# SYSTEM REQUIREMENTS

## Minimum System Requirements

Operating System: .....Mac OS X v 10.2.6 or higher  
Processor: .....700 MHz G4 or faster  
Memory: .....256 MB RAM  
Hard Disk Space: .....3 Gigabytes free  
Video: .....32MB ATI Radeon or NVidia GeForce 2MX or faster  
Modem: .....33.6K baud (for modem/Internet play)  
Internet (TCP/IP) and LAN (TCP/IP) play supported.

## Recommended System Requirements

Operating System: .....Mac OS X v 10.2.6 or higher  
Processor: .....1 GHz G4 or faster  
Memory: .....512 MB RAM or greater  
Hard Disk Space: .....3 Gigabytes free  
Video: .....ATI Radeon 8500 or NVidia GeForce 4MX or faster  
Modem: .....Cable or DSL (broadband).

# INSTALLATION

1. Quit all other applications and insert the Unreal® Tournament 2003 Disk 1 into your CD-ROM drive.
2. Double-click on the "Install UT2003" icon
3. Follow the on-screen instructions. You will be asked where you would like UT installed. You will also be required to input your CD-Key number. This number can be found on the inside-front cover of your UT2K3 manual.
4. At the prompt, insert Disk 2 and click OK.

When installation is completed, go to the location on your hard drive where Unreal Tournament 2003 was installed. Double-click the UT icon to start the game.

Note: The Mac version of UT2K3 also includes 2 UT bonus packs. These bonus packs will be installed during the standard installation of UT2003.

# THE README FILE

The Unreal Tournament 2003 CD-ROM game has a ReadMe file where you can view both the License Agreement and updated information about the game. To view this file, double-click on UT Read Me file on your CD. We strongly encourage you to take the time to read this file in order to get the benefit of changes made after this manual went to print.

## KEYBOARD COMMANDS

Below is a list of the default controls. To change any of these, go to Settings > Controls. Click the box next to the function you want to change, then press the key you want to assign to it.

### MOVEMENT

Fire ..... Mouse Button or Left Mouse Button  
Alternate Fire ..... Cmd or Right Mouse Button  
Move Forward ..... Up Arrow or W  
Move Backward ..... Down Arrow or S  
Strafe Left ..... Left Arrow or A  
Strafe Right ..... Right Arrow or D  
Jump/Up ..... Spacebar  
Crouch/Down ..... C  
Look Up ..... Delete  
Look Down ..... Page Down  
Center View ..... End  
Walk ..... Shift

### HUD DETAIL

Increase HUD Detail ..... Equals [=]  
Decrease HUD Detail ..... Minus [-]

## COMBAT TYPES

There are five modes of combat in Unreal Tournament 2003.

### DEATHMATCH

Players are pitted against each other in a balls-to-the-wall free-for-all. Anything goes. The one with the most kills wins.

### TEAM DEATHMATCH

Join your teammates in the quest for battlefield supremacy. The team that kills the most enemy players is judged the winner.

### CAPTURE THE FLAG

Each level has two team flags. In order to score, one team must penetrate the opposing team's defenses, 'Capture the Flag' and return it to their home team's flag. If the flag carrier is killed, the flag drops to the ground for anyone to pick up. If your team's flag is taken, it must be returned before your team can take the opposing team's flag.

### DOUBLE DOMINATION

Each level has 2 Domination Points. In order to score, you must 'capture' each Control Point (by running over it) and keep them in your team's possession for 10 seconds. After scoring, the Control Points reset to neutral and will become available to Dominate again after another 10 seconds.

### BOMBING RUN

Each level has one ball in the middle of the play field. The objective is to pick up the ball, deliver it to the enemy base and fire it through their goal. You must also defend your own goal to prevent the enemy from scoring. The ball is dropped when a player is killed and can then be picked up by anyone on either team.

# MENUS

## SINGLE PLAYER

Select Single Player to enter the Tournament and begin your trip up the Tournament ladders. (This is a single-player game that is played on your computer, not on the Internet.)

When starting a new game, you'll be asked to personalize your character by choosing a name, race, gender and appearance. You can also choose your team name and team symbol.

Your first task is to display your skills in a Deathmatch tournament. Only the most skilled competitors are given the right to draft a team and enter them in the Unreal Tournament. Once you have proven yourself, you'll be able to draft players from a pool of free agents.

Only a portion of your team will play in any given tournament match. Certain kinds of players will be more useful on each level, and in each game type, so choosing a well-balanced team is key for winning the tournament. But, before you can lead your team, you must prove you are worthy to lead them into battle by defeating them all in combat.

When you begin a game, three menu options will be available:

**Ladder:** View your tournament progress, and select a match to play. There is a ladder for each game type. At the beginning of a single-player tournament, only Team Deathmatch is available. As you work your way up the ladder, Capture the Flag, Double Domination and Bombing Run games will become available. (See the preceding section on "Combat Types" for a description of each.) If you can win all four tournament ladders, you will proceed to a championship round, for a chance to face the reigning Unreal Tournament champion.

**Roster:** View your current team members. You may use this menu to manage your lineup, and change your teammates' orders for the upcoming match.

**Play:** Click here when you have chosen a match and you are satisfied with your lineup. While the match is loading, you'll have an opportunity to view the competition's lineup and see a comparison of the two teams.

**LOAD PROFILE:** Your progress is saved automatically when you win a tournament match. This option lets you pick from a list of previously saved games.

**DELETE PROFILE:** Delete a team and their progress in the tournament.

## PLAY ONLINE/LAN

Clicking here will show you a list of servers hosting Unreal Tournament 2003 games and the number of players. Choose a server from the list and click "Connect" to join that game. You can leave a game by bringing up the in-game menu and selecting "Forfeit."

## MULTIPLAYER

**HOST:** If you're connected to the Internet, this option allows you to host a game on your computer. You can choose which maps to play and the type of combat. In addition, you can change the following options:

**Choose Map/Game Type:** Use this option to select maps and combat type. Select the maps you wish to use from the list on the left. The list of maps will change depending on what type of combat you choose.

**Game Rules:** Adjust the rounds per map, maximum lives for each player, score limit and time limit. Select friendly fire, game speed and weapon stay options.

**Server:** You can set the maximum and minimum number of players, map defaults, or balance teams. Selecting the Dedicated Server option will make your computer function only as a host. You may also adjust bot skill at this screen.

**Select Mutators:** Mutators allow you to change different characteristics of the in-game experience. Turn mutators ON or OFF by selecting, and then clicking "Add" or "Remove".

**Bot Config:** You can configure or import bots here. (You must click the "Use Custom Bots" check-box under Server Tab.)

## INSTANT ACTION

Instant Action games are single-player games and allow you to choose any type of combat on any of the maps available. You'll see the various combat types listed, and the names of the arenas available for each. Use the menus to change Player settings and Game Rules, and choose which Mutators to activate.

## SETTINGS

### VIDEO

Configure the look of the game here. Choose your Screen Resolution and adjust the Gamma, Brightness and Contrast. You may also choose to display the game Full Screen. Click the Apply button for changes to take effect.

### DETAILS

Adjusting the detail changes the way characters and environments appear. You may turn High Character Shadows, Dynamic Lighting, Detail Textures, Decals and Coronas ON or OFF. You may also set your level of World, Actor, Character and Physics detail.

### AUDIO

Modify the game's sound configuration here. You can turn Auto-Taunt, Mature Taunts and the Message Beep ON or OFF, and adjust the Music and Effects volumes. You can also block some or all voice messages [from the Voice menu].

### PLAYER

As with other game modes, here is where you modify your character's name, race, gender and appearance, as well as your Preferred Team and your Weapon Hand.

### NETWORK

Set your connection type depending on your method of connecting to the Internet: 33.6K modem, ISDN, Cable/ADSL or LAN/T1. You can also enable the Stats function that will keep track of your game statistics at [ut2003stats.epicgames.com](http://ut2003stats.epicgames.com). If you choose to enable statistics, you can set your user name and password here.

### CONTROLS

Assign keys to different game functions like movement, weapons and taunts. For example, you can reassign the "Next Weapon" function to your mouse wheel, as well as general mouse functions. Click on the box next to the function you want to change, then hit the key you want to assign to that function.

### INPUT

Adjust mouse settings, etc.

### WEAPONS

Adjust which weapons are the most important to you. Move a weapon up or down in the list to raise or lower its priority.

### HUD

Determine which items you'd like to see on-screen

### GAME

Here you can customize visual elements of the game. You can turn ON or OFF Screen Flashes, Weapon Bob, Reduce Gore, Dodging and Auto Aim. You can also choose your Crosshair type.

### SPEECH

Set hotkeys for taunts and commands.

### BACK

Takes you back to the main menu

## HEADS-UP DISPLAY

During the game, a variety of on-screen indicators, status meters, icons and messages will keep you abreast of important information and situations. Together, these informational aids comprise your Heads-Up Display (HUD). Keep an eye on your HUD to stay in touch with the small details that may end up saving your life. Remember, an aware player is a living player.

### Rank/Spread

The first Rank number indicates your position in the current competition; the second number tells you how many points you are ahead/behind; the third number shows the number of frags you have (minus suicides).

### Team Score

Shows how your team is performing.

### Game Messages

Displays important game info [ball/flag status, kills, etc.].

### Adrenaline

Shows how much adrenaline you have.

### Message Window

Messages from your enemies and team-mates will appear here.

### Health Level

This number indicates how much health you have.

### Weapon Selection

These weapon icons display the currently selected weapons as well as ammo counts.

### Armor Level

Indicates how much armor you have.

## TEAM COMMANDS AND TAUNTS

While you're playing the game, you can select from a menu of messages that you can say during the game. Press "V" while playing to open the Voice menu, then press the number of the category from which you wish to choose. When you see the message you wish to say, press it's number to broadcast. Note that different characters have different taunts available to them.

The following is a list of the categories and their respective messages:

### 1-Acknowledgements

- 1-Affirmative
- 2-Got it!
- 3-I'm on it!
- 4-Roger!

### 2-Friendly Fire

- 1-I'm on it!
- 2- Same team!
- 3-Your team, idiot!

### 3-Orders

- 1-Defend.
- 2-Hold this position.
- 3-Attack.
- 4-Cover me.
- 5-Search and destroy.

### 4-Other Messages

- 1-Got your back.
- 2-I'm hit!
- 3-Man down!
- 4-All alone!
- 5-Negative!
- 6-In position.
- 7-I'm going in.
- 8-Area is secure.

9-I need some backup!

0-More...

### 5-Voice Taunts

- 1-And stay down!
- 2-Anyone else want some?
- 3-Burn baby!
- 4-Boom!
- 5-Die bitch!
- 6-Die human!
- 7-Eat that!
- 8-Faster, stronger, better!
- 9-Fear me!
- 0-More...

### 6-Animated Taunts

- 1-Ass-smack
- 2-Beckon
- 3-Cheer
- 4-Halt
- 5-Pelvic thrust
- 6-Point
- 7-Throat cut
- 8-Unique

# WEAPONS

## ASSAULT RIFLE

Inexpensive and easily produced, the AR770 provides a lightweight 5.56mm combat solution that is most effective against unarmored foes. With low-to-moderate armor penetration capabilities, this rifle is best suited to a role as a light support weapon. The optional M355 Grenade Launcher provides the punch that makes this weapon effective against heavily armored enemies.

## FLAK CANNON

Trident Defensive Technologies Series 7 Flechette Cannon has been taken to the next step in evolution with the production of the Mk3 "Negotiator." The ionized flechettes are capable of delivering second- and third-degree burns to organic tissue and cauterizing the wound instantly. Payload delivery is achieved via one of two methods; ionized flechettes launched in a spread pattern directly from the barrel; or via fragmentation grenades that explode on impact, radiating flechettes in all directions.

## LIGHTNING GUN

The Lightning Gun is a high-power energy rifle capable of ablating even the heaviest carapace armor. Acquisition of a target at long range requires a steady hand, but the anti-jitter effect of the optical system reduces the weapon's learning curve significantly. Once the target has been acquired, the operator depresses the trigger, painting a proton 'patch' on the target. Milliseconds later the rifle emits a high voltage arc of electricity, which seeks out the charge differential and annihilates the target.

## MINIGUN

The Schultz-Metzger T23-A 23mm rotary cannon is capable of firing both high-velocity caseless ammunition and cased rounds. With an unloaded weight of only 8 kilograms, the T23 is portable and maneuverable, easily worn across the back when employing the optional carrying strap. The T23-A is the rotary cannon of choice for the discerning soldier.

## ROCKET LAUNCHER

The Trident Tri-barrel Rocket Launcher is extremely popular among competitors who enjoy more bang for their buck. The rotating rear-loading barrel design allows for both single- and multi-warhead launches, letting you place up to three dumbfire rockets on target. The warheads are designed to deliver maximum concussive force to the target and surrounding area upon detonation.

## SHIELDGUN

The Kempfner D0280 Riot Control Device has the ability to resist and reflect incoming projectiles and energy beams. The plasma wave inflicts massive damage, rupturing tissue, pulverizing organs and flooding the bloodstream with dangerous gas bubbles. This weapon may be intended for combat at close range, but when wielded properly should be considered as dangerous as any other armament in your arsenal.

## SHOCK RIFLE

The ASMD Shock Rifle has changed little since its incorporation into the Tournaments. The ASMD sports two firing modes capable of acting in concert to neutralize opponents in a devastating shockwave. This combination attack is achieved when the weapon operator utilizes the secondary fire mode to deliver a charge of seeded plasma to the target. Once the slow-moving plasma charge is within range of the target, the weapon operator may fire the photon beam into the plasma core, releasing the explosive energy of the anti-photons contained within the plasma's EM field.

## ION PAINTER

The Ion Painter seems innocuous enough at first glance, emitting a harmless low-power laser beam when the primary firing mode is engaged. Several seconds later, a multi-gigawatt orbital ion cannon fires on the target, neutralizing any combatants in the vicinity. The Ion Painter is a remote targeting device used to orient and fire the VAPOR Ion Cannon. The Ion Painter offers increased targeting accuracy via its telescopic sight, easily activated by the secondary fire mode of the weapon. Once the Ion Painter has been used to designate a target, it is highly recommended that the user put considerable distance between themselves and the weapon's area of effect.

## ION CANNON

The highly effective Variable Altitude Phased Output Remote Weapons Platform (VAPOR WeP) led to a dramatic decrease in incidents of mob violence within colonial boundaries. Hovering high above the terrain, the VAPOR scans the visible countryside for the activation of rifle-mounted targeting lasers. When a beam is located, the platform moves into position and unleashes two terawatts of ionized plasma streams directly onto the target, vaporizing any agitators and bystanders within fifty meters.

## BALL LAUNCHER

A new addition to the Tournament, the Ball Launcher is only available in Bombing Run Mode. Once you've picked up the ball, the ball launcher is automatically selected from your arsenal. While you're in possession of the ball, you cannot use any other weapon. Pressing the Fire button will launch the ball, either at another teammate for a pass, or through the opposing team's goal.

## BIO RIFLE

The GES BioRifle continues to be one of the most controversial weapons in the Tournament. Loved by some, loathed by others, the BioRifle has long been the subject of debate over its usefulness. Some Tournament purists argue that the delayed detonation of the mutagenic sludge, coupled with the ability to quickly carpet an area with the highly toxic substance, has reduced the weapon to the equivalent of a minefield, a barbaric and cowardly weapon employed during past human conflicts. Proponents of the weapon argue that it enhances the tactical capabilities of defensive combatants, allowing participants to cover multiple choke points more efficiently. Despite the debate, the weapon remains historically accurate, providing rapid-fire wide-area coverage in primary firing mode, and a single-fire variable payload secondary firing mode. In layman's terms, this equates to being able to pepper an area with small globs of Biosludge, or launch one large glob at the target.

## LINK

Riordan Dynamic Weapon Systems combines the best of weapon design in the Advanced Plasma Rifle v23, commonly known as the Link Gun, or simply the Link. While the primary firing mode of the Link remains the same as its plasma-firing predecessor, the secondary cutting torch has been replaced with an active-scanning, switchable energy matrix. This matrix enables the weapon to register friend or foe upon contact with the swirling green beam and change properties accordingly. When the beam comes into contact with an opponent it can inflict serious injury and death within seconds. Upon contacting a teammate, it reverts to a harmless carrier stream. The carrier stream offloads energy from the onboard cells, boosting the output of any targeted player who is also using the Link. Two players may Link to one another at any time, boosting the power output of the weapon significantly, but it should be noted that while players are boosting a teammate, they are unable to defend themselves from attack.

## TRANSLocator

The Translocator was originally designed by Liandri Corporation's R&D sector to facilitate the rapid recall of miners during tunnel collapses and other emergencies. The technology has saved countless lives, but not without cost. Rapid deresolution and reconstitution of the subject organism can have several unwelcome effects, including increases in aggression and paranoia, as well as increased probabilities of respiratory and cardiac arrest. Artifacts of synaptic disruption accumulate in the biological snapshot of the individual, leading to Teleportation Related Dementia (TReDs), an incurable disease that has stricken some of our greatest champions. In order to prolong the careers of today's contenders, limits have been placed on Translocator use in the lower-ranked leagues. This was deemed necessary to prevent new recruits from becoming too reliant on the device, thereby sealing their own doom. The latest iteration of the Translocator features a remotely operated camera, exceptionally useful when scouting out areas of contention. It should be noted that while viewing the camera's surveillance output, the user is effectively blind to their immediate surroundings.

## REDEEMER

The first time you witness this miniature nuclear device in action, you'll agree it is the most powerful weapon in the Tournament. Launch a slow-moving but utterly devastating missile with the primary fire; but make sure you're out of the Redeemer's impressive blast radius before it impacts. The secondary fire allows you to guide the nuke yourself with a rocket's-eye view. Keep in mind, however, that you are vulnerable to attack when steering the Redeemer's projectile. Due to the extreme bulkiness of its ammo, the Redeemer is exhausted after a single shot.

## OTHER ITEMS

### Health

Each health vial gives you 5 health points, up to a maximum of 199.

### Health Pack

Replenishes 25 points of health, up to a maximum of 100.

### Keg O' Health

A new lease on life, for 100 health points.

### Shield Pack

Protects you with 50 armor points.

### Super Shield Pack

Gives you 100 armor points, up to a maximum of 150.

### Double Damage

Doubles the power of all weapons. The Double Damage effects last for thirty seconds.

### Adrenaline

Tasty and nutritious, Adrenaline provides you with the extra energy needed to execute special Adrenaline abilities.

## GAME TIPS

Be sure to learn how to command your teammates around by using the Voice menu ("V"). Telling some of your buddies to attack while some defend or cover you proves invaluable in the Tournament.

At the start of a match you are in spectator mode. You are free to fly around the map and explore to your heart's content. Make sure you note the locations of the big guns, pickups and health, so you're not going into battle blind!

The moment a match starts, you are equipped with the Shieldgun and an Assault Rifle. These are good guns to start with, but there are much more effective weapons strategically placed throughout the battle arenas! Go and grab one before your foes do!

Remember to keep moving, because a moving target is harder to hit than a stationary one. Strafing is a great way to avoid getting shot (the left and right arrow keys will make you strafe side to side) while keeping your crosshair on your enemy. Use it or lose it!

Some weapons, such as the Rocket Launcher, cause an explosion that creates "splash damage." Use splash damage to hurt your enemies by aiming near them or on the ground in front of them. A couple of good splashes will take out your opponent in no time.

Many weapons are great for close combat, while others are better suited for long distance play. For instance, the Flak Cannon is great in close quarters, while the zoom of the sniper rifle makes it the ultimate long-range gun.

Many of the weapons that explode and cause splash damage will damage you if they explode too close to you. Be careful where you shoot, or you could lose points!

### SPREES

If you manage to kill five or more opponents without dying yourself, you will be on a Killing Spree. You'll get a verbal notice and your enemies will receive a warning telling them that you're doing well. If you kill 10 or more foes you are on a Rampage. There are many Spree levels, see how high you can get!

### DODGING

In *Unreal Tournament 2003*, you can dodge by tapping a movement key twice in any direction. If you do not like this feature, you can turn it OFF in the Settings > Game menu, but be advised that many great players who learn this technique become Unreal masters.

### HEADSHOTS

If you take someone out by taking their head off, you'll get a message letting you know that you nailed a headshot!

## UT2003 GLOBAL STATS

*Unreal Tournament 2003* has built in support for the freely available service UT2003stats. UT2003stats lets you track and display your scoring and also provides gameplay statistical analysis for Internet games. To read up on this information you will need a web browser, such as the latest version of Netscape Navigator™ or Internet Explorer™, installed on your computer.

### UT2003STATS — INTRO

UT2003stats organizes and tracks the scoring and statistical gameplay information from your multiplayer on-line *Unreal Tournament 2003* games. UT2003stats only tracks human players that have stats tracking turned ON. AI computer opponents (Bots) are ignored in stats. This is how it works:

Turning on stats tracking in *Unreal Tournament 2003* logs all play information. Every kill, death, suicide, special event, point scored, etc., is sent to Epic Games' Master Server. UT2003stats then interprets the information and stores it. Via a browser you can then, almost immediately, look up your personal stats in form of HTML-based pages.

### UT2003STATS — FEATURES

These complete and total statistics include:

- Personal in-depth statistics for each player, lookup via unique PlayerID.
- Detailed Match Stats for the most recent matches played.
- Ranking for Deathmatch and team-based games.
- Tracking for pure (mutator-free) official game types:  
Deathmatch, Team Deathmatch, Capture the Flag, Double Domination and Bombing Run.
- Tracking for above game types with mutators turned on.
- "Custom" mod tracking.
- Global statistics — worldwide stats overview.
- Powerful search function built in.
- "Best Of" pages.
- Details on Maps, Servers and Mods.
- Extensive online help: FAQ and Site Map.

For a detailed breakdown of this week's, this month's, and all-time stats visit UT2003stats at:

<http://ut2003stats.epicgames.com>

All your stats will be accumulated into a permanent database just for you, keeping track of exactly how many frags, deaths and much more has been happening to you in online games. It does not matter on what server you are playing, your data will be tracked.

#### UT2003STATS — REGISTRATION, TURNING ON STATS TRACKING

UT2003stats does not require pre-registration to participate, and extensive measures for player uniqueness and security have been accounted for. Registration is easy via in-game menu: Settings>Network>UT2003 Global Stats. Turn on UT2003stats tracking by clicking the Track Stats button. You must then choose a Stats Username and Stats Password. Try to make the combination of username and password unique, by choosing a cryptic password that contains letters and numbers. Keep the password to yourself and remember it, since no one at Epic Games knows it. Your online UT2003stats are only as safe as you are with your password.

Note: You can pick any player name (nickname) you want, and also change it as often as you want. Only the Stats Username and Stats Password should stay the same. The latter combination will assign a unique PlayerID to you. Hence, you will be able to find your stats under this PlayerID.

Kathryn Lynch, Christine  
Fromm, Gale Alles, Steve  
Martin, John Hurlbut, Shawn  
Callahan

Meike Hannah – For taking care  
of the things that fall through  
the cracks, but are oh so impor-  
tant.

Andrew LeMat, the man behind  
the Pelvic Thrust – For going  
above and beyond in the Mo-  
Cap Studio

Martin Murphy – For showing us  
the way. You rock.

Evelyn Eekels & Shannon Ewing  
– For all the lunches.

Our wives & family – Thanks for  
your support and patience for  
the stuff we do.

Doug Rogers @ NVIDIA – For  
ongoing help and support with  
his DXT compressor.

Jason Fleming & Bob Heubel –  
The force-feedback code and  
the Golden Pheasant.

William E Damon @ Intel – For  
SSE inline assembly and opti-  
mizations.

All @ MathEngine. Especially  
Simon Mack & James French –  
For writing KAT.

Superior Computers London –  
For customer service above and  
beyond the call of duty.

Legend Entertainment for all  
the help and feedback during  
the early next-generation  
Unreal engine development

Special thanks to NVIDIA for  
their ongoing support – specifi-  
cally Cem Lebenoyan, Sim  
Dietrich, Cass Everitt, Jeff  
Herbst, Stephen Holmes, Gareth  
Hughes, Scott Kephart, Mark  
Kilgard, Dave Kirk, Andy  
Mecham, Bill Rehbock, Daniel

# TECHNICAL SUPPORT (U.S. & CANADA)

## MacSoft Product Support Services

### Product Name Unreal Tournament 2003

Support Info Online: <http://www.macsoftgames.com>

Phone Support: (763) 231-8050 in the U.S., Canada, Australia, and New Zealand. Please have the fol-  
lowing information available before calling the technical support hotline:

~What kind of Macintosh you own.

~Which version of MacOS you are using.

~How much "built-in" memory (RAM) is in your computer.

Note: The above information is available in the Apple System Profiler on your Mac.

### Ordering MacSoft Products

You will find MacSoft games at most Macintosh resellers. You can order directly from MacSoft on the  
web, or by phone. Our web address is: [www.macsoftgames.com](http://www.macsoftgames.com). Our toll-free order line is: 866-512-  
9111.

### Contacting MacSoft

MacSoft

13755 1st Ave N, Ste 500

Plymouth, MN 55441

Phone: 763-231-8100

Email: Technical Support: [support@macsoftgames.com](mailto:support@macsoftgames.com)

Customer Service: [service@macsoftgames.com](mailto:service@macsoftgames.com)

## Warranty Policy

If our technicians determine that the product storage medium is found to be defective within ninety (90) days of original purchase, (unless otherwise provided by applicable law), MacSoft will replace the item free of charge, to the original purchaser, if the item is accompanied by the original dated receipt and packaging. If you do not have the original receipt, or if the warranty period has expired, MacSoft will replace the product storage medium for a nominal fee.

## END-USER LICENSE AGREEMENT

**PLEASE READ CAREFULLY. BY USING OR INSTALLING THIS SOFTWARE, OR BY PLACING OR COPYING THIS SOFTWARE ON YOUR COMPUTER HARDWARE, COMPUTER RAM OR OTHER STORAGE MEDIUM, YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THIS LICENSE. IF YOU DO NOT AGREE TO THESE TERMS, PROMPTLY DISCONTINUE THE INSTALLATION PROCESS AND CEASE ALL USE OF THIS SOFTWARE.**

**1. Thanks.** Congratulations and thank you for licensing our software. We're sorry to cramp your style, but our lawyers tell us that if we want to keep control and ownership of the cool stuff we're developing, we have to make sure you understand and agree that you are just buying a right to use it and that that right is limited in certain ways. So what follows is what you need to know and agree to.

**2. License.** The software accompanying this license and the related documentation (the "Software") are licensed for your use and gaming enjoyment, subject to terms and limitations in this license agreement. The license fee you paid gives you the right to use the Software. If the Software is configured for loading onto a hard drive, you may only load the Software onto the hard drive of a single computer and only run the Software off that hard drive, however you may participate in a multiplayer configuration (such as in an Internet gaming room) with other players who also have valid licenses; in other words, your friends must license their own copies of the Software.

**3. Commercial Exploitation.** You may not use this game, or any Mods created for this game or using the tools provided with this game, for any commercial purposes without the prior written consent of Epic Games Inc. including, but not limited to, the following rules: 1. If you are the proprietor of an Internet café or gaming room, you may operate the Software in a "pay for play" environment provided that all computers used have validly licensed Software installed, such Software having been purchased at a retail store or other similar provider (we do not offer volume discounts or multi-install licenses). 2. You may not, without prior written consent from Epic, operate the Software in any gaming contest where (a) the cash value of all winnings and prizes paid throughout the entire competition is equal to or greater than US\$5,000.00 OR (b) the name of the event, or any individual contest therein, incorporates or approximates the name of a company, product or commercial service OR (c) any company has provided, whether donated or as sponsorship, prizes, or otherwise, products or services worth with a fair market value of over US\$5,000.00.

**4. Use Restrictions.** We want you to enjoy our products for years to come, and we want to be able to continue to make awesome games, so you need to be aware that there are some things you cannot do with the Software. The Software contains copyrighted material, trade secrets and other proprietary material. You may not decompile, modify, reverse engineer, publicly display, prepare derivative works based on the Software, disassemble or otherwise reproduce the Software. Except as set forth herein, you may not rent, sell, lease, barter, sublicense or distribute the Software. You may not delete the copyright notices or any other proprietary legends on the original copy of the Software. You may not offer the Software on a pay-per-play basis or otherwise commercially exploit the Software or use the Software for any commercial purpose except as described in this agreement. You may not electronically transmit the Software from one computer to another or over a network. You may not ship or export the Software to any country other than where you bought it, in violation of the U.S. Export Administration Act (or any other law governing such matters) and you will not utilize and will not authorize anyone to utilize the Software in violation of any applicable law. The Software may not be downloaded or otherwise exported into (or to a national or resident of) any country to which the U.S. has embargoed goods or to anyone or into any country who/which are prohibited by applicable law from receiving it.

**5. Termination.** This license is effective until one of us terminates it. You may terminate this license at any time by destroying the Software and related documentation. In the unlikely event that you are naughty and fail to comply with any provision of this license, this license will terminate immediately without notice from us. Upon termination, you must destroy the Software and related documentation. Please don't wait for us to come after you; it would not be pleasant for either of us. If we do have to come after you, we're going to expect you to pay us for our troubles, including the cost of our lawyers.

**6. Disclaimer of Warranty on Software.** You are aware and agree that use of the Software and the media on which it is recorded is at your sole risk. The Software, related documentation and the media are provided "AS IS". Unless otherwise provided by applicable law, MacSoft warrants to the original purchaser of this product that the Software storage medium will be free from defects in material and workmanship under normal use for ninety (90) days from the date of purchase. By the way, MacSoft provides this end-user warranty as the publisher of the Software. This warranty is void if the defect has arisen through accident, abuse, neglect or misapplication. MACSOFT AND EPIC GAMES, INC. ("EPIC") EXPRESSLY DISCLAIM ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. WE DO NOT WARRANT THAT THE FUNCTIONS CONTAINED IN THE SOFTWARE WILL MEET YOUR REQUIREMENTS. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY US OR ANY OF OUR AUTHORIZED REPRESENTATIVES SHALL CREATE A WARRANTY OR IN ANY WAY INCREASE THE SCOPE OF THIS WARRANTY. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO THE ABOVE EXCLUSIONS MAY NOT APPLY TO YOU.

**7. Limitation of Liability.** UNDER NO CIRCUMSTANCES, INCLUDING WITHOUT LIMITATION, NEGLIGENCE, SHALL MACSOFT, EPIC OR ANY OF THEIR RESPECTIVE OFFICERS, EMPLOYEES, DIRECTORS, AGENTS, LICENSEES, SUBLICENSEES OR ASSIGNS BE LIABLE FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES THAT RESULT FROM THE USE OR INABILITY TO USE THE SOFTWARE OR RELATED DOCUMENTATION, EVEN IF SUCH PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OR EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU. In no event shall Epic and MacSoft's total liability to you for all damages, losses, and causes of action (whether in contract, tort or otherwise) exceed the amount paid by you for the Software.

**8. Controlling Law and Severability.** This license is governed by and construed in accordance with the laws of the State of North Carolina, USA. Exclusive venue for all litigation shall be in Wake County, North Carolina. If any provision of this license is unenforceable, the rest of it shall remain in effect.

**9. Complete Agreement.** This license constitutes the entire agreement between the parties with respect to the use of the Software and the related documentation. However, MacSoft and Epic reserve the right to modify the terms of this license from time to time and will post notice of material changes somewhere within [www.epicgames.com](http://www.epicgames.com).

**10. Copyright.** The Software and all copyrights, trademarks and all other conceivable intellectual property rights related to the Software are owned by Atari, Epic or such parties' licensors and are protected by United States copyrights laws, international treaty provisions, an army of clones, and all applicable law, such as the Lanham Act. You must treat the Software like any other copyrighted material, as required by 17 U.S.C. section 101 et seq. and other applicable law. Please do not make unauthorized copies. The program you've licensed was produced through the efforts of many people who earn their livelihood from its lawful use. These people like to eat, so don't make copies for others who have not paid for the right to use it. To report copyright violations to the Software Publishers Association, call 1-800-388-PIR8 or write: Software Publishers Association, 1101 Connecticut Ave., Suite 901, Washington, D.C. 20036.

**11. Enjoyment Requirements.** We are aware that there are rumblings and grumbings within the gaming community about heavy handed, legally onerous license agreements. You have our word that this one is as fair and even handed as it gets and, as you have read this far, you know it to be true. Now, be gone from this screen and enjoy the Software.

SNEAK PEEK!

# SEIZE THE DAY: (CAPTURE THE FLAG CHROME

SIZE:

Five vs. Five

WEAPONS AVAILABLE:

Assault Rifle, Bio-Rifle, Flak Cannon, Lightning Gun, Link Gun, Minigun, Rocket Launcher, Shield Gun, Shock Rifle, Translocator

ITEMS AVAILABLE:

Flags (red and blue), Health Pack +25, Shield Pack +50

*A recent addition to the Tournaments, this arena has yet to be fouled by the rusted brown of dried blood or the carbon black of scorch marks.*

*Let us welcome you to be the first to christen it.*

## GAME PLAN

### OFFENSIVE TIPS

- Send at least two team members to capture the enemy flag. The chances of one making it are better if they enter through different sides of the enemy base, but the chances of both surviving are better if they come in through the same door. If you have the manpower, send a third teammate in for the flag. Two teammates can enter through one door and the third through the other door.
- Your team can reach the enemy flag in three ways: Run up onto the catwalk and run the length of it until you grab the flag, run along the ground to the rear of the catwalk and take the elevator up to the flag, or use your Translocator to get there instantly.
- Once you have the flag, quickly determine if more enemies await on the catwalk or on the ground, and choose the path of least resistance. If you are running along the ground, stay as close to the catwalk as possible to avoid getting shot from above, and beat feet back to your own flag to score the point.
