## The Portable Solutions Specialists

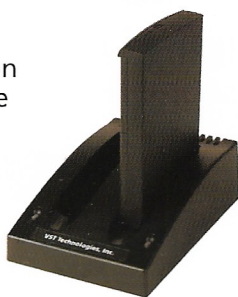

New 1999 Version

# Macintosh PowerBook G3 Series Product Line

## Charger G3

Charges two Macintosh PowerBook G3 Series Lithium Ion Batteries in the shortest possible time. Real time indicators are provided for charge mode, charge completion and battery error detection. The Charger delivers a complete charge every time to provide maximum runtime and overall battery life. Compact and lightweight, the VST Charger is powered by the standard Macintosh PowerBook G3 AC Adapter.

Charger G3 with AC Adapter  
VST Part # SCHG32

Charger G3 Ultimate Mobility Bundle, includes:  
Charger G3 with AC Adapter and a Macintosh  
PowerBook G3 Series Li-Ion Battery  
VST Part # SCHG3203

## Macintosh PowerBook G3 Series Li-Ion Battery

Apple Lithium-Ion internal battery for the Macintosh PowerBook G3 Series works in either of the expansion bays. The Apple Li-Ion Battery is the lightest weight and highest energy density (~50 whrs) battery available for the Macintosh PowerBook G3 Series.

VST Part # BATG32

(also available in the Charger G3 Ultimate Mobility Bundle, above)

## PowerBook AC Adapter

VST Part # ACPB

## VST Auto Adapter

The VST Auto Adapter powers the Macintosh PowerBook G3 Series while charging the internal battery. It can also be used to power the VST Charger for fast battery charging on the road. The Auto Adapter provides regulated current from any standard cigarette lighter socket (12 to 18 volts DC) and is fuse protected, guarding your PowerBook or Charger from potential surges from automobile electrical systems.

VST Part # AAPB

## VST Zip®100 Drive for Macintosh PowerBook G3 Series

- Fast - up to 1.4MB/sec data transfer rate.
  - Bootable with Mac OS 8 boot disk.
  - Hot-swappable - no need to sleep, shut down, or restart.
  - Seamless user interface - behaves just like a floppy.
  - Runs in the right expansion bay of your Macintosh PowerBook G3 Series.
  - Low-cost media makes backing up and archiving affordable.
  - Use passwords to write and read/write protect your disks for added security.
  - Includes 100MB IomegaWare Zip disk.
- VST Part # ZIPG32

## VST Expansion Bay Hard Drives for the Macintosh PowerBook G3 Series

VST Expansion Bay Hard Drives provide additional storage and archiving space for your Macintosh PowerBook G3 Series. These new drives are Direct Memory Access (DMA) compatible which read and write data up to twice as fast as non-DMA compatible drives. Expansion Bay Hard Drives are available in 6GB, 8GB and 10GB sizes (visit our web site for current GB size listings).

VST Part # EBHDG3260, EBHDG3280 and EBHDG3210

## VST SuperDisk Drive for the Macintosh PowerBook G3 Series

- The SuperDisk Drive reads and writes both 120MB SuperDisk diskettes and standard 1.4MB floppy diskettes.
  - Seamless user interface.
  - Each SuperDisk diskette holds 120MB - 83 times the capacity of a standard floppy diskette.
  - Up to five times faster than a standard floppy drive.
  - Hot-swappable - no need to sleep, shut down, or restart.
  - Runs in the right expansion bay of your Macintosh PowerBook G3 Series.
- VST Part # LSG32
