Wallobee Jack is the world's first interactive cartoon. Get ready for non-stop cartoon fun that you can even interact with! Were it up to these Digital Toons, they would quietly get on with their stories, but thanks to the Quiclick Interaction System (Q.I.S), you can change their lives. Here's how you do it:

When the pointer is like this,  just sit back and enjoy the show, but stay near the edge of your seat because when the pointer turns to this,  it's time to find a hotspot and you've got to move quickly! When the pointer is on a hotspot, it will change to either this  or this  and then it's time to click!
