

# DRAGON'S LAIR

After the CD has been inserted, double click on the CD icon and then double click on the "Dragon's Lair" icon. When Dragon's Lair is loaded, the options screen will appear. Use the cursor keys to set the various options and then press ENTER to begin playing Dragon's Lair.

Dragon's Lair requires a minimum of 4Mb RAM. If you do not have enough memory available, a message will be displayed and Dragon's Lair will not be loaded.

\* Note that even if you have 4Mb RAM, but you have a 150K/s CD-ROM drive, slow processor, or select 12 frames per second, there may still be pauses in the animation.

## Frame Rate

If you select AUTO for the frame rate, Dragon's Lair will look at your hardware to determine the best frame rate for your system before playing. If you select 12 for the frame rate, your computer will be forced to play Dragon's Lair at 12 frames per second (which may be beyond the capabilities of your computer). Slower hardware that is forced to play at 12 frames per second will have side effects like pauses, speeding up, or even loss of sound. If you select 6 for the frame rate, this will force your computer to play Dragon's Lair at 6 frames per second. This will skip every second frame and animation will not look as smooth as 12 frames per second with fast hardware.

## Fine Tuning Your System

Fine tuning your system can take anywhere from 30 minutes to an hour to complete. This will create a file to hold your configuration, the 'System Folder's Preferences' folder called "Dragon's Lair Preferences" so you will only have to do this once.

The reason for fine tuning Dragon's Lair to your system is to determine, based on your processor, video card, and CD-ROM speed, how much of each scene the game needs to prebuffer in RAM before it begins playback. If you don't fine tune Dragon's Lair to your system, it may cause pauses in the animation.

If you change hardware, delete the Dragon's Lair Preferences file in the Preferences Folder and fine tune Dragon's Lair to your new system.

## Performance

For optimum performance, you should have a 68040 processor, a 300 K/s CD-ROM drive or better

and 8Mb or RAM or better (although not all are necessary to achieve peak performance). The single biggest factor determining performance is the CD-ROM data transfer rate - a 300K/s drive is strongly recommended.

After starting Dragon's Lair, the demo will automatically begin. To start playing the game, simply press the SPACE bar. You will know the game has started when you see Dirk walking across a drawbridge in front of the castle. The bridge has a hole in it and several purple tentacles will appear. As the tentacles begin to move towards Dirk, press the FIRE key once. Dirk will draw his sword and kill the tentacles. Next press the UP direction and Dirk will climb back through the hole and run into the castle

## Object of the Game

You, Dirk the Daring, are on a quest to rescue the Fair Princess Daphne, who has been kidnapped and is being held captive by Singe the Evil dragon. To do this, you must survive a perilous journey and defeat all your adversaries. Make your way through the castle and caverns below by using the joystick or keyboard to move and the Fire Button or space bar to wield your sword. Beware of your foes, as they are numerous!

You must use your wit and reflexes to avoid the obstacles of each scene. These rooms will require many attempts to master. In general, flashing items will either indicate danger (when on a creature) or the direction to move (when on an object). Remember: The timing of your moves is critical. Don't act too early or too late, or your quest may end abruptly.

## Controls

You may use either the keyboard or a joystick to control Dirk the Daring. When using the keyboard, press SPACE for FIRE/SWORD button; "8" for UP; "2" for DOWN; "4" for LEFT; "6" for RIGHT. You may also use the Cursor keys to play the game. Press the ESC key to end the game.

To pause the game, press the 'P' key. Press 'P' again to resume play.

## Playing Dragon's Lair

You do not control all of Dirk's actions, rather you control his reactions to the events that happen around him. As you watch the animation, you must decide in which direction Dirk should move on the screen and when.

To finish a scene successfully you must make a move or press the fire button when Dirk is in danger. Timing is very critical and often you may make the correct move but at the wrong time. Also, many scenes require more than one move. If you are having trouble, watch the animation carefully and move Dirk in the safest direction, or if no direction is safe, press the fire button to use Dirk's sword.

If you're sure you have made the correct move, make the move a little sooner or a little later. Don't be surprised if Dirk doesn't move immediately after you have made a move. You must wait for the animation to finish and if you made the correct move(s), you will continue on to the next scene.

The game will end if you lose all of your lives or when you reach the Dragon's Lair and defeat the Dragon himself. There you find Princess Daphne who is very happy to be rescued...

## HINTS AND TIPS

Note: Scenes will not necessarily appear in the following order.

### Drawbridge

Dirk will walk across the bridge and fall through a hole. Several purple tentacles will appear. As the tentacles begin to move towards Dirk, press the fire button once. Dirk will draw and swing his sword. Halfway through the swing, press up on the joystick once, Dirk will put his sword away, climb onto the bridge and run into the castle.

### End of Corridor

Dirk stands at the end of a corridor in front of three doors. As he looks around, the roof starts to fall in and the floor to his left begins to crumble away. Dirk must move right to exit out the remaining door as the floor falls away and the roof comes in.

### Tentacles from Ceiling

As Dirk enters the room, a green tentacle will slither out of the ceiling. Dirk must chop the tentacle in half. Various objects will flash in the room and Dirk must move in the direction of the flashing objects.

### Snake Room

Snakes slither out of the ceiling and walls. Dirk must chop the snakes. A skeleton head drops from the ceiling and flashes. Pull the skull and exit through the ceiling.

### Pool of Water

Dirk approaches the small pool of water. The floor and ceiling start to crumble. Dirk should follow the stone path and roll to avoid the daggers coming out of the wall. Jump into the pool and avoid the water snakes. Once out of the pool, beware of the crumbling floors and ceilings. A big, hairy spider will drop from the ceiling. Dirk should chop the spider and run out the door.

### **The Goons**

Emerging in a stairwell, Dirk is attacked by small, purple goons. He can kill the first, but must climb the stairs and kill two more goons before exiting.

### **Sliding Stairs**

Dirk starts down the stairs, they become slippery and Dirk must keep from sliding into the pit. Purple tentacles come out of the pit at the bottom of the stairs. Dirk must slash and then avoid the tentacles. A chain hanging from the ceiling won't help him. Go to the hole and exit.

### **The Smithy**

Dirk enters the forge room and is attacked by a magic, flying sword. A flying mace will also come at him, and as he jumps to the forge, the stone statue comes to life. Dirk must parry the sword and jump, to avoid a bouncing anvil and a glowing sword, before he can exit the room.

### **Giant Spinning Batons**

As Dirk approaches these, he must pick the right moment to try and run through them. Once Dirk is past them, he is confronted by a Cloaked Spectre. Jump towards him and then he must use his sword to defeat him. Avoid the growing vines on the side of the pathway.

### **Closing Wall**

As the wall closes up around Dirk, the door ahead of him will flash. Dirk must jump towards the flashing door.

### **Room of Fire**

Dirk must avoid the fire and lightning being flung at him from all sides. Look behind the bench to escape.

### **Metallic Flying Horse**

Dirk finds a room with a metal horse sitting in its center. Reaching up for the gem on the horse's head, Dirk sits in the saddle and awakens the sleeping mount. The horse flies up and carries the knight straight towards the fire, pillars and a wall, which Dirk must avoid.

## Checked Floor Knight

As Dirk enters the room the Black Knight will materialize. The Knight will bang his sword against the floor causing electricity to flow along the checkered tiles, but don't be shocked. Dirk must jump to the tiles around him that are not covered by electricity. Once past this, Dirk must defeat the Knight and exit the room.

## Haunted Hallway

Dirk is attacked by clattering skulls that come out of the wall and a giant skeleton claw. Black ooze pours out from the doors on both sides as a second skeleton claw approaches Dirk again. More black ooze slimes out of the walls and must be avoided. Dirk should jump out the door into the crypt, where he is attacked by skeleton ghosts that he can kill in one slash.

## Large Wooden Platforms

As Dirk walks along a wooden platform suspended high up along the castle's dark interior, the wood planks begin to crumble away. He must jump to the remaining section of the platform and then climb the rope back into the castle spire.

## Bats

As Dirk walks down the stairs, bats will try to attack him as the section ahead crumbles away. Dirk must avoid the bats by jumping across the hole. Dirk must elude the final giant bat .

## The Lizard King

Dirk is confronted by a large, walking lizard, dressed in royal robes. As Dirk draws his sword to battle the Lizard King, a pot of gold comes flying past and takes the knight's sword with it. Dirk must follow the pot in order to retrieve his sword and battle the lizard.

## Drink Me

As Dirk walks into the room, a sign on the north wall will flash. Shortly after the door will flash. Dirk should not drink the potion, he should exit the room.

## Checkerboard Corridor

The floor beneath Dirk's feet starts to flash and the checkerboard sections begin to fall away. Dirk must jump to the parts of the floor that remain and then out one of the doors.

### **Metallic Ball**

As Dirk approaches the ball, his helmet and sword are drawn away from him by the electricity. The pulsating electricity then starts to cover the floor, and Dirk must jump to the safe parts to end up sitting in the throne. The throne revolves into another part of the castle, but the electricity follows. Dirk must again dodge the electricity.

Whirlpools/Rapids

RAPIDS: Dirk must paddle into the safe current in the rapids and then straight into the tunnel at the end of the channel.

WHIRLPOOLS: As Dirk approaches a whirlpool, he must paddle around the swirling water. Dirk must be sure to grab the chain as the boat smashes and swing out the door.

### **Lava Field of the Mudmen**

Dirk walks across a field of lava and is attacked by the Mudmen who live there. Realizing his sword would be useless, Dirk must jump over several geysers, avoid the Mudmen and run along a stone bridge before finally escaping through a hole in a cavern wall.

### **Phantom Knight**

Dirk must avoid the charging knight, while also avoiding the giant thorns pushing up through the earth. Dirk should jump into the small cave to finally escape.

### **Rolling Balls**

After Dirk enters the room, a large, black ball will appear rolling up from behind him. Ahead of Dirk, down the tunnel, smaller balls are rolling up and down the walls. Dirk must wait for a smaller ball to roll by before moving away from the larger, black ball.

### **Falling Platform**

Dirk steps on a round wooden platform. The platform starts to fall downward through a circular shaft. It stops intermittently at rocky ledges for Dirk to jump off. Timing is everything in jumping off the falling platform.

### **The Round Cage**

The case of the cage surrounds Dirk and starts to glow. Dirk must jump through the crashing doors and follow the stairs up to cross a bridge. To cross this bridge though, Dirk must evade the gushing geyser shooting up through the bridge.

### **The Dragon's Lair**

Dirk is now inside the Dragon's Lair! But beware, Singe the Dragon is asleep and should not be awakened. Throughout the room there are balancing dishes and some of them are about to fall. If a column of balancing dishes flashes, Dirk should catch it, otherwise move away from the dishes. Eventually, the princess will tell Dirk what he should do. Listen carefully and follow her instructions.

Singe the Dragon is awake and he knows where you're hiding. As Singe reaches around the column to grab Dirk, Dirk must duck and run away. Singe will swing his tail trying to flatten Dirk; Dirk must dodge the tail. Dirk should then pull the magic sword out of the large gem. Singe turns around exposing his soft belly. Dirk can now kill the Dragon and save the princess!
