## Introduction

### Welcome to 2009 World Book

#### Polar bear mother and baby

A baby polar bear rests on its mother in the Arctic snow. Polar bears give birth in late November or early December.

© Howard G. Buffett

## Requirements, Support, and Feedback

### System:

- Mac OS X 10.3.9\* or later, including Mac OS X 10.5 "Leopard"

### Mac Model:

- iMac: 400 MHz or faster
- eMac/Mac mini: any
- PowerMac: 350 MHz or faster
- Intel Mac: any
- iBook: 500 MHz or faster
- PowerBook: 500 MHz or faster

### Memory (RAM):

- 256 MB

### Display:

- 1024x768, Millions of Colors

### Video RAM:

- 8 MB (16 MB recommended)

### Free Hard Disk Space:

- 1.2 GB (2.5 GB for full installation)

### DVD-ROM drive

Internet connection required for accessing online features\*\*

### Additional software:

- QuickTime 7.5 or later is recommended\*\*\*

### Technical Support

If you experience any problems using World Book, choose **World Book Tech Support** from the **Help** menu to go to the World Book Technical Support Web site. If you cannot launch World Book, please visit The Software MacKiev Technical Support Web site by going to [www.mackiev.com](http://www.mackiev.com) and following links to Support.

### Feedback

We'd love to hear from you! If you would like to share your thoughts about **World Book** with us including any suggestions you have for future editions, choose **Provide World Book Feedback** from the **2009 World Book** application menu and fill in the World Book Feedback form on the Web page that appears.

\* Widgets require Mac OS X 10.4 or later.

\*\* One year free subscription to "What's Online" area updates included.

\*\*\* To get the latest version of QuickTime, visit [www.apple.com/quicktime](http://www.apple.com/quicktime), or use the Software Update feature on your computer.

## New Features in World Book

### Webcam Collection

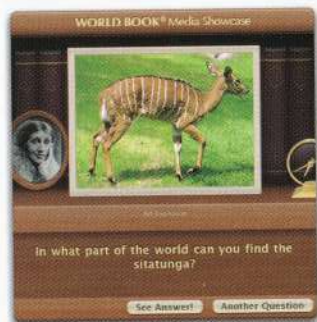

The next best thing to being half way across the world is to travel through the magic of Webcams. Software MacKiev has added editor-approved Webcams to the 2009 edition of World Book. Witness the construction of the world's largest ferris wheel in Singapore. Look out for "Nessie" on Loch Ness in the Scottish Highlands. See the trains roll into Blumberg Station in southern Germany and the gondoliers navigating the Grand Canal in Venice.

### Thousands of new articles and media

Each year the editors of the World Book 22-volume paper-bound version of the encyclopedia, update articles and add new ones. Those all are taken word for word into the multimedia edition and for 2009 there are more than 4,000 new and updated articles – from Angelina Jolie to Generation Y, Organic food, and YouTube – as well as lots of great new photographs, video clips, and more!

## New Features in World Book, Cont.

### Media Showcase Widget

Do you know where sitatunga lives? Find out with World Book's newest widget: Media Showcase. With more than a thousand gorgeous images from World Book articles gathered in a quiz format, you'll have fun learning about people, places and living things across the planet while viewing the best of World Book's media collection. If you're stumped, you can click through to the World Book article to find the answer.

### Content for iPod® and iPhone™

All World Book media content has been adapted to play on Apple's latest iPods including the new iPod Nano and iPod Touch. Exporting World Book content to your iPod is just one click away so you can take World Book's media library with you. Watch a documentary video clip on the Civil War or listen to World Book's rich music collection anywhere you roam. As a bonus, our This Day in History widget is also available as an iPhone application that you can also play on an iPod Touch.

## Installing and Registering

### To install 2009 World Book:

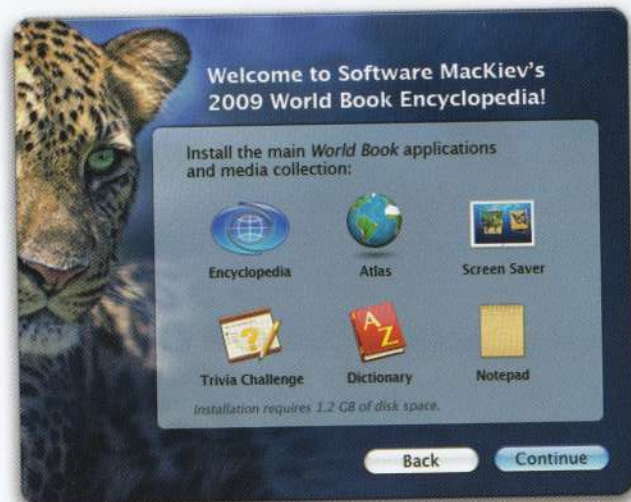

1. Insert the 2009 World Book Install DVD in your DVD-ROM drive.
2. Double-click the 2009 World Book Installer icon and follow the onscreen instructions.

### Registration

If you register your copy of 2009 World Book, you will get notifications of any free product updates that we release from time to time. You can also sign up on the registration page to get email news about World Book upgrades and special discounts, and to hear about new products from Software MacKiev.

If you are connected to the Internet when you install the product, you will be given a chance to register online right away. Otherwise you can register later by choosing **Register World Book** from the **2009 World Book** application menu.

**Tip:** To make the 2009 World Book icon easy to find, drag it to the Dock or select the "Add World Book icon to the Dock" checkbox during installation.

## Chapter 1

### Getting Started

#### Chinese musicians

Chinese musicians play Western and Chinese instruments. In the group shown here, the girl on the left is playing a cello, and her friends are playing traditional Chinese instruments.

*World Book photo by Robert Borja*

## World Book Home Screen

To launch World Book, double-click the 2009 World Book application icon, which you will find in the 2009 World Book folder inside the main Applications folder on your hard disk. When World Book opens, you see the Home Screen with the Search and Browse areas and videos and pictures floating across the bottom.

### Dictionary

Click to find definitions in the Dictionary. See page 14.

### Topics

Click to start searching for the information you need. See pages 15 and 18.

### Time Frame

Click to search for information related to a specific time. See page 23.

### What's Online

Click to access World Book's extensive online functionality. See page 24.

### Media Thumbnails Stream

Click a floating media element to find out more about it in the Media Center. Place your pointer over a media element to see its title.

### Just Listening

Click to explore World Book's music content and other sounds by theme. See page 21.

### Just Looking

Click to browse through World Book's content for ideas. See page 20.

### Surf the Ages

Click to browse imaginative and historically accurate websites covering the past 5,500 years. See page 25.

### World Book Trivia

Click to open the application and test your knowledge. See page 30.

### Media Center

Click to view all videos, animations, pictures, and bubble views or to listen to the sounds found in articles. See page 19.

### Atlas Area

Click to start browsing World Book's detailed maps. See page 22.

## World Book Main Screen

The World Book Main Screen has five main areas: the toolbar (including Navigation, Tool, and Area icons), Tool Kit (including area-specific Tools, Search, Navigation Kit, and Dictionary), Media Canister, main viewing area, and status area.

1A

**Navigation Icons:** Click Back to go back one screen at a time, click Forward to advance one screen, and click Home to go to the Home Screen.

1B

**Tool Icons:** Click Theme to choose an appearance theme for World Book, click Sticky Note to add a new sticky note, and use Highlighter to highlight parts of the text.

1C

**Area Icons:** Use these icons to go to the Article, Media Center, Atlas, Just Looking, Time Frame, Surf the Ages, and What's Online areas.

2

**Tool Kit:** Click these icons to open area-specific Tools, Search, Navigation Kit, and Dictionary.

3

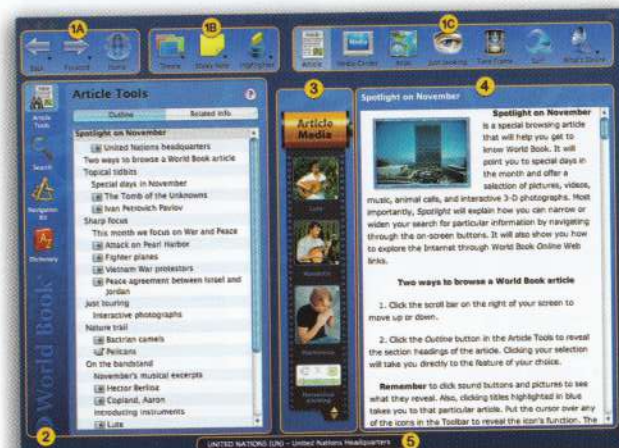

**Media Canister:** Displays the media available in articles, multiview illustrations, and maps.

4

**Main Viewing Area:** The area where you view all World Book articles, media, and so on.

5

**Status Area:** When you position your pointer over a thumbnail, a brief description of it appears in this area.

## World Book Tool Kit

There are four icons on the left side of the World Book screen which you can click to open the four most often used toolsets. Click any of the four icons to hide or show the Tool Kit area.

**Area-Specific Tool Icon:** The topmost Tool Kit icon changes to match the area you are in. When you select an area of World Book to visit, the appropriate area-specific toolset opens automatically. For example when you go to the Article area, the Article Tools area will appear.

**Search:** Click to open the Search area, where you can search for an article or a media resource by topic, word, or letter.

**Navigation Kit:** Click this icon to open the Navigation Kit, which includes the following tools:

History Sticky Notes Categories

### History:

Go to previously visited places in World Book. Click the disclosure triangle next to a date in the History list to view a list of places visited that day.

### Sticky Notes:

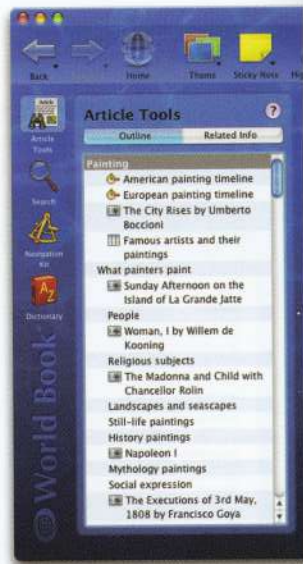

View and organize your sticky notes. For more information, see "Using Sticky Notes" on page 26.

### Categories:

All World Book articles are divided into nine categories (Geography, History, Humanities, Industry & Technology, Life Science, Life Science / Plants, Physical Science & Math, Recreation, and Social Science). Select a category to explore the articles in it.

**Dictionary:** Click the icon and enter the word you want to look up. Click the Speaker icon to start or stop World Book reading the definition. Use the Related Entries pop-up menu to search for exact matches for your search term, similar words, or the search term found in examples or in definitions.

## Using the Search Tools

Click the Search icon in the Tool Kit, and then click **By Topic**, **By Word**, or **By Letter**. Type your search term in the field and press Return to begin your search. The closest match is highlighted in the search results list and appears in the main viewing area. Double-click any other result in the list to open the corresponding item.

**Folder With Articles**  
Double-click a folder to open a list of articles.

**Additional Terms**  
Enter additional search terms.

**Start Search**  
Click to start a new search.

**First Letter**  
Click the first letter of the word you want to find.

**"See also"**  
Double-click a "see also" item to start a new search.

**Set Proximity**  
Choose to search for multiple terms within a sentence, a paragraph, or an article, or within a certain number of words.

**Select a Media Type**  
Click to narrow your search to a particular media type or types.

**Drag-and-Drop Tip:** Drag any word to the Dictionary icon or double-click it to see its definition in the Dictionary.

## Chapter 2

### Using World Book

#### Astronaut Edward H. White II walks in space

The first U.S. astronaut to walk in space was Edward H. White II on June 3, 1965. A 26-foot (8-meter) cord linked White to the Gemini 4 spacecraft during the spacewalk. He controlled his movements in space by using a handheld rocket gun filled with gas.

NASA

## Reading Articles

The Article area of World Book is where you read articles, and view related information. To open an article from the Home Screen, click the Topics icon, or click the Article icon on the toolbar, if you are in another World Book area.

**Article Tools**  
Click to hide or show Article Tools.

Outline    Related Info

### Outlines:

Click this control to see the article contents by headings. Click any item in this outline and the article will automatically scroll to that section.

### Related Info:

Click this control for a list of related World Book articles and online resources, including websites selected by World Book editors.

### An article may contain special items:

**Tables:** Open tables by clicking the Tables icon.

**Sound:** Click the Sound icon to hear related sounds.

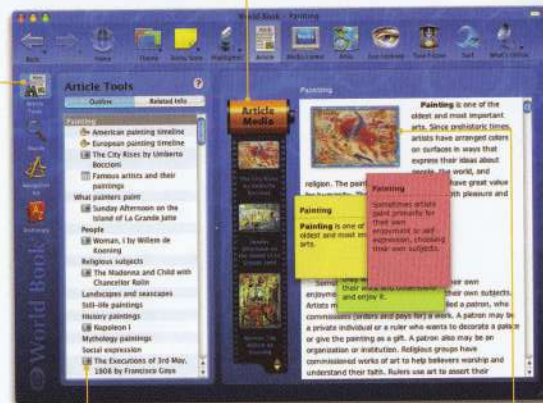

**Warner Collection sound clip:** Click to hear sound clips from the Warner/Rhino Music Collection.

**Timeline:** Click the Timeline icon to view a related chronology. When working with timelines, you will see the Timeline Tools icon in the Tool Kit.

### Media Canister

Click to see all media elements related to the article in view. Click any item to move to the section of the article containing the corresponding thumbnail, or double-click an item to open it directly.

### Media Icons

You can jump to the full-size version of any picture, map, movie, animation, table, timeline, or bubble view by double-clicking its icon.

### Media Thumbnail

Click to view the media element in the Media Center.

## Viewing Media

All videos, animations, pictures, and bubble views appear in the Media Center. All the sounds found in articles can also be played here. If you haven't installed the Media Contents while installing World Book, you will have three panes in the Media Tools area: Current, All Installed and Media on DVD.

**Media Tools**  
Click to hide or show Media Tools

Current    All Installed    Media on DVD

**Current:** Click to browse all the media associated with the last article, Time Frame, or Just Looking search that was in view before you moved to the Media Center.

**All Installed:** Click to browse the media that is installed on your hard disk.

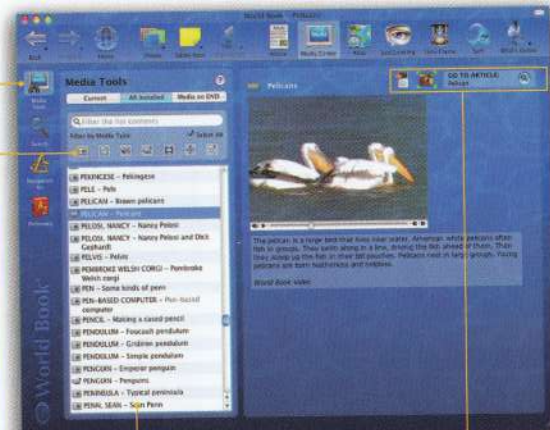

**Media on DVD:** Click to browse the media that is stored on the Media DVD. (The Media DVD contains all the animations and some of the longer video clips.)

### Media Type

Select to search by media type. You can select several media types by holding down the Shift or Command key while clicking the icons.

### Results

Double-click an item to view it.

**Export to iTunes**  
Click to export a video clip or animation to iTunes. You can then add it to your iPod.

**Toggle Movie Size**  
Click to make a video or animation twice as large or revert to its normal size.

**Related Article**  
Click to go to the article associated with the media element in view.

**Tip:** To install all the media from the DVD on your hard disk, choose **Install Media Contents** from the **World Book** application menu.

## Just Looking

Just Looking enables you to browse through the content of World Book for ideas, much like flipping through the pages of the paper edition. However, Just Looking is also a powerful tool that you can use to search for World Book resources by theme or by category and type of resource.

### Just Looking Device

Use the device to search for resources.

By Theme By Category

### By Theme

Click to browse through the rich World Book media collection by selecting interesting subjects. Choose items from the Themes and Subjects pop-up menus to guide your tour.

### By Category

Click to browse through eight World Book categories. Choose items from the Categories and Content pop-up menus for more specific browsing.

### Audio Icons

Click this icon to play the sound without leaving the Just Looking area.

Click a thumbnail with this icon to go to the Media Center, and then click the icon to enjoy the sound.

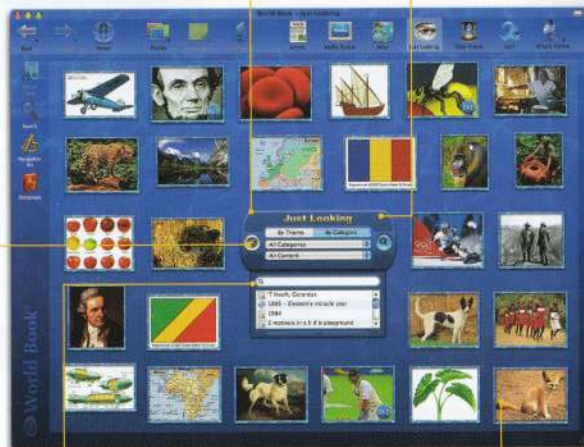

Click a thumbnail with this icon to hear a Warner Music sound clip in the Media Center.

**Clear**  
Click to clear the screen.

**Search**  
Click to search and display the results.

### Advanced Search

Click the bottom of the device to open an Advanced Search drawer. Type a few letters to filter the media list and then click an item in the list to place it on the screen.

### Thumbnails

Click a thumbnail to view it in the corresponding area.

## Just Listening

Just Listening enables you to explore the World Book music content and other sounds by theme while corresponding media elements float by on the Home Screen "waterstream." Click the Just Listening icon on the Home Screen to open the Just Listening player.

### Theme Menu

Choose a sound theme.

Music Sampler  
Classical Music  
Opera  
Jazz  
Rock Music  
Country Music  
Musical Instruments  
National Anthems  
Songs from Europe  
African Music  
Asian Music  
Middle Eastern Music  
Latin American Music  
Music from the Islands  
Bird Calls  
Animal Noises  
Sounds of Nature  
Speeches and Addresses  
Poetry  
Shakespeare

**Go to Sound**  
Click to open the sound in the Media Center.

**Go to Picture**  
Click a picture to open it in the Media Center.

**Set Volume**  
Drag the slider to adjust the volume.

**Export to iTunes**  
Click to export a sound to iTunes.

**Go Back**  
Go to the previous sound.

**Play/Stop**  
Click to start or stop playback.

**Go Forward**  
Go to the next sound.

## Exploring Maps

The Atlas opens with a map of the world. Begin your tour of World Book maps by clicking any continent label. Continue clicking to view progressively more detailed maps, showing countries, states, provinces, and cities.

### Atlas Tools

Click to hide or show Atlas Tools.

Map Search Map Browse Related Info

**Map Search:** Click this tab and type a few letters to filter the map list. Double-click an item in the list or complete typing the location and press the Return key to start your search.

**Map Browse:** Click this tab and navigate through the maps by clicking the disclosure triangles to reveal continents and countries.

**Related Info:** Click this tab to view a list of all World Book resources linked to the map currently in view.

### Results

Double-click an item to open it.

### Map Overlays:

Click to see map overlays that may include population density, climate, average temperatures, annual precipitation, agriculture and fishing, mining and manufacturing, terrain, and economy.

### Zoom Out

Click to move to progressively smaller-scale maps containing the originally selected map.

### Related Article

Click to go to the article related to the map in view.

**Drag-and-Drop Tip:** You can drag a place name from any area of World Book or from any place in your system to the Atlas icon on the toolbar to start a map search. The Atlas area opens automatically and displays the closest matching map. All of the maps in the World Book Atlas can be copied by dragging them to an open document window in any application that accepts graphics.

## Searching by Time Frames

Use Time Frame to locate information related to a specific year, decade, century, millennium, or era. Time Frame search results are displayed as thumbnails, making it easier to pick out the information that interests you.

### Time Frame Tools

Click to hide or show Time Frame Tools.

Era Time Period

### Era

Click the Era tab and select one of the preset eras, such as The Cold War or The American Revolution.

### Time Period

Click this tab and enter a specific Time Frame, measured in years, decades, centuries, or millennia. To focus your search, choose a category from the Category pop-up menu. Time Frame will assume you are entering years that are A.D. (default) unless you select B.C. If you select a period other than Year after typing a date, the date will be reset to reflect the selected time period. (For example, if you type 1952, and select Decade, and then start your search, the date will be reset to 1950.)

### Filter List

Type to filter your search results. Double-click an item in the list to open it.

### Start Search

Click the Search button or press Return to begin your search.

### Thumbnails

Click any thumbnail to go to the corresponding article or media element. Position your pointer over a thumbnail to view a description of it in the Status area at the bottom of the screen.

## Looking Online

The What's Online area gives you access to World Book's extensive Internet functionality. Click the What's Online icon on the toolbar and then click any Online Tool to select it.

**Update Now.** Click to download World Book updates for articles, The Month in Brief, and Web sites and Webcams links.

**Article Updates.** Click to view all the article updates you have downloaded. Double-click any article title to view the article update text. To see the whole article and its update in the Article area, double-click the update text.

**The Month in Brief.** Click to open a calendar with summaries of the major news events of each day of the month. Click a date on the calendar to view the top news for that date.

**Web Sites.** Click to explore websites that have been reviewed and approved by World Book editors. Type search terms in the entry fields (for example, "Apple" and "Computer") and click Go to start your search.

**Webcams.** Click to watch real-time images of major world attractions, including palaces, cathedrals, monuments, parks, wilderness areas, resorts, and amusement parks. All Webcams are organized into categories. Select a category to browse a list of Webcams. Webcam images are automatically displayed in the Media Center window.

**Back in Time.** Click to download historical articles from World Book's chronological annotated online archives. Choose a topic from the drop-down menu and then click a link to start downloading the Back in Time article.

**Special Reports.** Click to browse the Special Reports collection, prepared by World Book editors to supplement the Encyclopedia articles. Select a category and click a link to download the corresponding report.

**World Book on the Web.** Click to go to the World Book website, where you can find educational resources for parents, students, and teachers.

**Online Subscription:** World Book includes a free one-year subscription for online access to the What's Online features. After the free period is over, you will be able to renew your subscription for an annual fee. Downloadable updates are posted regularly and stored in the /Library/Application Support/2009 World Book/Download folder so that you can access them easily whenever you need.

**Notification of Online Updates:** World Book automatically checks for updates every time you open it and are connected to the Internet — and once a day for as long as it is running. If an update is found, the World Book icon in the Dock starts to spin and a dialog appears suggesting that you use Update Now to download the update. Click **Update Now** to automatically download any new article updates and updates to Month in Brief and Web Sites.

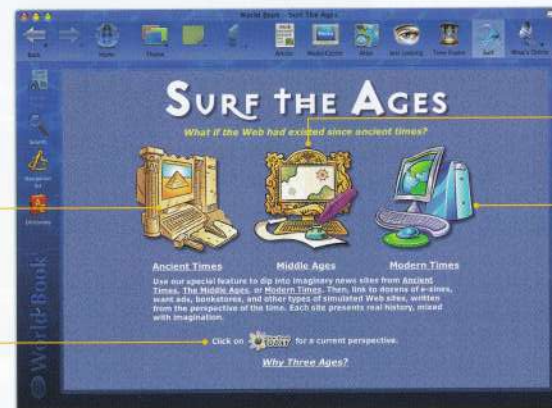

## Surfing the Ages

Surf the Ages is an imaginative and historically accurate look at the past 5,500 years. Click Surf the Ages on the Home Screen or click the Surf icon on the toolbar to get started. Each time period, from 3500 B.C. to the 20th century A.D., has its own home page with links to other imaginary websites from that era. You can visit them using the offline browser built into this edition of World Book.

**Surf the Ages Functions:** Click Ancient Times, Middle Ages, or Modern Times on the Surf the Ages Home Screen to begin surfing. Then choose from the four or five time periods for each age to view century home pages full of web features such as e-zines, want ads, bookstores, and other types of imaginary website.

**View Ancient Times**  
Click to browse websites covering 3500 B.C. to the 400's A.D.

**Browse Middle Ages**  
Click to explore the world of 1000 to 1500 A.D.

**View Modern Times**  
Click to discover more about the last 500 years.

**View From today**  
Click to get a modern perspective on a featured event, person, or idea, and to get links to World Book articles, book lists, and real websites.

## Using Sticky Notes

Use sticky notes to mark important information for later use. Sticky notes can be placed in articles, in the Media Center, or in the Atlas.

### Sticky Notes in the Navigation Kit

Click this icon and then click the Sticky Notes tab to view and organize all your sticky notes.

#### Create new folder

Click this icon to add an organizing folder. Drag your sticky notes into folders to group them.

#### Delete

Click this icon to delete selected sticky notes or folders.

#### Change color

Click this icon to change a selected sticky note's color.

### Share Sticky Notes

You can share sticky notes by selecting the "Share my Sticky Notes" checkbox in the Sharing pane of World Book Preferences, where you can also choose to have World Book look for the shared sticky notes of others.

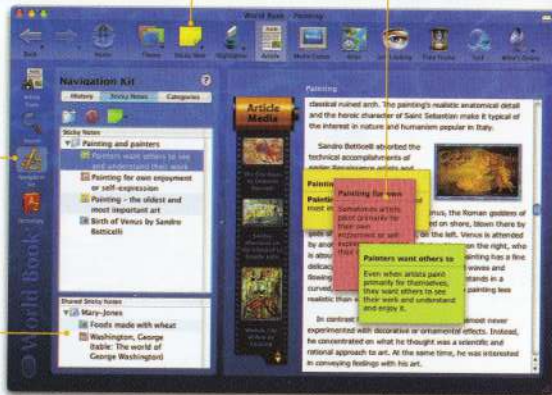

**Print Sticky Notes:** To print sticky notes, choose **Print Sticky Notes** from the **Sticky Notes** menu.

### Create Sticky Notes

Click to place a sticky note. Click and hold the icon to choose a new color for your sticky notes.

### Edit Sticky Notes

Click the title to edit it. Click inside the sticky note to edit its content.

### Sticky Notes Marker

Sticky notes you have placed in the Media Center are marked in the list according to the type of media element to which they are attached.

**Drag-and-Drop Tip:** You can copy the content of a closed sticky note into Notepad or TextEdit by dragging the sticky note icon to an open document window. You can also drag a folder full of sticky notes to Notepad for easier editing.

## Changing World Book Settings

The World Book Preferences dialog contains eight panes — General, Appearance, Window, Special Effects, Dictionary, Sharing, Speech, and Updates — that you can use to customize your World Book settings. Click the corresponding icon to open the pane you need.

**General Pane:** Change Home Screen settings, have World Book retain the items in your History list, and set the number of steps for **Back** and **Forward** navigation.

**Appearance Pane:** Change the look of World Book, specify article text size, and set the default transparency of sticky notes.

**Window Pane:** Set World Book to open its contents in an unlimited number of resizable windows and retain the size and position of windows after quitting.

**Special Effects Pane:** Set bubble view options and open World Book Screen Saver preferences.

**Dictionary Pane:** Change the default settings for the built-in World Book Dictionary.

**Sharing Pane:** Turn sticky notes sharing on or off and specify additional sharing settings.

**Speech Pane:** Specify Speech Capabilities settings to work with World Book using voice commands.

**Updates Pane:** Turn on automatic update options and choose a notification method.

## Chapter 3

### Using World Book Applications

#### Embossing

Leather is embossed with a special punch.

*World Book photo by Ralph Brunke*

## World Book Trivia Challenge

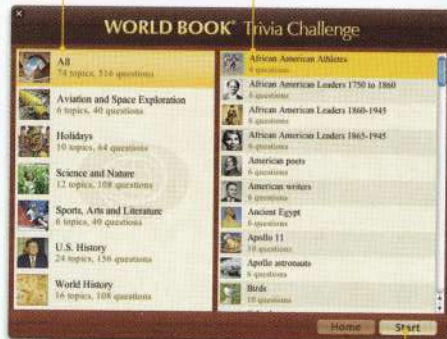

World Book Trivia Challenge contains 74 topics covering a wide variety of subjects including history, literature, space exploration, and much more. Each World Book Trivia Challenge topic has been specially compiled to make the questions both interesting and informative. Launch World Book Trivia by choosing it from the Tools menu in World Book or by double-clicking the World Book Trivia icon located in the 2009 World Book folder.

**Select a Category**  
Click to select a category you are interested in.

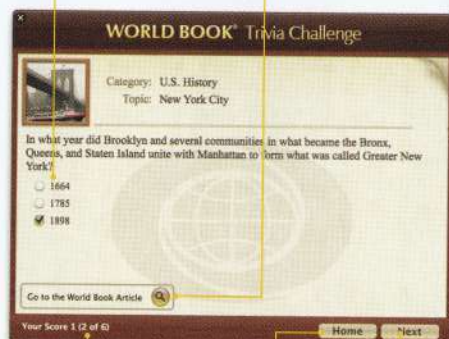

**Select a Topic**  
Click to select a topic. You can select several topics by Command-clicking them.

**Select Answer**  
Click to select the answer you think is correct.

**Go to Article**  
Click to view the corresponding World Book Article.

**Start**  
Click to begin the challenge.

**Scoring**  
Shows the number of correctly answered questions, the current question, and the total number of questions in the topic.

**Home**  
Click to return to the main screen.

**Next**  
Click to proceed to the next question.

## Working With Notepad

World Book Notepad is a simple and customizable word processing application included with World Book. Notepad allows you to create documents using text and graphics from World Book with ease. Launch Notepad by choosing it from the Tools menu of the main World Book application or by double-clicking the Notepad icon in the 2009 World Book folder.

**Format Document:** Notepad includes number of options, such as inserting headers and footers, page breaks, and page numbering, that allow you to create professional-looking documents.

**Import Images:** Choose **Import Image** from the File menu to insert a photograph or other graphic image. In the dialog that appears, select the graphic file you want to import.

**Change Fonts.** Click this icon to select any font available on your computer from the WYSIWYG fonts list.

**View Statistics.** Click this icon to count the number of pages, words, characters, paragraphs, and lines in your document.

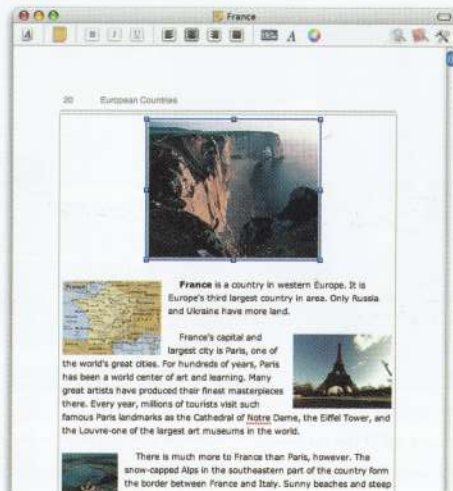

**Search in World Book Articles.** Select text in a Notepad document and click this icon to search for information related to it in all World Book articles.

**Look up Words.** Select a word or words and click this icon to search for definitions in the freestanding World Book Dictionary.

**Customize the Toolbar.** Click this icon to open the Customize Toolbar sheet. Drag controls from the sheet to the toolbar to add them, or drag them off the toolbar to remove them. To reset the usual Notepad toolbar arrangement, drag the default set of controls to the toolbar.

**Drag-and-Drop Tip:** You can drag selected text from World Book articles, captions, tables, and from the Dictionary into any open Notepad document. You can also drag most media elements such as maps, pictures, and timelines.

## World Book Dictionary

Use World Book Dictionary to look up any word you enter. To launch World Book Dictionary, choose **World Book Dictionary** from the **Tools** menu in World Book, or double-click the World Book Dictionary icon in the 2009 World Book folder.

**Go Back or Forward.** Click to revisit the definition of a previous search item or to go forward after clicking the back button.

**Start or Stop Reading.** Click to start or stop the reading of the definition.

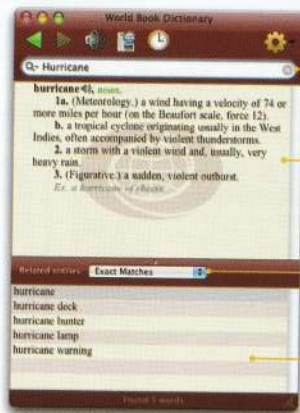

**Search in World Book Articles.** Click to find selected text in World Book articles.

**View History List.** Click the icon to open a drawer where you can find words you have looked up before.

**Perform an Action.** Use this pop-up menu to perform an action with selected words or to open the Preferences window.

**Search**  
Type a word to search for.

**View Definition**  
The definition of the search word. You can double-click any word in this area to see its definition.

**View Related Words**  
Choose related entries for the found word.

**List of Related Items**  
Click a search result to see its definition.

If Speech Recognition is turned on in System Preferences, you can work with the Dictionary using the following speakable commands:

"Look up in the dictionary"	Opens a selected word in the dictionary.
"Pronounce please"	Pronounces the word displayed in the front window.
"Definition please"	Reads the definition of the word displayed in the front window.
"Go back"	Goes one step back.
"Go forward"	Goes one step forward.

## World Book Atlas

Use World Book Atlas to find the distance between two locations. To launch World Book Atlas, double-click the World Book Atlas icon in the 2009 World Book folder.

**Change the View**  
Switch between the split-view globe, full-view globe, or full-view flat map.

**Rotate the View**  
Click to rotate the globe to the left or right or to stop rotating.

**View Day/Night**  
Click to turn the day/night view on or off.

**View Grid**  
Click to turn the grid on or off.

**Change Settings**  
Click to open the drawer and change settings.

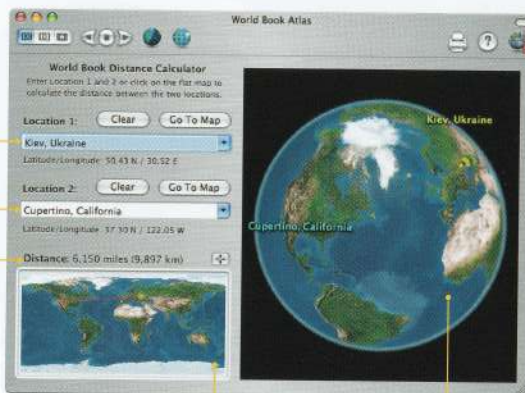

**Get Help**  
Click to open help, where you can find detailed information on using the Atlas.

**Print the View**  
Click to print the current view of the globe and map view with locations and distance information.

### Locations

Type two locations in the fields to find the distance between them.

**Distance**  
The distance between the specified locations.

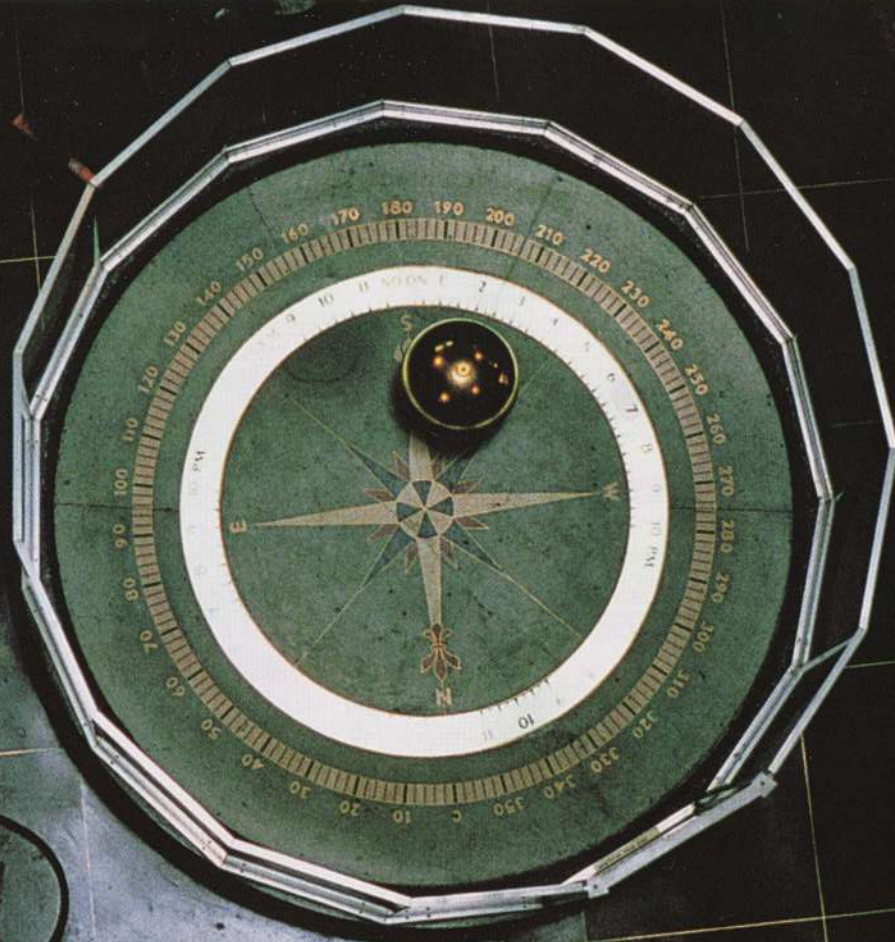

**Navigation Map**  
Click the map to set a custom location.

**Globe**  
Drag to rotate the globe.

**Tip:** As you move your pointer over the Navigation map, you will see the location's latitude and longitude displayed in the Location field. This helps you find an exact location on the map. Click when you find the place you want.

## Chapter 4

### Using World Book Widgets

#### Foucault pendulum

A Foucault pendulum shows the rotation of the earth. It swings back and forth in the same plane, but the earth's rotation makes the pendulum appear to change its path gradually.

*World Book photo by Dan Miller*

## This Day In History Widget

Shows significant events in history that took place on the current date or any selected date. It appears as a widget on your Mac (Mac OS X 10.4 or later is required) and can also run on an iPhone or iPod Touch.

### View Link

Click any link in an event description to open the corresponding World Book article.

### Go to Other Events

Click the arrows to see other events that took place on this day.

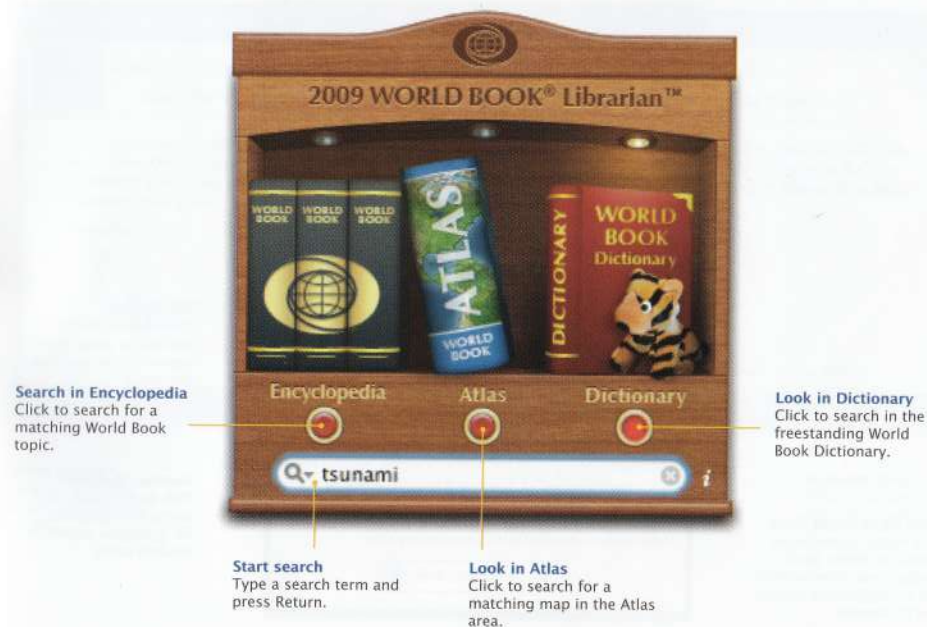

### View Info

Click the Info button to change the date.

## World Book Librarian™ Widget

Using the Librarian widget, you can immediately search for articles in World Book and search for maps in the World Book Atlas area. Moreover, you can use Librarian to find a word definition in the free-standing World Book Dictionary.

### Search in Encyclopedia

Click to search for a matching World Book topic.
