

THE WORD'S OUT ABOUT MAC-SLOTS...

"IT'S A WINNER!"

"Dropping my \$5 coin into the slot, I quickly moved the mouse to the lever, pulled it, and instantly became victim to the hypnotic spinning of the wheels. Oranges went by. Apples (with a bite out, of course). Even spinning Macs. As they slowly came to a halt, I let out a whoop of delight at the sight of two cherries followed by a double bar. The clink of my jackpot was music to my ears."

*"The excitement of casino play has been captured by this product from Soft-Life."
Lenny Frieling, The Club Mac News*

The letters keep coming in about our new Mac-Slots game.

Here's just a few 'quotes:

"Marvelous... Thanks for hours of fun." -C.A. Pearce, Berwyn, Illinois

"Here's my entry into the Mac-Slots contest." -B. Neves, Olathe, Kansas

"Have enjoyed trying to achieve a record score."

- J.A. Piper, Haymarket, Virginia

"It's addictive. I'll bet no one can play just once."

-D. Nobles, Los Angeles, California

Steve Shendelman from ST. MAC. says:

"Playing is as simple as using the mouse. The graphics are good and the package is easy to learn."

THE MAC-SLOTS' NATIONAL COMPETITION IS GOING STRONG.

So make sure you get in on all the action and the chance to win great prizes.

MAC-SLOTS INSTRUCTIONS

Your new Mac-Slots game is fun, easy — and almost addictive. There are two games on this one disk. KENO and SLOT MACHINE. Choosing the game you want is as simple as moving the mouse, which controls the cursor, to indicate the game you wish. Now good luck!

KENO

OBJECT OF KENO: To match as many numbers as possible with **Mac-Slots'** random selection. You are allowed to choose up to ten numbers. Your winnings are determined by how much you bet and the number of right choices you make.

TO BEGIN PLAY. Insert the Mac-Slots disk into the computer and turn it on. Almost immediately, the screen will display three choices: KENO, SLOTS and SCOREBOARD. After you make your choice of game, the CASINO CREDIT APPLICATION¹ pops on screen. Now type your name in the box, 'Click' the "O.K." with the mouse and you're off and running.

TO PLACE YOUR BET. Move the mouse until the cursor is pointing at a stack of coins. Now while holding down the button on your mouse, carry coins to the space just above the COIN SLOT. Release the button and watch the coins drop into the slot.

TO CHOOSE YOUR NUMBERS? Simply move the cursor to the number of your choice. 'Click' the mouse button once for each number and your selection will be marked with a CHECK (✓).

TO CHANGE YOUR BET. 'Click' ERASE with the mouse and you can now re-enter your new selections. NOTE: You cannot use ERASE or START until after you have placed a bet.

TO START THE ACTION. Move the cursor to the START box and 'Click' the mouse. Immediately, Mac-Slots will randomly select 20 of the 80 numbers displayed on the screen. If your number is one of the lucky ones chosen, a blinking CHECKMARK (✓) will light up over your selection.

The odds of choosing and hitting one number are about **one** in **four**. By comparison, the odds of hitting ten out of ten are close to **one** in **eight million!**

You can check your potential payoff after you have placed your bets and selected your numbers by 'Clicking' the pull-down window labeled, PAYOFFS³.

SLOT MACHINE

OBJECT OF SLOTS: To beat the odds of randomly arranging like objects in various winning sequences and combinations.

TO BEGIN PLAY. Change the game mode to SLOTS and follow the same instructions for KENO. (New players must fill out credit application, shown in 1).

TO PLACE YOUR BET. Move the mouse until the cursor is pointing at a stack of coins. Now while holding down the button of your mouse, carry coins to the space above COIN SLOT. Release the button and watch the coins drop into the slot.

TO START THE ACTION. Now that you have placed your bet, bring cursor to top of the slot machine's pull handle. Press and hold mouse button. The cursor will turn into a hand. Slowly pull handle down until it reaches bottom of machine.⁴ Release mouse button which sends cylinders spinning.

To check payoff⁵, simply point the cursor at the menu bar labeled INFORMATION, 'Click' the mouse button and hold. Now move the cursor down until the item 'SLOT PAYOFFS' is highlighted. Release button and the payoff combinations will be shown with the amounts to be paid out according to your bet. To return to the game, point cursor at "O.K." box and 'click'.

SPECIAL FEATURES

SCOREBOARD. The top ten scores are automatically recorded and kept. They will be shown in descending order and are changed whenever a previous high score has been surpassed.

CASHIER. Just like in Vegas, the cashier changes money, extends credit, cashes in chips and of course collects on debts.

COCKTAILS⁶ (OR HOW TO INCREASE YOUR BETTING LIMIT) At the start of each game the maximum amount you can bet is \$5.00. However, the longer you play and the 'stronger' the cocktail drink you order...the more you will be allowed to bet.

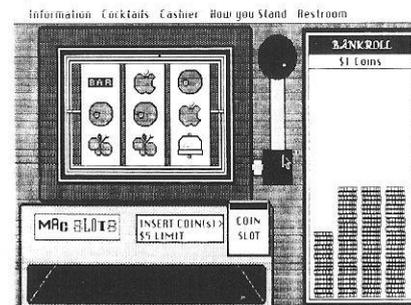

To find out your limit, point to the menu bar labeled COCKTAILS then press and hold the mouse button. At first you will only be allowed to order softdrinks but later as you continue playing the drinks will become stronger. NOTE: Only the drinks displayed in BOLD TYPE are available. Those shown in gray italics are not available. Those shown in gray italics are not available unless you play longer.

RESTROOM. If at any time you want to 'hide' the sound of Mac-Slots and play silently or 'hide' the picture, simply point the cursor at the menu bar labeled RESTROOM, 'Click' mouse button and hold. Now move cursor down until either 'SHHHH...' or 'HIDE...' is highlighted, then release button. If 'SHHHH...' was selected the sound will be turned **off**. If 'HIDE...' was chosen the screen will go blank.

To bring the picture back at the exact point you left, either press RETURN on the keyboard or use the mouse to find the RESTROOM pull-down window on the darkened screen and choose 'BACK TO MAC-SLOTS.'

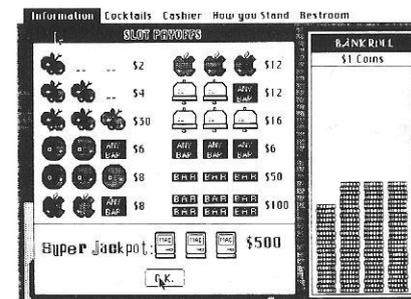

INSTANT UPDATE. Point the cursor at the menu bar labeled HOW YOU STAND. Press mouse button and hold. Instantly you will see your current bankroll, winnings and losses.

4

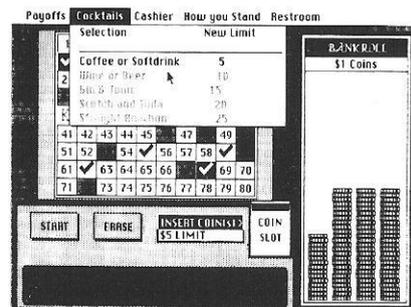

SLOT MACHINE OPERATION:
Place your bet, grab the handle and PULL! How lucky are you today?

5

INFORMATION:
Check Information (and all pull-down windows). The more you know about Mac-Slots, the better chance you have to win!

6

COCKTAILS (or how to increase your betting limit)
As the chips pile up, you can order stronger drinks. But watch out! They'll affect the odds and your play!

ANNOUNCING

COMPETITION ON MAC-SLOTS

Every owner of the new Mac-Slots package of casino games is automatically eligible to win! No extra purchase! No long, involved rules!

Play **KENO** or play the **SLOT MACHINE** or play both games -- and record your winning score on the Mac-Slots scoreboard. Then send us an envelope containing a screen dump picture of your scoreboard. Include your name, phone and address. That's all you need do!! If you get a better score later, just send us a new screendump. Enter as often as you wish -- or as often as necessary, as you pile up new, amazing numbers!!

WAIT! You don't know how to get a screendump? It is actually very easy! Press the 'Command' (⌘) key and the 'Shift' key simultaneously. While holding down both keys, also press the number '4'. Let go of all keys and the Macintosh will print out the entire screen to the imagewriter printer! (If you don't have a printer, take your disk to a dealer or anyone else who does. The scoreboard will still show your score and will print out on anyone's system!)

We will highlight the top ten current scorers in our monthly ads in magazines such as Mac World and ST Mac. If you are in the top ten highest scorers who have sent in scoreboard screendumps, your name will appear each month for which you qualify!

When the contest period is over (November 30), we will select the final list of ten winners from the entries which have arrived between now and then. We will verify your score from your MacSlots disk, to assure accuracy and validity, before winners are announced.

This contest ends November 30, 1984. All entries must be postmarked on or before that date. Prizes will be awarded in time for Christmas, 1984!! What prizes, you ask? Read on
