

## INSTALLATION INSTRUCTIONS FOR THE MACINTOSH

*Sierra has developed a Macintosh Installer application to simplify your installation process. Just follow these steps to start playing Lighthouse.*

- 1 Run the "Install" application on *Lighthouse* Disc 1.
- 2 Select a volume to install the game to, and click the "Install" button. Quit the installer when finished.
- 3 If the installer informed you that you need a new version of the Sound Manager, you need to install Quicktime 2.5. Run the installer application within the Quicktime 2.5 folder on *Lighthouse* Disc 1, and follow it's instructions.
- 4 Double-click the *Lighthouse* icon within the *Lighthouse* folder installed to your hard drive, and enjoy the game!
