INSTALLING THE BONUS CD SOFTWARE

Your Bonus CD contains the following programs:

- **GrammarPro!®**—An in-depth grammar reference which links to your LanguageNow!* program.
- **Unitype GlobalWriter**™—(Windows Only.) A multilingual word processor complete with international keyboard layouts, spell-checking capabilities, and customizable thesauruses.

Windows:

To install the Bonus CD software on Windows:

1. If you have LanguageNow!*, install it according to the instructions that came with your LanguageNow! CD. It is easier to set up the linking between LanguageNow! and the GrammarPro! program on this Bonus CD if you install LanguageNow! first.

2. Put this Bonus CD in the drive.

3. Do the following to install GrammarPro!:

   a. If the Bonus CD setup screen appeared automatically, click **Install GrammarPro!** on that screen. If the setup screen did not appear, choose **Start / Run**, type **D:\GPro\Setup** (where **D:** represents your CD-ROM drive), then click **OK**.

   b. Read the license agreement on the screen. If you agree with the terms, click **Yes** to continue with the installation. If not, click **No** to end the installation.

   c. GrammarPro! and LanguageNow! must be in the same directory for the two programs to link. If the installer detects LanguageNow! on your system, it will automatically install GrammarPro! in the same directory. If not, you will be asked to select a directory for GrammarPro!. Accept the recommended directory or click **Browse** to select a new one, then click **Next**.

   d. Select which language GrammarPro! to install, then click **Next**.

   e. Repeat these steps if you want to install more than one language GrammarPro!.

   f. To start GrammarPro!, use Explorer to double-click on the file in the directory where you installed it, or see the LanguageNow! on-line Help for instructions on linking to GrammarPro! from LanguageNow!. You can use GrammarPro! as you would any Help file.

---

* LanguageNow! refers to any Now! package—SpanishNow!®, FrenchNow!®, RussianNow!®, etc. These instructions can also apply to any similar Transparent Language program, such as A+ Language Lessons, Languages of the World, or Language by the Book.

4. Do the following to install Unitype GlobalWriter:

   a. If the Bonus CD setup screen appeared automatically, click **Install Unitype GlobalWriter** on that screen. If the setup screen did not appear, choose **Start / Run**, type **D:\Global\Setup** (where **D:** represents your CD-ROM drive), then click **OK**.

   b. Click **Next** on the welcome screen.

   c. Read the license agreement on the screen. If you agree with the terms, click **Yes**. If you do not agree, click **No** to end the installation.

   d. The **Destination Directory** screen appears. Accept the recommended directory, **C:\PROGRAM FILES\UNITYPE**, or click **Browse** to select a new location, then click **Next**.

   e. Choose the Program Folder in which you want the GlobalWriter icons to appear, then click **Next**.

   f. Choose the type of setup you prefer, then click **Next**. There are three types of setups— **All Languages**, which installs all language files at once but requires the most time and disk space; **Custom**, which allows you to choose the individual languages installed; and **One Language Per Script**, which will automatically select one language per type of font.

   g. Depending on which type of setup you chose, you may see a screen asking you to confirm your language choices. Verify that all the languages you want installed are marked or make any necessary changes, then click **Next**.

   h. You should restart your computer before using Unitype GlobalWriter. On the final screen of the installation, choose whether you want to restart the computer now or later, then click **Finish**.

   i. To start Unitype GlobalWriter, choose **Start / Programs / Unitype / GlobalWriter**. For information about Unitype GlobalWriter languages and features, choose **Help / Help** to see the GlobalWriter on-line Help.

Macintosh:
