possible time. No hints or codes are available from (650) 628-1001.
