What's new with BarWare 4.5? ———

User-definable Internet buttons.
Minor fixes.

BarWare 4.5 ———

o It now runs on any Macintosh!
o Now you can get recipes from the Internet with one click.
o Better graphics.
o New Help page.
o Optimized to run exclusively on a Mac.

BarWare has 775 classic, non traditional and non-alcoholic drinks to choose from! You can find recipes quickly and easily by name, spirit, mixer, liqueur, garnish and even by what type of glass it's served in! Print one recipe or a whole list. Be sure to check out the Internet Resource Guide, great graphics and Bar Guide. You can be the bartender you've always wanted to be! $9.00 US Are you like most people and only have a few bottles in your bar? Would you like to try something different for a change?

Requirements ———

10 & 12 point screen fonts for Times Roman and Times Bold and their equivalent printer fonts for proper display.

Instructions ———

ADD TO PRINT LIST: This moves selected recipes to a layout that can be printed. To accomplish this:
1) Start by selecting the check box of the desired recipes.
2) After you have selected all the recipes you want to print, click the "P. List" button. All checked recipes will be moved to a print layout where as many recipes that can fit on a page will be printed.
3) When you are finished printing, click the "LIST" button.
4) Deselect check boxes.
5) Click the "FIND ALL" button.

HIDDEN BUTTONS: Clicking on the "i" in the word "List" will take you to the recipe index layout, where you can print the title and course of all the recipes.
Clicking on the "s" in the word "List" will sort - first by course then by name.

PASSWORD: At start up, a password dialog box will appear. Leave it blank and hit return. Most of BarWare's features have been disabled, such as the ability to print, export, modify scripts or layouts. When you pay the shareware fee your password will be sent to you automatically via email.

Payments ———

The Shareware Fee is $9.00. Please use the enclosed Kagi software or the Secure Web Page to pay for this Shareware.

If you are paying with Cash or USD Check you should print the data using the Register application and send it to the address shown on the form, which is:

Kagi
1442-A Walnut Street #392-2S1
Berkeley, California 94709-1405
USA

You can pay with a wide variety of cash from different countries but at present if you pay via check, it must be a check drawn in US Dollars. Kagi cannot accept checks in other currencies.

Please do not fax or email payment forms that indicate Cash, Check or Invoice as the payment method, the form cannot be processed.

Payments sent via postal mail take time to reach Kagi and then up to 10 days for processing. Again, if you include a correct email address, you will hear from Kagi when the form is processed.

If you do not have an email address, please enter your complete postal address and please remember to indicate what country you live in. You should also consider selecting the Postcard Receipt so that Kagi can inform you of your registration code.

I also have produced the following:

o **CookWare** doesn't have a lot of fields to fill-out like other cookbooks. You will love the speed and ease at which you can enter your own recipes (thousands are available online - just drag and drop them from your word processor). Exchange recipes with your friends via email!
Find recipes quickly by name, region, main ingredient, rating and more!
Print single recipes or a menu, even a small index for quick reference.
You'll enjoy the beautiful graphics, easy navigation and the built-in web page references; you can find books, recipes, groceries, FREE downloadable cooking videos and much more. If you love good food, this will make a great addition to your kitchen. $10.00 & $6.00 US

Additional recipe sets are available. Set 1 contains 750 recipes; set 2 contains 470 recipes. They were hand selected because they are delicious and/or classic - you won't believe how good they are!! **None were selected just to drive up the recipe count**. $10.00 & $6.00 US

o **SafeDog & SafeCat**: Could save your pet's life!
With SafeDog & SafeCat you can always have up-to-date information regarding your pet's health. Now you'll be able to give a printed copy of critical information about your pet to people who are responsible for him when you're not present. It's very important to give your groomer or boarder information like: vet's name, number, address, vaccination dates, medical information about chronic and acute medical conditions.
You can print signs with information for emergency personnel to locate your pet in the event of a natural disaster. Doesn't your best friend deserve that? $7.00 US

o **CarCare**: Digging through receipts trying to find when the last time you serviced your transmission or changed the plugs can be a real pain! But with CarCare it's fast and easy! It's also a great way to keep track of your vehicles maintenance costs. It features an "At-A-Glance" section where all general information for the vehicle is kept. An "Invoice" section where all repair costs are kept. Nice graphics. $5.00 US

o **Medical Records**: is perfect for maintaining an accurate medical history and keeping track of important phone numbers. This software is ideal if you have an aging parent and would like to keep their medical records current. You can give printed copies of the records to all family members in case of an emergency - every family member will know what doctor to call.
Or maybe you're tired of filling out all those long forms at the doctor's office. Now you'll have all the information you need to quickly transfer to any forms that your doctor requires. $3.00 US

All software is available at:
